Note.—The amount of debt, as shown in the above Return, is that upon which execution was granted, but which in a great number of cases is not the *original* amount of debt. The Court of Requests generally makes an order for the amount to be paid by instalments, which is frequently done to within a few shillings, when execution is granted for the balance; this will account for the great disproportion between the debt and the costs in many instances. The whole of the costs are included in each case, from the issuing of the summons to granting execution. The costs of execution are, for every debt *above* 2*l.*, 6*s.* 6*d.*; and *under* 2*l.*, 3*s.* 3*d.*

The reason why the debts of some of the persons are returned blank is, that they had been paid by instalments on order, previous to the issuing of the execution, and that a great many of the debts which appear so small had been previously reduced in the same manner.

Dover Castle, 26 March 1835.

I humbly beg leave to state, that I cannot complete that part of the Return in the cases of executions which requires that the debts and costs in each action should be separately stated, because the sum marked on the writ or warrant does not set forth these particulars. I have no means therefore of furnishing them.

It may be necessary to observe, that the number of persons stated in the above Return to have been charged in execution, were so charged under local Acts of Parliament passed for recovery of small debts, not exceeding 5*l.*; that the debt and costs were, in most instances, made payable by small monthly instalments, according to the situation of the parties; and that, in default of compliance with the order of court in full, they, the parties, were charged in execution for the balance remaining unpaid, which will account for the several small amounts stated in this Return. It may also be necessary to observe, that the length of imprisonment of each party is prescribed by the same Acts; namely, for debts not exceeding 20*s.*, twenty days; for debts not exceeding 40*s.*, forty days; for debts not exceeding 60*s.*, sixty days; and for debts not exceeding 5*l.*, one hundred days; and that very many of such debtors remained in custody for still shorter periods, (many a few days only) under arrangements made for their discharge.

As in many instances the warrant does not give the amount of costs, but the words, "Take the whole as indorsed," it is impossible for me to give the amount of the costs, the same not being inserted or indorsed. In those instances where I could ascertain the costs, the same have been inserted.

I have inquired at the sheriff's office, and they can give me no information with respect to the costs, exclusive of the several debts, as they are only stated in the original writs, which the sheriff always returns; the warrants that are brought to me do not distinctly state what are the debts exclusive of the costs.

In setting forth, in the foregoing Return, the amount of the Debt and Costs for which each party was charged in Execution, the Marshal has, in those cases where the party has remained in prison more than a year, stated the amount for which the party was so charged in Execution in the first year of the party being so charged, with a reference to that year in every subsequent year; and in those cases where the amount has been diminished or increased, he has in the subsequent years, as well as a reference to the preceding year, stated the decreased or increased amount with which the party was charged. The Marshal has not the means of distinguishing the amount of the Debt and Costs separately for which each party was charged in Execution, except in a few cases, the Commitments generally including Debt and Costs in one sum.

No costs appear upon the writ in the under-sheriff's office to those marked thus (*).

The one marked thus (†) in p. 159, is for costs and charges only.

Those executions in which the costs vary from 2s. 2d. to 2s. 8d., are executions out of the Court of Conscience for sums under 40s.; and the persons in execution (unless the debt and costs be sooner satisfied,) remain in custody for three weeks for debts under 20s., and six weeks for debts exceeding 20s. and under 40s. These (it will be seen) constitute a large majority of persons in execution in this Return.

All the above have been in custody under writs of execution issued under "An Act for the more easy and speedy recovery of Small Debts within the Isle of Wight, in the County of Southampton."

The general result of imprisonment has been the obtaining payment of the debt and costs to the plaintiffs.

The variation in amount of costs arises from the distance at which defendants reside from the gaol.

No prisoner in execution or arrest during this period by process from the court of record for the Borough of Newport.

I have sent a Return of the number of persons imprisoned for debt, who were not "in execution." The writs of execution do not give the amount of debt and costs separately. I am sorry I cannot give further information relative to those in execution, which can be obtained only through the under-sheriff, J. R. Staff, esq. I have had in each of the years mentioned in the Return from 100 to 130 persons from the Court of Requests, for debts under 40 s. For any sum under 20 s. the party lay 20 days; if one farthing above 20 s. they lay 40 days, receiving each day 1 ½ lb. of the best white bread, very often the cost of which has been more than the debt.

[The Under Sheriff has been applied to, but has not returned any answer.]

Many of the debts and costs are not stated separately; those are, debtors committed in execution from the Courts above, which only states levy for so much. Those in execution from the City Court of Pleas are marked with an asterisk; the others, where I have separated the debt and costs, are those that have been committed under mesne process, and served in execution in the prison. The sheriffs cannot give me any more information respecting those committed in execution.

N° 2.—BEDFORDSHIRE.

AT the General Quarter Sessions of the Peace, holden at Bedford, in and for the county of Bedford, on Tuesday the 14th day of October, in the 5th year of the reign of our Sovereign Lord *William* the Fourth, by the Grace of God, of the United Kingdom of *Great Britain* and *Ireland* King, Defender of the Faith, and in the year of our Lord 1834; before Francis Pym, esquire, chairman, the Right honourable Lord St. John, Lord Charles James Fox Russell, commonly called Lord Charles James Fox Russell, William Henry Whitbread, Samuel Crawley, Samuel Charles Whitbread, Stephen Thornton, John Higgins, Thomas Charles Higgins, Charles Longuet Higgins, William Dodge Cooper Cooper, Richard Longuet Orlebar, George Musgrave, George Peter Livius, Henry Musgrave Musgrave, esquires, James Reed, John Hull, Frederick Hervey Neve, James Beard, Thomas Barber, Jacob Henry Brooke Mountain, Henry Davis Ward, clerks, and others their fellows, Justices of our said Lord the King, assigned to keep the peace in the said county, and also to hear and determine divers felonies, trespasses and other misdemeanors committed in the said county :—

The GENERAL REPORT of the Justices of the Peace of the county of Bedford, assembled at their Michaelmas Quarter Session, 1834, in pursuance of the Acts 4 Geo. IV. c. 64, and 5 Geo. IV. c. 85, relating to the building, repairing and regulating certain Gaols and Houses of Correction in England and Wales.

THE Keepers of the Gaol and Houses of Correction stated no circumstance in their Reports and Certificates in the course of the year which required observation.

The Surgeon reported at Epiphany session, that in the Gaol and Old House of Correction there had been much illness, and of rather a severe character, more particularly in the Old House of Correction. That the peculiar eruption, attended with very painful swelling of the legs, mentioned in his last Report as prevailing to some extent, had continued to attack in succession several men in the House of Correction, but none so severely as those first attacked. That one prisoner who was committed in a state of great debility, died in a state of extreme exhaustion.

That in the New House of Correction, taking into consideration the great number of prisoners, there had been little illness.

At Easter sessions he reported that in the Gaol and Old House of Correction, the petechial disease which had been prevailing in the Old House of Correction for the last few months, had continued in a mitigated degree during the past quarter. That there had been three fresh cases of a less severe character than the former ones, and that a debtor who had been in confinement for a very long period was attacked with congestion of the brain and lungs, and died in a few hours.

That in the New House of Correction in the early part of the quarter, the health of the prisoners was remarkably good, but subsequently there had been a good deal of illness, but not of a serious character.

At the Midsummer session he reported, that in the Gaol and Old House of Correction, the illness that had prevailed had been of a varied and slight character generally. That the petechial eruption was rather on the decrease.

That in the New House of Correction the sickness had been nearly the same as in the Gaol, with the exception of the petechial affection.

At Michaelmas session he reported, that in the Gaol and Old House of Correction, with the exception of the men ill with the petechial disease, there had not been more illness than usual, and none of a very serious nature. That the petechial scorbutic disease had been very obstinate and painful, accompanied with spongy swelling and bleeding from the gums, and a very disagreeable fœtor of the breath, similar to that arising from the use of mercury; considerable extravasation of blood has taken place in the afflicted limbs, leaving them in a very indurated state. That this disease is very similar to one which was formerly very prevalent amongst sailors, on long voyages, where they were liable to great privations in regard to diet. That he has seen more of it this season than for many preceding years, in his general practice. That the men who had been ill with it in this prison are now gradually recovering; they had been, for some weeks, allowed a substantial dinner of meat and vegetables, with a pint of porter daily, this combined with a regular course of powerful medicine, and frequent frictions of the limbs, appears likely to succeed in completely removing the disease.

That in the New House of Correction there had been very little illness, notwithstanding the prevalence of epidemic disease elsewhere.

The Chaplain reported at Epiphany sessions, that although the number of prisoners was unusually large, the instances of misconduct or insubordination had been comparatively few. That at chapel, owing in a great measure to the vigilance of the officers, the prisoners were orderly, and some of them attentive; and when he had visited and read to them in their day rooms, they had been (with very few exceptions), well conducted.

At Easter session, the Report does not materially differ from the former.

At Midsummer session he reported, that the general conduct of the prisoners had been satisfactory. That in and out of chapel they demeaned themselves with submission and propriety; he complained of their gross ignorance, and that, of the commitments during the quarter (which had been numerous), the majority, he had ascertained to be the result of drunkenness, a vice to which young men especially seemed to be lamentably addicted.

At Michaelmas sessions he reported, that the conduct of the prisoners, as far as he had been conversant with them, had been much to his satisfaction. That he has occasionally visited and read to them in their day-rooms, and they have always appeared thankful. Whether his humble ministration among them were attended with any beneficial effect, time alone will tell, he considered but little confidence can be placed on promising appearances, whilst they are in prison. Of very few of them he feared can it be said, that their crimes were the result of their condition, but of many that they were the result of drunkenness.

The Visiting Justices reported at Epiphany quarter sessions, that the state in which they had uniformly found the prisons, and at unexpected visits, had been highly praiseworthy. That great interruption to the discipline of the Gaol and Old House of Correction, had arisen from the position of the Infirmary, as it was easily accessible to the debtors: and as facilities were thus afforded to all who could procure admission into the infirmary, to hold intercourse with the debtors, and to obtain means for counteracting useful regulations, and for carrying on an intercourse with the prisoners in other wards, and with persons not within the walls of the prison, particularly as the friends and visitors of debtors had very ready admittance into the gaol. The Visiting Justices also thought, that more room was wanted in that prison for extraordinary and contagious diseases, and recommended the Bench to defer entering upon the execution of a late order for building additional cells over the tread-wheel in the Old House of Correction, as it might be desirable to combine such additional cells, with an enlarged infirmary attached to the northern outward wall, and to make various extended alterations, they recommended the consulting the county surveyor, and desiring him to report thereon. They suggested that, in the meantime, additional precautions should be taken as to debtors visiting the infirmary. They reported that the visits of the chaplain and surgeon had been regular, and the discharge of their duties satisfactory. That the health of the prisoners had been good, except in the case of petechial eruptions on the legs of some convicts alluded to in former Reports.

At the Easter sessions they reported, that very disadvantageous contracts had been made heretofore, in the supply of various articles for the use of prisoners, such as shoes, clothes, bread, &c., and they had in consequence directed new tenders to be made for the supplies in question. That much saving, and an improvement even in the quality of the article itself, was likely to be the result. That on the subject of bread, they were persuaded that much advantage would be derived if the prisons, the Lunatic Asylum, and the General County Infirmary, were to have one common means of baking bread. That all those institutions were supplied with flour by the tread-mills, and thus ensured purity in that respect; but the process of baking is necessarily carried on by tradesmen in the town, and the most nutritious bread is not always obtained. And as the governors of the infirmary had shown a disposition to unite with the other institutions in some uniform plan, the justices recommended that a committee should be appointed, to confer with a committee of governors, in order to further this desirable end.

The Visiting Justices could not gratify the Court with an account of any diminution of crime, if they might judge of crime by the number of individuals who were daily flocking to the prison. This unfavourable circumstance rendered it of great importance that the prison discipline should be maintained, much vigilance and method were called for on the part of the subordinate authorities, and the Justices wished they could speak with unqualified praise of their zeal on every occasion. That a most daring escape had lately been effected, by a prisoner committed on a charge of sacrilege and house breaking: he tore his smock frock into shreds, of which he made a rope, and attached to it a stocking filled with pebbles, this he threw over the outer wall, and the broad coping of stone formed a stay to it; by these means he raised himself up, and descended by the same aid. Another prisoner attempted his escape immediately after, but the rope broke and let him down with great velocity into the garden below. It was singular that the prisoner who escaped was not missed by the authorities, until after the prisoners had been some time assembled in chapel, which proved a defect in vigilance.

The Visiting Justices forebore to direct the attention of the Court to the recommendation in their last Report, relating to some desirable but extensive alterations in the Gaol and Old House of Correction, the proposed alteration would, no doubt, much facilitate the subordination and discipline of the prison; but on the other hand, they could not but fear, that the present extreme agricultural pressure, would render a further outlay from the county purse on the above behalf, a burthensome impost upon the rate-payers, and they did not think the occasion sufficiently urgent to justify them in reiterating their former opinion.

At Midsummer quarter sessions, they reported that they had ordered a window in the turnkey's lodge, which is calculated to insure a more constant inspection of the felon's ward, and the filling up the outside coping of the boundary wall, so as to prevent any thing thrown over from the prison, catching or getting a bearing, as prisoners have endeavoured, by such means, to effect their escape, and in a recent instance successfully. That they had felt it to be their duty to lessen the allowance of soup and gruel to those sentenced to hard labour, and had, in consequence, ordered each prisoner to be allowed only one pint of gruel at breakfast, one pint of soup at dinner, and one pint of gruel at supper, with one pound fourteen ounces and a half of bread for the day. The cost of soup is three farthings per pint. The cost of gruel is one penny per quart. They recommended a separation of the convicts sentenced to hard labour, should be rigidly enforced, even in cases of complaint of illness, as the labour at the tread-mill, not being felt by the prisoners to be by any means so severe a punishment, as the prevention of intercourse among them. Illness is often feigned for the purpose of enabling them to congregate in the infirmary. This restriction has of course no reference to manifest cases of illness. That they forebore making any further remark, as to the propriety of taking into consideration a more effective administration of the rules of the prison, whilst under the superintendence of the present gaoler, as however good his intention, his infirmities present a sufficient obstacle to their due fulfilment, and the time will shortly arrive when a successor must be appointed.

They therefore strongly recommended this subject to the immediate notice of the Court. They suggested that some order should be made respecting the future removal of convicts, as in consequence of a recent regulation of Government, they are now transferred to Portsmouth instead of London, and the absence of the gaoler during the period required for such a journey, was always dangerous, and might in some cases be attended with serious consequences to the prison.

That the expense of baking bread, had in consequence of a new arrangement been reduced from 10*l.* to 3*l.* during the last quarter.

At Michaelmas sessions, they reported that the repairs and alterations ordered to be made in the prison had been completed. That the behaviour of the prisoners had been orderly. That the order, cleanliness and discipline of the gaol had been considerably improved in consequence of the assiduity and attention of the turnkey; but as some alteration will take place in the appointment of the officers, owing to the resignation of the gaoler, it would be advisable that the rules should be revised in order to enforce a more strict discipline than now exists, and recommend that a Committee of Justices be appointed for the special purpose. That one attempt at escape was made in the last week, but it was discovered by the turnkey on his entering the day-room. That the prisoner had concealed about his person the rope he had made of a blanket during the night, and the change in his appearance led to the discovery; a proof of the propriety of not allowing any prisoners to wear the loose frocks, which had been permitted until lately.

The annual returns of the gaoler and keepers of the Houses of Correction are in the form required by the Act 4th Geo. IV. c. 64; and it appears by them that the number of prisoners at this session is 80, being a decrease of eight on the corresponding quarter of last year.

The number of prisoners in the course of the year has been 524, being an increase of 71 on the number in the year ending Michaelmas 1833.

The greatest number of prisoners at any one time in the year now expired is 161, being an increase of 31 upon the corresponding number of last year.

N° 3.—BERKSHIRE.

TO His Majesty's Justices of the Peace for the County of Berks, assembled at the Michaelmas Quarter Sessions, 1834.

THE Report of the Clerk of the Peace, pursuant to the statute 4 Geo. IV. c. 64, s. 24, intituled, " An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."

FROM the several Reports of the Visiting Justices of the County Gaol and House of Correction at Reading, and of the House of Correction or Bridewell at Abingdon, to the Court of Quarter Sessions for the last year, it appears that the buildings are in good repair, that the prisoners have been healthy, and their conduct such as becomes their condition.

The Chaplains of both prisons have reported that the general conduct of the prisoners, except in a few instances, has been orderly, and their behaviour during the service of the chapels serious and attentive.

The Surgeons of both prisons have reported that the prisoners have generally been in good health, the wards kept clean, and the bread and meat sweet and wholesome ; and that the infirmary at Reading Gaol has answered every good purpose.

The Keepers of both prisons have regularly delivered to the Court at the several quarter sessions, reports or certificates, as required by the 21st section of the Gaol Act.

(signed) W. Budd, Clerk of the Peace.

Berks, Michaelmas Quarter Sessions,

with the Accounts of Receipts and Expenditure of the Gaol for the last Quarter; and also Tables of information to be laid before the Court of Quarter Sessions for the information of the several Justices.

24.—Allowance of Clothing and Bedding, and Cost per Head?—EACH Man has on his entrance a suit of Clothes, Cap, two pair of Stockings, two Shirts, one pair of Shoes, two Blankets, one Rug and Bed, (canvas and straw), which cost 2*l.*, and for Boys 1*l.* 14*s.* 5*d.* For Female Prisoners, one Grogram Jacket and one outside Petticoat of the same; one Flannel Petticoat, two Shifts, two pair of Stockings, one pair of Shoes, two Caps, two Neckerchiefs, two Aprons, a Canvas Bed with Straw, two Blankets and a Rug. Cost about 2*l.* 3*s.* 11*d.* per Head when new, and last on an average twelve months.

25.—Description of Employment and Hard Labour?—MALE Prisoners work at the Tread-mill, pumping, cleaning, whitewashing, painting and repairing the Prison; also repairing Male Prisoners' Clothing and cooking. Female Prisoners are employed in washing, making and mending Prisoners' Linen, also repairing Prisoners' Bedding. Tread-mill, Prisoners for Hard Labour. Women are employed in washing and mending for the Prison. Pumping, Prisoners not for hard-labour, and for those unable to work at the Wheel. The Male Prisoners are, according to their capacity, also employed in mending Gaol Apparel, and by a recent Order of the Visiting Magistrates, many of the Repairs are done by the Prisoners, which is a great saving to the County.

26.—Hours of Labour and of Exercise?—TEN Hours in the Summer and Seven in the Winter, including half an hour performing Divine Worship. The remainder of the day for Meals and Exercise, resting also one Hour out of ten during the very hot weather.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Mill is now let for 35*l.* a year, but by agreement with the Rentor, an allowance is made when there is not a sufficient number of Prisoners to keep the Mill at full work, and which amounts to the sum of 23*l.* 19*s.* for the last nine months. The repairs for the nine months amounted to 30*l.* 6*s.* 10*d.*, showing a loss to the County of 6*l.* 7*s.* 10*d.* By a recent order of sessions, the whole of the Prisoners' Earnings is to be paid over to the Treasurer of the County.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification agreeable to this Act has been fully complied with, and a Committee is now inquiring into the management and discipline of the Gaol, and report thereon at this Sessions.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—DIVINE Service twice on Sunday, Christmas Day and Good Friday, with one Sermon on each day, and Prayers from the Liturgy every day throughout the year with a portion of Scripture. The Chaplain admonishes in the Chapel for about ten minutes every incoming and outgoing Prisoner separately, and constantly visits the different Wards of the Gaol and House of Correction, both Male and Female, to explain the Scriptures, and superintend their instruction in Reading. Prisoners are supplied with Bibles, Testaments, Prayer Books, religious Tracts, Spelling Books, &c. at the Expense of the County.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—ABOUT Four Days in the Week, and oftener if required. Infirmary for Men and ditto for Women. The Infirmary Diet Table, obtained from St. George's Hospital, is annexed in the printed Return sent herewith. A Book is kept by the Surgeon in which he enters the Names of the Sick Prisoners under the respective Diets, and the day of entry and discharge from the Infirmary; previous to this regulation, the number of Sick was considerable; there are now very few in the Infirmary. See Table annexed.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THESE consist of Prisoners committed for Trial at the Assizes, Sessions, and for Examination, and are prohibited from working at the Tread-mill by an Act of Parliament.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—DESTROYING the Property of the County, refusing to work, riotous conduct, selling their Provisions, begging, insolent behaviour, stealing in the Prison, attempting to escape, being found with Tobacco and for talking.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—YES. JAMES GRIFFITHS, Age 35. For stealing a Tea-kettle. Came into custody 25th April 1834. Reported by the Surgeon to be Insane on the 3d of August last.

34.—General Observations.

TO the Right Honourable Viscount Duncannon, one of His Majesty's
Principal Secretaries of State.

Bucks, } The GENERAL REPORT of His Majesty's Justices of the Peace for the
(to wit.) } County of Bucks, in Quarter Session assembled, on the 14th day of October
1834, founded on the Reports of the Visiting Justices, on the Report of the
Chaplain, and on the Certificates of the Keeper of the Gaol and House of
Correction at Aylesbury, made pursuant to the Act 4th Geo. IV. c. 64. s. 24.

Sheweth,

THAT it appears by the quarterly Reports made by the Visiting Justices to the Courts of Quarter Session, that they have always found the several prisons clean and in good order, and that they have constantly found the same well ventilated and whitewashed.

That it appears by the said Reports, that the number of the prisoners in the said Gaol and House of Correction, during the said last year has been on an average 154 in each quarter.

That it appears by the said Reports, that the health of the prisoners during the last year has been generally good, except during the last quarter, when the cholera made its appearance again, and four men have died of this disease.

That it appears by the certificate of the Gaoler, that the classification of the prisoners in the said gaol, as required by the Act of Parliament, has been complied with, except in the case of female prisoners, who are all necessarily confined in one ward, by reason of the present ward not affording sufficient means of separation.

That it appears by the Report of the Chaplain to this session, that Divine Service has been regularly performed in the Chapel twice every Sunday, and once every week day, and that, on all these occasions, with almost a single exception, the quiet, steady, orderly behaviour of the prisoners had been very evident. That he has repeatedly visited the different wards of the Gaol and House of Correction, and his advice and exhortations have been received with an attentive demeanour from the prisoners confined therein, by no means indicative of an impenitent state; and that he has been led to believe that the confinement and discipline now adopted in the gaol are calculated to create an impression upon them, and has been decidedly productive of good.

N° 6.—COUNTY OF CAMBRIDGE.

The GENERAL ANNUAL REPORT of the State of the Gaol and House of Correction for the County of Cambridge, for the Year 1834, prepared and transmitted by the Clerk of the Peace of the said County, pursuant to the Act of the 4th Geo. IV. c. 64, s. 24.

GAOL and HOUSE of CORRECTION.

THE Visiting Justices, in their Report, delivered in at the Epiphany sessions, state, that an unprecedented number of prisoners were then confined in the gaol and house of correction. They state that during the three months which their Report embraces, the gaol and house of correction are usually most crowded; but notwithstanding the low price of provisions and the necessities of life, they found a most alarming increase of prisoners, upon a comparison between the corresponding quarters of the three last years. Upon the 28th December 1831, there were 79 prisoners; upon the same day, in 1832, there were 76 prisoners; and on the 28th of December 1833, there were 114 prisoners, being an increase of no less than 38 upon the winter quarter of 1832. The number of debtors in prison in January 1834 was 18, showing an increase of 11. The number of poachers in custody was then 18, but the whole number committed under the Game Laws in 1833 showed an increase of 30, there being 31 in 1832, and 61 in 1833. The Visiting Magistrates, in the same Report, call the attention of the Court of Quarter Sessions to the very considerable increase which has lately taken place in the number of persons sentenced to transportation: the yearly average of convicted transports from 1824 to 1828 was 12; the yearly average from 1829 to 1833 was 23, or nearly double. The expense of conveying each convict to the hulks has for a long period been fixed at 1s. per mile, or 6l. per man to Portsmouth, the most usual place now for receiving convicts. The Visiting Magistrates were of opinion, that this cost of conveyance is exceedingly beyond the sum which is absolutely required, and that a new regulation was imperiously called for. The annual average expenditure under this head from the county rate amounts to 140l. one half of which the Visiting Magistrates considered would be an ample allowance for the conveyance of an increased number of transports.

In their Report delivered in at the Midsummer sessions, the Visiting Justices state, that there was a diminution of prisoners as compared with the Midsummer sessions of last year. They also state that the keeper of the gaol having stated to them that he has great difficulty in ascertaining whether the prisoners under his charge for trial are to be brought up to the sessions or assizes, they suggest that the inconvenience would be easily removed if committing magistrate would state on the back of the warrant at which court the witnesses are

are bound to appear. A communication was accordingly made to the clerks to the magistrates in the different divisions, in order to secure the observance of this regulation. The Visiting Justices, in their Report delivered in at the last Michaelmas sessions, state that the increase upon the whole of the commitments during the year, as compared with the preceding year, was considerable. From Michaelmas 1832 to Michaelmas 1833, the commitments were 375, of which 44 were debtors. The commitments from Michaelmas 1833 to Michaelmas 1834, were 426, of which 66 were debtors, showing an increase of 48 commitments, namely, 26 criminals and 22 debtors. The number of prisoners committed during the year who had been in gaol before was very great, in all 87, thus classed: 38 once before, 31 twice before, 10 three times, and 8 four and oftener; four persons had been twice committed during the year. The number of females had been 21, and the commitments under the Game Laws 64, showing a large increase. In 1833 there were 39, and in 1832, 52 commitments for similar offences. The Visiting Justices further state that the iron railing in front of the gaol had been completed, and a great improvement thereby effected, though at somewhat a greater expense than was originally estimated, owing to the depth it was necessary to go for a good foundation. They however observe, that sufficient attention was not paid to the foundations of the outer walls of the prison, which before long must be taken down and rebuilt upon a deeper and sounder foundation.

The Chaplain, in his annual Report, states, that his duties have consisted as usual in reading daily a part of the liturgy with a portion of the scriptures, which he has explained with suitable admonitions, in reading morning and evening prayers, and a sermon on Sundays, Christmas-day and Good Friday; in visiting the sick who have been unable to attend chapel, and in occasional personal admonitions. The Chaplain states that these duties have been performed with a few unavoidable omissions as recorded in the journal. The prisoners have in general been attentive, and their behaviour becoming, while in chapel. The Chaplain states there had been no crimes of great enormity during the year, and consequently no execution, with the exception of the case that was respited from the Summer assizes of 1833. The attention of the different officers had been shown in the order and cleanliness of the prison and its inmates.

Classification :

No alteration has been made in the classification of the gaol and house of correction since the last annual Report.

Diet and Clothing of the Prisoners :

The Visiting Justices, in their Report delivered in at the Epiphany sessions, state that a revision of the dietary of the gaol, so far as regards the prisoners at hard labour, was absolutely necessary to attain the object of prison discipline, and to carry the laws effectually into execution. A new dietary was accordingly adopted, and regulations made, the particulars of which will appear in Schedule (B.) of the keeper. In their Easter Report, the Visiting Justices state that the dietary and regulations had been then in operation rather more than three weeks. Upon their first introduction some symptoms of insubordination were manifested, and loud complaints made to the keeper and surgeon of the gaol of the insufficiency in quantity, and the bad quality of the bread, and of the consequent evil effects upon the health of the prisoners. From the healthy appearance, however, of the prisoners, and the very small number of sick upon the surgeon's journal, the Visiting Justices were unanimously and decidedly of opinion that the recent change of diet has not affected the health of any of the prisoners, and moreover that there is every reason to anticipate the most beneficial results from its introduction. A request had been made by the prisoners at hard labour to have one quarter of a peck of potatoes on the Sunday instead of the pound of bread for dinner, but the Visiting Justices saw no reason to recommend the alteration.

In their Midsummer Report, the Visiting Justices state that a small addition of bread had been made for the men on the tread-wheel by the surgeon, who then considered the prison dietary perfect. The prisoners continued to ask for a further alteration, namely, to be allowed on Sundays one quarter of a peck of potatoes, instead of their quart of gruel, but that the surgeon did not consider the change was required, so far as their health was concerned. In their Michaelmas Report, the Visiting Justices state that the new dietary continued to work well, and appears to be amply sufficient, even in the hottest weather, for the support of the prisoners on the tread-wheel. The Justices also report that they had, after some trouble, completed a contract for baking the bread to be consumed in the gaol and house of correction on terms very advantageous to the county as compared with the previous contract. They had reduced the price of the flour from 7s. to 3s. 2d. per sack, viz. 1s. in money and 2s. 2d. by an additional delivery of 23 loaves per sack, affording by the whole increase upon a year nearly four months' supply of food to 40 prisoners.

Employment of Prisoners :

The prisoners are employed in the same manner as heretofore. The earnings during the past year amounted to 64*l.* 19*s.* 1*d.* which has been duly applied towards the maintenance of the prisoners. The prisoners are nominally at work on the tread-wheel ten hours, but in reality only six hours and forty minutes. The wheel revolves forty-eight steps in a minute, the height of each step is seven inches and a half, consequently each prisoner takes 19,200 steps during the day, which equal 12,000 feet or two miles and a quarter and one forty-fourth, without any other exertion than the mere lifting the feet.

Conduct of the Prisoners, and their State of Health :

The conduct of the prisoners has been generally throughout the year orderly and regular. The discipline of the gaol has been much improved by certain recent regulations relative to the admission of persons to visit the prisoners. The Surgeon, in his Easter Report, states that an increase of illness had taken place amongst the prisoners, which proceeded in an unusual degree throughout the quarter. The number of prisoners actually suffering from inflammatory complaints of the throat, eyes, &c. added to a more than usual proportion of the ordinary kinds of illness, had greatly exceeded that of many former quarters. In his Midsummer Report, the Surgeon states that the sick list had not decreased so much as might have been expected at that season of the year. In his Michaelmas Report, the Surgeon states that the trial the new dietary had undergone enabled him fully to approve of it. He states the last quarter to have been a very sickly one amongst the prisoners. The bowel attacks, which had prevailed so much throughout the county, had been of very frequent occurrence amongst them. In no instance, however, had the disease reached to any alarming height, owing most probably to the facility of obtaining medical aid in the early stage of it. Among the lower classes generally, where such assistance was not at hand, the disease had been observed to degenerate into cholera and low fever, very commonly ending fatally.

One of the prisoners, who had for some years suffered greatly from epilepsy, died after repeated attacks of that disease.

Officers of the Gaol :

The officers remain as heretofore. No complaint has been made of any want of attention on the part of any of the officers to the duties of their respective offices. The Schedule (B.) of the keeper is transmitted with this Report.

N^o 7.—COUNTY OF CARDIGAN.

Michaelmas Quarter Sessions, 1834.

A GENERAL REPORT of the State, Condition and Management of the Gaol and House of Correction of the said County, from Michaelmas Quarter Sessions 1833 exclusive, to Michaelmas Quarter Sessions 1834 inclusive; founded upon the Reports of the Visiting Justices, on the Report of the Chaplain, and on the Certificates of the Keeper of the said Prisons; prepared by the Clerk of the Peace, and submitted to the Justices assembled at this present Quarter Sessions of the Peace, in pursuance of the Act 4 Geo. IV. c. 64.

Epiphany Quarter Sessions, 1834.

THE Visiting Justices reported at this quarter sessions, they had only to report their continued satisfaction with the conduct of the different persons connected with the management of the gaol and house of correction.

The Chaplain's Journal, and also the Surgeon's Journal, were laid before the Justices then assembled, and were inspected by them and signed by the Chairman; and the keeper of the said prisons delivered in his certificate, stating that the rules and regulations laid down for the government of the said prisons had been complied with, and that no deviation therefrom had taken place; and nothing further relative to the said prisons was done at this quarter sessions.

Easter Quarter Sessions, 1834.

The Visiting Justices made no Report at this quarter sessions; but the Chaplain's Journal, and also the Surgeon's Journal, were laid before the Justices then assembled, and were inspected by them and signed by the Chairman; and the keeper of the said prisons delivered in his certificate, stating that the rules and regulations laid down for the government of the said prisons had been complied with, and that no deviation therefrom had taken place; and nothing further relative to the said prisons was done at this quarter sessions.

Midsummer Quarter Sessions, 1834.

The Visiting Justices made no Report at this quarter sessions; but the Chaplain's Journal, and also the Surgeon's Journal, were laid before the Justices then assembled, and were inspected by them and signed by the Chairman; and the keeper of the said prisons delivered in his certificate, stating that the rules and regulations laid down for the government of the said prisons had been complied with, and that no deviation therefrom had taken place; and nothing further relative to the said prisons was done at this quarter sessions.

Michaelmas Quarter Sessions, 1834.

The Visiting Justices reported at this quarter sessions, that they felt much pleasure in being able to congratulate the county on there being at present no criminal prisoners of any description in the gaol or house of correction, with the exception of one man confined for default in payment of a fine under the excise laws.

They had again to report their satisfaction with the superintendence and management of each department of the prison.

They found it necessary to represent that the roof of the prison required repair in many places, particularly on the felons' side, where, upon inspection, the timbers appeared to be totally decayed. It was highly desirable that those repairs should be effected before the coming winter, to prevent increased expenses; and the circumstance of the gaol being then free from prisoners would add much to the facility of the work.

They also begged to represent that much inconvenience was felt from the want of a washing-kitchen, where the females could perform that necessary work without the opportunity of communication with the male prisoners, an arrangement recommended by the Act 4 Geo. 4. c. 64. Such a convenience could be obtained at a trifling expense by inclosing a corner of the Inspection-hall, which then contained a chimney, grate and boiler well suited to the purpose.

The gaoler was furnished with estimates, to be laid before the bench, of the expense likely to be incurred by carrying the foregoing suggestions into effect.

The Chaplain reported at this quarter sessions that the prisoners read portions of the Holy Scriptures and of the Common Prayer Book every day.

All the prisoners were well supplied with Bibles and Common Prayer Books, and regularly attended Divine Service, and heard a sermon, every Sunday, Christmas-day and Good Friday, in the chapel of the said gaol; and they attended to his religious and moral instructions when he visited them on other days of the week.

The Chaplain's Journal, and also the Surgeon's Journal, were laid before the Justices then assembled, and were inspected by them and signed by the chairman; and the keeper of the said prisons delivered in his certificate, stating that the rules and regulations laid down for the government of the said prisons had been complied with, and that no deviation therefrom had taken place; and nothing further relative to the said prisons was done at this quarter sessions.

Nº 8.—COUNTY OF CARMARTHEN.

County of Carmarthen, } TO the Worshipful His Majesty's Justices of the Peace for the
(to wit.) } County of Carmarthen, assembled at the General Quarter Sessions of the Peace of our Sovereign Lord the King, held at the Shire-hall, in the Town of Carmarthen, in and for the said County, in the first Week after the 11th day of October, (to wit) on Wednesday the 15th day of October, in the fifth year of the reign of His present Majesty, and in the year of our Lord 1834.

THE Report of Edward Jones, esquire, clerk of the peace of the said county, in conformity to an Act of Parliament made and passed in the fourth year of the reign of his late Majesty King George IV. intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."—I do hereby report and submit to your Worships, the Reports of the Visiting Justices and Chaplain of the gaols of His Majesty's Castle, of the county of Carmarthen; as also the Reports and Schedules of the Keeper of the said gaols, which have been delivered me in pursuance of the said Act, since the last Report to His Majesty's Justices of the Peace, assembled at the last general quarter sessions of the peace, held in and for the said county in the first week after the 11th day of October, (to wit) on Wednesday, the 16th day of October 1833.

That it appears by the Report of the Visiting Justices of the gaols, presented at the general quarter sessions of the peace held at the Shire-hall in the town of Carmarthen, in and for the said county, on the 1st day of January 1834, that the said gaol and house of correction were then in a state of good repair.

That it appears by the gaoler and master of the house of correction's certificate, that the said gaol and house of correction were in good repair, and that there were then confined in the said gaol, six debtors and one unconvicted felon, and in the house of correction, six for various offences.

That

That it also appears, by another certificate of the said gaoler and master of the house of correction, that the rules and orders for the management of the said gaol and house of correction have been duly complied with.

That it also appears, by the Report of the Visiting Justices, presented to His Majesty's Justices of the Peace assembled at the general quarter sessions of the peace, held at the Shire-hall, in the town of Carmarthen, in the first week after the 31st day of March, (to wit) on the 9th day of April last, that the said gaol and house of correction were then in a state of good repair.

That it appears by the gaoler and master of the house of correction's certificate, that the said gaol and house of correction were in good repair, and that there were then confined in the said gaol, four debtors, one convicted felon and four unconvicted felons, and in the house of correction 10 for various offences.

That it also appears, by another certificate of the said gaoler and master of the house of correction, that the rules and orders for the management of the said gaol and house of correction have been duly complied with.

That it appears also, by the Report of the Visiting Justices, presented to His Majesty's Justices of the Peace assembled at the general quarter sessions of the peace, held at the Shire-hall, in the town of Llandilofawr, in and for the said county, in the first week after the 24th day of June, (to wit) on the 2d day of July last, that the said gaol and house of correction were then in a state of good repair.

That it appears by the gaoler and master of the house of correction's certificate, that the said gaol and house of correction were in good repair, and that there were then confined in the said gaol seven debtors, two convicted felons, two unconvicted felons, and in the house of correction eight for various offences.

That it also appears, by another certificate of the said gaoler and master of the house of correction, that the rules and orders for the management of the said gaol and house of correction have been duly complied with.

That it likewise appears, by the Report of the Visiting Justices, presented to His Majesty's Justices of the Peace assembled at the general quarter sessions of the peace, held at the Shire-hall, in the town of Carmarthen, in the first week after the 11th day of October, (to wit) on Wednesday, the 15th day of October 1834, that the said gaol and house of correction were then in good repair.

That it appears by the gaoler and master of the house of correction's certificate, that the said gaol and house of correction were in good repair, and that there were then confined in the said gaol, 12 debtors, three convicted felons and five unconvicted felons, and in the house of correction, seven for various offences.

That it also appears by another certificate of the said gaoler and master of the house of correction, that the rules and orders for the management of the said gaol and house of correction have been duly complied with.

That it appears by the Report of the Chaplain of the said gaol and house of correction, that on every Sunday within the year, on Christmas-day and Good Friday, at the hours of nine o'clock in the morning and three in the afternoon, Divine Service commenced with reading the Prayers according to the accustomed usage of the gaols, and conformably to the Liturgy of the Church of England as established by law, after which a sermon was preached, together with portions of Scripture and Prayers every day in the week; which services and sermons all the prisoners of the said gaols attended, except such as were prevented by sickness or some other cause; and that all appeared very attentive, and behaved with due decorum during the time of Divine Worship. That on every Sunday, immediately after the Evening Service, the said chaplain catechised the prisoners, heard them read and gave them lessons to learn by the following Sunday. That the space of time occupied in doing the above duties was about three hours each Sunday and about one hour every day in the week, besides frequently visiting the different wards. That most of the prisoners confined during the last year were able to read, and all were taught to repeat the Creed and the Lord's Prayer. The said Chaplain is of opinion that they had considerably improved in the knowledge of the Scriptures, as well as in their morals during their confinement.

In conformity to the Act, the Clerk of the Peace of the said county having submitted to us a General Report founded upon the several Reports of the Visiting Justices and Chaplain of the said gaols, together with the Schedules according to form (B.) in the said Act of the keeper of the said gaol and house of correction.

This Court doth approve of the same,

J. Jones, Chairman.

N° 9.—COUNTY OF CARNARVON.

Michaelmas Quarter Sessions, 1834.

A GENERAL REPORT, founded on the Reports, Journal and Certificates of the Visiting Magistrates, the Chaplain, the Surgeon, and the Keeper of the Prison at Carnarvon, in the County of Carnarvon.

IT appears that the Chaplain, the Surgeon and the Keeper of the prison, have been regular in their attendance to the duties of their respective appointments.

That since the date of the last annual Report, one case of Measles and one case of infectious Fever (neither of which terminated fatally) have occurred in the prison.

That two persons, imprisoned for acts of vagrancy, were, at the time of their commitment, infected with Venereal Disease, and continued so during the term of their imprisonment, having in the interim been regularly attended by the surgeon.

That (with the above exceptions) no cases of infectious disease or very serious illness have occurred in the prison during the last year.

That the conduct of the prisoners has been in general conformable to the rules and regulations of the prison, and that no acts of insubordination or gross misconduct have been committed by them.

N° 10.—COUNTY OF CHESTER.

The ANNUAL REPORT of the Clerk of the Peace of the County of Chester, consolidated from the Quarterly Report of the Visiting Magistrates, the Chaplain and the Keeper of the Gaol of the Castle of Chester.

THE Report of the Visiting Magistrates, who have during the last year regularly attended to the inspection of every department of the gaol, speak favourably of its general discipline, except that in three of the quarters there have been plans of escape concerted amongst the prisoners, chiefly organized by convicts under the sentence of transportation, which however have always been frustrated by the vigilance of the keeper. In one instance, a prisoner having got upon the iron railing on the top of the outer wall, when he fell back and broke his leg. It appeared that in this attempt he was connected with many other prisoners. In the October Report, the Magistrates have observed with concern that some of the Judges have considered recent Acts of Parliament to require a term of imprisonment to be inflicted on convicts previous to transportation, and 14 prisoners were so sentenced at the last Chester Assizes. It is apprehended that the convenience and safety of the gaol will be much affected by such practice and the necessity of keeping such an additional number of prisoners. The new buildings added to the gaol are reported to be complete, except that the courts and airing grounds have still to be walled in and divided. The improved plan of warming the cells and apartments of these additions by means of hot water pipes has been adopted, and an excellent apparatus has been put up by Mr. Walker of Manchester, at the expense of 170*l.*, which from the trials hitherto made may be expected to answer completely, both as dispensing a more general and regular degree of heat, as also from being free from many objections to which the use of open fires in prisons is liable. The system of diet appears to be put on a footing of great regularity, the average weekly cost of maintaining each criminal prisoner being 1*s.* 8*d.*, differing only one farthing from the average of last year. Taking into calculation the debtors, to whom no meat is allowed, the average is reduced to 1*s.* 6*d.* per week. The number of prisoners during the last year has been less than in most former years, but the calendars have exhibited every variety of capital offences. There have been already five executions, and there are now prisoners for trial on charges of murder, rape, arson and bestiality, and two under sentence of death for murder. The Chaplain is reported to have regularly performed his duties in the chapel, and also in the day rooms and school of the prison, by circulating proper books and encouraging attention to them. Prisoners confined for any considerable term have all the opportunity of learning to read, and many avail themselves of it. The Chaplain has found much advantage from an order lately made by the magistrates to exclude the interference of dissenting ministers and others with prisoners under sentence of death.

Knutsford Sessions, October 13, 1834.

The ANNUAL REPORT of the Clerk of the Peace of the County of Chester, consolidated from the Quarterly Reports of the Visiting Magistrates, the Chaplain and the Keeper of the House of Correction at Knutsford, in the County of Chester.

THE Quarterly Reports above mentioned have been regularly made during the past year. It appears that the prison has occasionally been in a crowded state, the average number of prisoners in this establishment throughout the year having been 247, amongst whom the discipline has been regularly maintained according to the regulations, with very little interruption. In considering the numbers as subdivided in the keeper's reports, the most striking feature is the great decrease of juvenile offenders; for out of 1,101 prisoners, the aggregate number reported to be in custody at the four periods a week before each sessions, only 90 were under the age of 17 years. A proportion differing in a remarkable degree from that of former years. Great attention seems to have been paid to the regulations and economy of diet, the average weekly cost of maintaining each prisoner being reduced to 1s. 5½d., which till this year was 2s. 4d. Great facility for learning most kinds of handicraft trades are afforded to the prisoners, and many go out with the means of earning an honest livelihood. During this year a regular schoolmaster has been engaged, who teaches three days a week in the prison under the eye of the Chaplain, who reports that many have during their confinement learned to read who did not know their letters when committed. The Chaplain promotes religious reading to the best of his power, and he reports that good effects have decidedly been produced in many cases, and that he generally meets with respectful attention and decorum.

(signed) *Chas Ja^s Christmas,*
Governor.

N^o 11.—COUNTY OF CORNWALL.

AT the General Quarter Sessions of the Peace of our Lord the King, held at Bodmin, in and for the said County, the 14th day of October, in the fifth year of the reign of our Sovereign Lord William the Fourth, by the grace of God of the United Kingdom of Great Britain and Ireland King, Defender of the Faith, and in the year of our Lord 1834, before John Hearle Tremayne, Richard Gully, Bennett Humphrey Willyams, Richard Johns, George Simon Borlase, George Boughton Kingdon, Esquires; Nicholas Kendall, Thomas Grylls, Clerks, and others their companions, Justices of our said Lord the King, assigned to keep the Peace in and for the said County; and also to hear and determine divers felonies, trespasses and other misdemeanors committed within the said county;

At this Sessions, the Visiting Justices of the Gaol and Bridewell reported as follows:—

WE, the Visiting Justices, have great pleasure in reporting the continued good order and management of the Gaol and House of Correction.

During the past year we have made certain alterations in the Female Bridewell, whereby a better classification of the prisoners is afforded. We have added two wash-houses, a drying-room, a receiving-room, with sleeping cells over, and a coal-shed in the front of the gaol, with a view of making a considerable saving in the carriage of coals.

We are happy to be able to observe, that the commitments to the prisons have decreased one-third as compared with the year ending Michaelmas 1833.

We beg to recommend to the consideration of the Court the propriety of purchasing a spot of land at the western end of the gaol adjoining the rail-road, which we are informed may be obtained.

The

The Governor of the Gaol and Bridewell reported as follows:—

I respectfully beg leave to report the completion of the receiving-room, which has been found of great benefit. The coal-shed in front of the gaol is also finished, and will, I hope, be found not only very convenient, but effect a saving of at least 20*l.* per annum.

I am happy to be able to report the orderly conduct of the prisoners since my last Report. I beg leave to subjoin the usual Return and Certificate required of me:—

The Chaplain reported as follows:—

In compliance with the Act of Parliament 4 Geo. IV. c. 64, I lay before you an account which I am called upon to give of the condition of the prisoners confined in the Gaol and House of Correction from Michaelmas Sessions 1833 to the present sessions. I am happy again to state that from the excellent discipline therein established, the prisoners have for that period conducted themselves, as far as they came under my observation, both at their daily labours, and when engaged in their daily religious duties, in a very becoming manner.

The committals have considerably decreased this year. In 1833 there were 738 committals, and to this day they only amounted to 549, of whom nearly 100 were committed for offences arising from drunkenness.

The same system of moral and religious instruction has been continued, as before, with good effect throughout all the wards. Many of the juvenile offenders, as well as adults, from daily instruction in their respective wards, and from the Sunday-school, have been enabled to read fluently previous to their discharge. The services on every Sabbath-day have been two, with a sermon on each occasion, and a selection from the Liturgy, as directed by the Act, read to all the assembled prisoners, with a portion of Scripture every morning at nine. Though I cannot record any examples of complete reformation, yet it may, I hope, be presumed, that some, after having long suffered the punishment of their offences, have, on their restoration to society, become better members of it.

The following is the Surgeon's Report:—

I have great pleasure in stating that the prisoners have been healthy generally for the last year, and although there have been several cases of fever, particularly during the last three months, yet in no case has it proved fatal. I regret, however, to state that Peter Mahon, convicted of a misdemeanor, was attacked with virulent venereal ophthalmia in March last, which has not yielded to the usual treatment of such cases, and that he has lost his sight. The number of cases during the year have been 130; the greatest number at one time in the Infirmary, four.

(signed) *J. Hearle Tremayne,*
Chairman.

I hereby certify, That no alteration has taken place in the number of officers or servants of the Gaol and Bridewell, nor in their respective salaries, since the last Annual Report.

(signed) *J. Hearle Tremayne,*
Chairman.

I have nothing to add to the above Report,

Clerk of the Peace.

19.—Whether Common Gaol, House of Correction, or Bridewell?—COMMON Gaol and House of Correction.

20.—Under whose Jurisdiction and Superintendence?—UNDER the Jurisdiction of the High Sheriff and Magistracy of the County, and under the Superintendence of nine Visiting Justices.

21.—Number of Officers, and how appointed?—A GOVERNOR, Chaplain and Surgeon, five Turnkeys, one Miller, one Superintendent of Tread-wheel, one Shoemaker, one Carpenter, and two Matrons. The principal Officers are appointed by the Magistrates of the County at the General or Adjourned Sessions, and the Turnkeys and other subordinate Officers by the Visiting Justices, at the recommendation of the Governor.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—THE Gaol contains seven Wards, (exclusive of that for Debtors,) each containing a distinct Class, four for Males and three for Females, with Day Rooms, Airing Yards and Dormitories to each. The House of Correction also contains seven Wards, each containing a distinct Class, and provided with the same accommodation as those in the Gaol: the same cannot be extended or increased in the present Walls.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—THE Male Prisoners are allowed one pound and a half of Bread, made from equal proportions of Wheaten and Barley Flour, and one quart of Oatmeal Gruel daily; four pounds and a half of Potatoes, and four pints of Soup, weekly. The Male Prisoners sentenced to Hard Labour are allowed from half to three quarters of a pound of Bread daily extra, at the discretion of the

Schedule (B.) County of Cornwall: Gaol and House of Correction at Bodmin—*continued.*

the Governor. The Female Prisoners are allowed one pound of Bread and one quart of Oatmeal Gruel daily, and three pounds of Potatoes and four pints of Soup weekly. The average Cost per Head is about 2s. 6d. per week. *N. B.*—Vagrants are allowed the above proportion of Bread only for the first Month, with the addition of Gruel for the second Month, after which they are allowed the full diet.

24.—Allowance of Clothing and Bedding, and Cost per Head?—PRISONERS convicted of Felony are clothed in the Prison Dress, which consists of a Woollen Jacket, Waistcoat and Trowsers for the Males, and suitable clothing for the Females. The Cost of a Suit of the former is about 7s. 9d. and of the latter 5s. Shoes, Stockings, Handkerchiefs, &c. are supplied when necessary, and clean Shirts and Shifts are furnished every week. The Bedding consists of a Straw Mattress and three Blankets to each Prisoner, the Cost of which is about 11s. 6d.

25.—Description of Employment and Hard Labour?—THE Tread-Wheel, Hand-mill, breaking and sawing Stones, Bricklaying, Shoemaking, Tailoring, &c. for the Male Prisoners; and Washing, Ironing, Needle-work and other suitable employment for the Females.

26.—Hours of Labour and of Exercise?—IN the Summer Months the Prisoners labour ten Hours daily; at other seasons of the year, the Hours of Labour vary according to the length of days. Prisoners for Trial and those not sentenced to Hard Labour take as much Exercise in their respective Airing Yards as they please.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Labour of the Prisoners being applied to County purposes, their Earnings are nominal; they are therefore paid a small sum at discharge, varying according to Behaviour and other circumstances.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act has been complied with.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain performs Divine Service and preaches twice every Sunday, and once every Christmas-day and Good Friday, with Prayers only in the afternoon of those days. He also reads the Lesson for the day, with a selection of Prayers every morning at nine o'clock. He visits the Sick and those in solitary confinement, and is unremitting in his attendance upon Prisoners under Sentence of Death, to whom he administers the Holy Sacrament. He also frequently visits the several Wards of the Prison, and takes every seasonable opportunity of privately exhorting the Prisoners. He attends the general muster of the Prisoners every Sunday, and distributes among them, from time to time, such religious and other Books as they stand in need of. A Sunday-school is established, at which a schoolmaster regularly attends. Bibles and other religious Books are placed in every Ward throughout the Prison.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon generally attends daily; and at other times when his services are required. He is also punctual in his attendance at the Chapel of the Gaol on Sunday, on which day he attends the general muster and inspection of the Prisoners. There is an Infirmary distinct from the other parts of the Prison.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THE unemployed Prisoners are those for Trial, and those not sentenced to Hard Labour.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—THE Punishments by Solitary Confinement have generally been for refusing to work, Pilfering, Assaults, Profane Swearing, and other acts of Insubordination. No Whippings have taken place, and Irons have only been used for attempts to break Prison.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NO.

34.—General Observations.—

(signed) J. B. Everest,
Governor.

Nº 12.—COUNTY OF CUMBERLAND.

TO the Magistrates of the County of Cumberland, assembled at the General Quarter Sessions of the Peace, at Cockermouth, on Tuesday, the 14th October 1834.

IT appears from the Reports made by the Chaplain, the Keeper of the House of Correction at Carlisle for the County of Cumberland, and the Visiting Magistrates to the Gaol for the said County, that the chaplain continued to perform the duties required of him by Act of Parliament; that prayers, selected from the Liturgy of the Church of England, are read every morning; on every Sunday the full church service is performed, and on Good Friday and Christmas-day the services appointed for these festivals.

That the chaplain pays frequent visits to the prisoners in their respective wards, availing himself of every opportunity of usefulness which presents itself, and depends much on personal and individual communication.

That an abundant supply of Bibles, Prayer-books and religious tracts is furnished to the prisoners from the Christian Knowledge Society, under the superintendence of the chaplain.

That the strictest propriety of conduct prevails throughout the prison, and that the prisoners' attention to their religious duties is most satisfactory,

That the most salutary results have been produced by the new regulations laid down for the conduct and management of the prisoners, and which has been exemplified, as well by the improved state of the discipline in the gaol, as also by no discharged prisoners having again been committed since the new regulations were put in operation, and likewise by the diminution of committals in general.

That the current expenses of the gaol are considerably reduced to what they have been in some former years; the expenses of the present quarter of a year being 40*l.* less than the corresponding quarter of last year.

That it is to be regretted, that the labour of the prisoners continues to be almost unproductive.

N° 13.—COUNTY OF DENBIGH.

The GENERAL REPORT of the Gaol and House of Correction at Ruthin, in the County of Denbigh, submitted to the Justices of the Peace of the said County, assembled in open Court of Michaelmas Quarter Sessions, held at the County Hall in Denbigh, in and for the said County, on Tuesday, the 14th day of October 1834.

THE Visiting Justices report both Prisons are clean, and in good order.

The Chaplain reports that the Prisoners, in the performance of their religious duties, conduct themselves with propriety and decorum. He laments, in his Reports to the Epiphany and Easter Quarter Sessions, that the number of prisoners had rapidly increased, and he attributes the increase of crime to the increased number of beer-shops. In stating the fact that about three-fourths of the prisoners can read, and many of them can write, he deprecates the abuses of education in those instances. In the other Reports he observes, that it is highly pleasing to remark that there were fewer prisoners at the dates of these reports than he had ever before known since he was appointed chaplain. He bears testimony to the neat condition of the gaol, states that the discipline is preserved and maintained with firmness and humanity, and is of opinion that the tread-mill produces a salutary effect upon the minds of the prisoners.

The Gaol Surgeon reports that the prisoners are healthy, and free from contagious disorders.

The Gaoler reports that the conduct of the prisoners is generally good.

N^o 14.—COUNTY OF DERBY.

TO the Right Honourable Viscount Duncannon, His Majesty's Principal Secretary of State for the Home Department.

The REPORT of His Majesty's Justices of the Peace of the County of Derby, assembled at their General Quarter Sessions, pursuant to the Act of the 4th Geo. IV., cap. 64, sec. 24, relative to the Prisons of the said County, up to Michaelmas 1834.

THE Reports of the Visiting Justices, Chaplain, Surgeon and Governor of the county prisons, have been regularly made and submitted to the Court at each quarter sessions. They state that the turrets have been examined by Mr. Mason, and by Mr. Patterson, the

builder, and represent the prisons as being in good repair, clean and wholesome, and entirely free from any contagious or epidemic disorder, the conduct of the officers in general satisfactory, and the behaviour of the prisoners upon the whole not affording much ground of complaint. There have been instances of disobedience and quarrelling among themselves, originating almost invariably with prisoners who have been longest in confinement.

William Willott, who was committed on a charge of murder, obstinately refused food of every kind, and died within three weeks, having confessed his guilt. A Coroner's inquest was held upon the body.

The prison rules have been strictly enforced, and the classification, employment and discipline of the prisoners have been carefully attended to.

The new Governor maintains excellent discipline among both the officers and inmates of the prison, and discharges his duty in an efficient and satisfactory manner.

There has been a decrease in the number of prisoners in the gaol and house of correction in this year, compared with the year preceding, and the offences have been generally of a lighter kind. Immediately before the Michaelmas Sessions last year the number of prisoners was 132; it is now only 110.

The prison discipline upon the principle of the Act of the 4th Geo. IV., has hitherto failed to produce the effects anticipated from it, and the opinion expressed in a former Report of the evil effects of the beer-houses has been confirmed by the experience of the past year.

Some of the prisoners have been employed in making clogs for the use of the prison, and also for sale.

Drains, with iron grates, have been formed in the different yards, with the view of keeping them more dry, and this work also has been performed by prisoners.

No other material alteration has been made in the prison within the last year.

21.—Number of Officers, and how appointed?—GOVERNOR, appointed by the High Sheriff, five Male Turnkeys, Watchman, Matron, and a Female Turnkey, appointed by the Visiting Justices.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—TWENTY-ONE Classes, two Work Rooms, a Tread-mill, twenty-two Day Rooms, and twenty Airing Yards, which can be extended or increased.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—EACH Prisoner is allowed one pound and a half of good Wheaten Bread, four ounces of Oatmeal, one pound of Potatoes, and half an ounce of Salt. Prisoners employed as Wardsmen are allowed one pound and a half of Meat per week in addition to their allowance. Weekly Cost per Head, 2s. 1d., including the additional allowance to the Sick. Forty-seven Prisoners have provided for themselves, amounting in the whole to 3,691 days' subsistence; nineteen of the above number have supported themselves during the whole of their confinement.

24.—Allowance of Clothing and Bedding, and Cost per Head?—CLOTHING for the Females consists of a Bedgown, Petticoat, Shift, Apron, Cap and a pair of Clogs; and for the Male Prisoners, a Woollen Jacket and Trowsers, two Shirts and a pair of Clogs. Bedding consists of a Straw Pallet, one Rug, two Blankets, and a pair of Sheets. Cost of Male Prisoner's Clothing is 18s., and that of a Female 10s. 6d. Cost of Bedding for each Prisoner is 1l. 5s. 4d.

25.—Description of Employment and Hard Labour?—WORKING the Tread-wheel, turning two Hand-wheels, Stone-breaking, Whitewashing the Prison, making the Prisoners' Clothing, and cultivating a piece of Ground within the Walls of the Prison. The Females are employed in making Shirts, Sheets, and washing and repairing the Linen.

26.—Hours of Labour and of Exercise?—THE Prisoners work from Six o'clock in the morning until Six in the evening, when the day-light will admit of it; being allowed two Hours and a quarter Daily for Meals, Exercise, and to attend Chapel. They have two Hours after leaving Work in Summer, and three quarters of an Hour during the remainder of the year.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THERE have been twenty-four pairs of Clogs made by the Prisoners, and supplied to the Prisoners of the Borough Gaol: 4l. 8s.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act has been strictly observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain reads Prayers daily in the Chapel to all the Prisoners, from the Liturgy of the Church of England, and preaches two Sermons on Sundays, Christmas-day and Good Friday, and also goes through the Prison twice a week, and visits the Sick and Prisoners in Solitary Confinement; on an average he is occupied about three quarters of an Hour each week-day, and two Hours and a half on Sunday. Every Visit is regularly entered in his Journal by himself, and any irregularity noticed. He has no separate Apartments in the Prison. The Male Prisoners who require Instruction are taught to read and write. The Female Prisoners are taught to read by the Matron, and receive Instruction occasionally from Ladies who visit them. The Prisoners are supplied with Bibles, Testaments, Prayer and other Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends the Prison daily, and enters every case of Sickness in his Journal punctually before he leaves the Prison, together with any Observations he may think proper. There are separate Buildings provided for the Sick, both Male and Female.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—ILLNESS and want of Employment for many of those not sentenced to Hard Labour.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—SEVEN Boys privately Whipped; six by order of the Court of General Quarter Sessions, and one by order of the Visiting Justices, for an Assault upon one of the other Boys; two Men put in Irons for outrageous conduct; twenty-five placed in Solitary Confinement for disorderly conduct,

N° 15.—COUNTY OF DEVON.

The ANNUAL GENERAL REPORT of the State and Condition of the Gaol and House of Correction for the said County, in pursuance of an Act of Parliament passed in the fourth year of the reign of his late Majesty King GEORGE the Fourth, for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales.

At the Epiphany Sessions, 1834.

THE Visiting Justices of the Gaol and House of Correction for the county reported, That they had visited and inspected the prisons in the last quarter, and found them perfectly clean and in good order.

That they had taken into their serious consideration the dietary of the prisoners, and had conferred with the Surgeon on the subject, with a view to adapt the quality and quantity of food to each class of the prisoners, regard being had to the due discipline so desirable to be enforced. They had found that hitherto the quality of bread in use has been of the very best and finest wheat flour, and they saw no reason why the coarse or household bread as used in the army, and by almost if not all the cottagers and labourers in the country, should not be supplied to the prisoners. With respect to the quantity, it appeared that those, whether male or female, old or young, at hard labour or not at hard labour, received the same allowance. The Visiting Justices conceived that the variation in the age, sex and employment of the prisoners, called for a distinction in the dietary.

They considered that the diet of all the female prisoners should be alike, their labour not being at all severe; whilst the male prisoners not at hard labour, might be very properly restricted to a shorter allowance than those at work.

As to vagrants, it appeared desirable to check the offence as far as possible, and they thought it expedient to confine them to bread and water only, on a second or subsequent committal.

They therefore unanimously recommended to the Court the adoption of the following dietary:

“That the bread used by the prisoners be all of the same quality, namely, household bread, instead of the best standard wheaten, as at present.

“That all females, with the exception of those employed in washing, both convicted and unconvicted, be allowed sixteen ounces of bread daily, instead of twenty-two ounces, as at present given them; and one pound of bacon and seven pounds of potatoes weekly, as they now receive.

“That the male prisoners sentenced to hard labour do continue to receive twenty-two ounces of bread daily, and one pound of bacon and ten pounds of potatoes weekly, as at present.

“That the male prisoners convicted but not sentenced to hard labour, be allowed sixteen ounces of bread daily, instead of twenty-two ounces; and ten pounds of potatoes, and one pound of bacon weekly, as at present.

“That all prisoners before trial (except vagrants and females) be allowed as they at present are, twenty-two ounces of bread daily, and ten pounds of potatoes, and one pound of bacon weekly.

“That all vagrants committed a second time be allowed twenty-two ounces of bread, with water only.”

They had also directed their attention to the regulations and discipline of the prisons. They were convinced that great evils arose from the ease and frequency of communication amongst the prisoners. They could not express too strongly their conviction of the necessity of enforcing, as much as possible, a strict prohibition to conversation and written communications.

To

2 n/n

To the first point they had directed the close attention of the Keeper, with directions to him to repress all talking, as far as should be within his power.

And on the subject of letters they recommended that no pen, ink or paper, or other writing materials be allowed in any part of the prisons, except in the ward appropriated to offenders against the Revenue Laws; and that no prisoners except the last-mentioned, be allowed to write letters to any person out of the prison, except on the Wednesday in every week, unless under very special circumstances, at the discretion of the Keeper.

That on the Wednesday in every week, any prisoner might write such letters as he might wish, on application to the Keeper or one of the Turnkeys, for pen, ink and paper for that purpose, which should be delivered to him, care being taken that the writing materials so delivered to him should be returned or properly accounted for.

That the prisoners desirous of writing letters as above, should be placed in a separate room, or otherwise, at the discretion of the Keeper, so as to prevent any improper use being made of the writing materials.

With a view to preserve the classification as much as possible, they had also resolved that a sum not exceeding ten pounds be allowed, for the purpose of partitioning off spaces to be used as oakum shops, in Nos 5 and 6; and also for a place in which the vagrants might be washed; and that the labour of such masons as might be in the bridewell should be made available, as well as the old materials now therein.

By this means the prisoners of both classes who might not be fit for the wheel, could be placed at lighter labour in the same yard, without being taken from thence and mixed with other classes.

All which said regulations were adopted by the court.

At the same sessions the Keeper of the prisons certified in writing that the said prisons remained in a quiet and orderly state, and that the rules and regulations had been complied with.

At the Easter Sessions, 1834.

THE Visiting Justices reported, That they had visited and inspected the prisons since the last Quarter Sessions, and found them perfectly clean and in good order.

That in pursuance of the order of the last Sessions, they had advertised for tenders for altering the chapel at the gaol, and had received three, the lowest of which exceeded by two hundred and nineteen pounds the estimated sum granted by the court.

The Visiting Justices recommend that no boys under fifteen years of age, sentenced to hard labour, should be employed on the tread-wheel, but that they should be kept in the juvenile division, picking oakum, until other labour could be provided for them.

They had further ordered the Governor to communicate with the Surveyor of the turn-pike roads, that he might provide a quantity of stones to be placed in the stone-yard; and that as soon as that was done, all juvenile offenders in the bridewell should be employed there cracking stones for the use of the roads, and kept apart from other offenders.

At the same Sessions, the Keeper of the prisons reported that they were in a quiet and orderly state, and that the rules and regulations had been complied with.

And at the same Sessions a committee was appointed to inquire into the present state of the county prisons, with a view to ascertain whether any measures could be adopted for rendering the classification prescribed by law more complete for the purposes intended, and for making punishment more effectual.

At the Midsummer Sessions, 1834.

THE Visiting Justices reported, That they had visited and inspected the prisons since the last Quarter Sessions, and found them perfectly clean and in good order, and that no complaints were brought before them except as to the quality of the potatoes, which the Visiting Justices ordered to be redressed.

And at the same Sessions, the Committee of Magistrates appointed to inquire as to the state of the prisons, presented the following Report:

“ In obedience to the order of Sessions, your Committee have considered whether the classification of prisoners in the gaol and house of correction can be rendered more effectual for the purposes intended.

It appears to your Committee that the object of prison discipline may be classed under four heads (namely):

1. To make imprisonment an effectual punishment.
2. To prevent the collection of bad men, together with facilities of combination for future unlawful pursuits.
3. To prevent the admixture of prisoners of different degrees of guilt, whereby those who are not very bad, are made worse.
4. To give to prisoners the opportunity of moral and religious reformation.

These may be presumed to have been the objects of the legislature in the Act 4 Geo. IV. c. 64, s. 10, regulation 6, whereby it is enacted, that the sexes be separated, and that the prisoners of each sex shall be classed as follows :

1. Debtors and persons in contempt.
2. Convicted felons.
3. Convicted misdemeanants.
4. Suspected felons for trial.
5. Misdemeanants for trial.

(The classification in the house of correction is similar, except that the class of debtors is omitted, and there is an additional class of vagrants.)

The first class does not fall within the reference to your Committee.

In regard to the classes of convicted felons and misdemeanants, it appears to your Committee that not one of the objects of imprisonment is effectually accomplished, while felons of all denominations, still more misdemeanants under all possible circumstances, are herded together; even accompanied by hard labour, the punishment is not severe enough to deter men from the commission of offences, while they can freely converse in their day-rooms and at meals with other persons of the same description; and under such circumstances, not only is reformation entirely hopeless, but deterioration where it is possible is sure to occur, and new schemes of wickedness be devised.

Your Committee are satisfied that the Chaplain and Keeper have done all that has been in their power, consistently with the laws and the construction of the prisons, to mitigate these evils; and they have reason to believe that in some cases, the morals and habits of juvenile offenders have been improved in the prison; but they have, on the other hand, abundant evidence of the occurrence of dangerous communications among the prisoners, and great indifference to imprisonment as a punishment.

With misdemeanants the case is even worse than with felons, because, supposing it to be true, as many experienced persons believe, that there is no great difference of guilt between one felon and another, the same cannot be affirmed of persons confined for misdemeanors, a class including a great variety of offences, from the most revolting crimes to the most trifling, and even occasionally venial assaults.

Your Committee find, that in one ward of the bridewell there are occasionally to be found men convicted of disgusting offences, men who have deserted their families, and men convicted of common assaults; this commixture of offenders is in strict conformity with the Act of Parliament, and when prisoners are numerous cannot be avoided by any subdivision of the classes of which the present buildings admit.

It is, perhaps, beyond the province of your Committee to consider, whether for some of the evils attending the punishment of all misdemeanors by imprisonment, the best remedy might be found in an alteration of the law, which might enable courts to substitute in some cases corporal punishment for confinement in gaol. But your Committee cannot abstain from observing that some of the offences classed as misdemeanors do not indicate a high degree of moral guilt, still less habitual wickedness in the offender; and while imprisonment is only a substitute for a fine which the offender cannot pay, or is adopted only because no other mode of punishment is lawful, it is therefore the more peculiar duty of those who superintend a prison to take care that prisoners thus sentenced should not be made worse by a punishment which is in many cases reluctantly inflicted.

If it be admitted that the association of all felons and all misdemeanants respectively is objectionable, the first question is, whether any thing consistent with the law can be done to cure the evil. The Gaol Act does allow of occasional deviations from the rigid and technical rule of classification; it is lawful under special circumstances, "to place a prisoner in a class to which he does not belong, or to confine him in any other part of the prison." But it is clear that the mere transfer of a felon to the misdemeanor ward cannot be efficacious, and it can only be in very rare cases indeed that a separate confinement is practicable.

The admixture of convicted and suspected persons is equally out of the question.

The power of making special exceptions is occasionally exercised; and it has been suggested to the Committee by the officers of the prison, that when the gaol is not full, a subdivision of some of the classes may be usefully made; but the objects of this subdivision are liable to be continually defeated by an influx of prisoners; nor indeed could the most judicious Governor or Visitor undertake to make this classification of a continually varying assemblage at all satisfactory. And it is even possible, that if such a moral and appropriate classification were adopted as to lessen the danger of contamination, the other evil might be incurred of lessening the severity of punishment.

A sense of all these difficulties has produced a conviction on the minds of many intelligent persons, as well in foreign countries as in England, that no system of prison discipline can be effectual which does not provide for the entire separation of every prisoner from the others, or for the preservation of silence among them, when necessarily or occasionally congregated for work or exercise.

A system founded upon this principle is susceptible of several modifications, which have been tried in various prisons of England and America.

Your Committee will consider these modifications one by one :—

1. Absolute solitary confinement by night and day, without employment; this is assuredly a severe punishment; it excludes the possibility of contamination or of associations for evil purposes; and in cases in which there is a susceptibility of moral amendment, it affords the best opportunity of effecting it.

But

But at present, solitary confinement is generally used in Devonshire only as an aggravation of punishment; except in very trifling cases, it is not inflicted for more than a part of the term of imprisonment, and is therefore entirely inefficacious as a reparation.

The Courts have acted upon the belief that solitary confinement cannot be borne for many consecutive weeks with safety to the body or mind of the prisoner; but there is much difference of opinion upon this point; some persons being of opinion, founded upon experience, that solitary confinement without employment, or without any occupation but that of reading, may be borne for three, or even six or more months.

2. In order to make solitary confinement endurable for a long period it is in several methods connected with hard labour.

One method is, to permit the prisoners, at other times kept in solitude, to work in gang or on the tread-wheel, but to enforce the most perfect silence by the instant application of the lash upon him who utters a single word.

This method necessarily requires numerous vigilant and judicious superintendents.

It has been tried in the United States of America, with some success at first, but, according to recent information, has been abused and discontinued.

Your Committee are too well satisfied of the indisposition of the Devonshire Magistrates to adopt this plan to think it necessary to consider it further.

3. Another plan is similar to that last mentioned, except in the mode of enforcing silence; this is done by punishments more consistent with the ordinary rules of discipline in English prisons, namely, by the deprivation of meals and solitary confinement of the severest class, that is, in a dark cell; this plan has been adopted with good effect at Huntingdon.

Separation and silence have also been adopted at Worcester (where all the day-rooms have been converted into single cells) and elsewhere.

4. Another plan is to compel the prisoner to work in his solitary cell, which he inhabits day and night.

In the House of Correction at Springfield, in the county of Essex, the prisoners are required to turn a wheel one thousand times in an hour, and are punished for any deficiency. Your Committee are not aware why the very disagreeable operation of picking oakum should not be imposed upon prisoners in solitude.

5. Another possible modification not tried, so far as your Committee are informed, in any English prison, would be not to *require* work from solitary prisoners, but to afford them facilities of employing themselves.

6. In some gaols (as at Gloucester and Bedford) the object of separation in labour is effected by a division of the wheel into single compartments, but there are doubts whether the closeness occasioned by the necessary screen be not injurious to health.

These several schemes all contemplate the confinement of each prisoner in a separate cell by day and night, except when working at a tread-wheel or other joint labour (where joint labour is adopted), or exercised in such manner as to avoid communication; all the schemes imply the abolition of day-rooms, and of joint meals or cookery; but in some prisons parts only of the system have been adopted, and the single sleeping cells are not universal.

At Devizes, an attempt is made to subdivide each class into the greater and less offenders.

To some of these instances your Committee would only refer (for instance, Wilton, Somersetshire,) as exhibiting the possibility of maintaining silence among prisoners at work, observing that unless separation or silence be preserved throughout the twenty-four hours, the objects of the system are not accomplished. But,

7. In one remarkable instance, the system of silence and virtual separation has been found consistent with the association of the prisoners in day-rooms. At the house of correction at Wakefield, in the West Riding of Yorkshire, the prisoners are, except when the house is excessively crowded, confined each in a separate cell at night; they are not in solitary confinement during the day; but it is a rule of the prison, sanctioned by the Judges of Assize, that no prisoner shall be permitted on any account, or under any pretence, to speak to or hold any communications with any other prisoner without special leave for that purpose first obtained from the Governor; and it appears that silence is enforced among prisoners even while walking about together.

Your Committee understand that it is the wish of the Magistrates of the West Riding to abolish the day-rooms; but in the mean time, by the employment of a considerable number of wardsmen, and the enforcement of this rule, the objects of separation and solitude are in a great degree accomplished. It is, however, to be remarked, that no attempt has been hitherto made to enforce silence among the *female* prisoners.

This rule against communication is applied at Wakefield to the untried as well as convicted prisoners; with respect to the class of untried, your Committee will here observe, that it has been usual in this gaol to give to unconvicted prisoners the gaol allowance of food, an allowance which the law appears to contemplate in special cases only. Your Committee are of opinion, that employment of some sort should be found for *untried* prisoners.

The Magistrates are already aware that the separation of the several classes in the chapels is incomplete; and that the prisoners, contrary to the opinion of several competent persons as to the operation of the Gaol Act, hear divine service only once on the Sunday: the consequence is, that a great part of the Sunday is spent in idleness.

Without giving any opinion upon the particular mode of meeting these objects, which has been already before the Sessions, your Committee conceive that the more complete separation in the chapel, and the performance of two Sunday services, ought to be kept in view in adopting any measures for improving prison discipline.

Your Committee have to add, that it appears from the papers before them that the Secretary of State for the Home Department has turned a favourable attention to the system of separation and silence; and the chairman of the Committee has it in his power to confirm this fact from personal communication with Lord Howick, one of Lord Melbourne's under-secretaries; and while this Report has been in preparation, it has been announced that His Majesty's Government have under consideration the whole subject of secondary punishment and prison discipline.

On consideration of all the information which they have received of the successful operation of the new system, your Committee are of opinion that the absolute separation of the prisoners one from another, and the preservation of entire silence, are objects which it is extremely desirable to effect, and that with these views it is desirable to abolish the day-rooms altogether, to put an end to joint cookery, and to prohibit all conversation among the prisoners.

But while your Committee are of opinion that the separation of prisoners is a most desirable object of prison discipline, and best calculated to effect both the reformation of the offender, and the ultimate diminution of crime; yet it appears to them that no one improved plan of prison discipline has been yet practised for a time sufficiently long satisfactorily to determine its relative superiority.

The subject of prison discipline has for many years past received a considerable share of public attention; the Governments both of France and England have sent out persons for the express purpose of visiting the new prisons in America.

The Report of the gentleman employed by the English Government is not yet published, but there is reason to hope that some steps will at no distant period be taken with a view to the general improvement of prison discipline.

Although your Committee have not yet received accurate estimates from the surveyor, it is clear that the alteration of the gaol and bridewell, which would be necessary in order to carry the system contemplated by your Committee into practice, could not be effected without the expenditure of a very large sum of money; nor is it probable that the system could be effectual without an addition to the number of turnkeys and superintendents. In the present depressed state of agriculture, after the large sums so lately expended in the completion of the county prisons, with a prospect of more information on the subject, and in the expectation of some general plan to be introduced by the Government, your Committee cannot feel justified in recommending at the present moment an outlay of the necessary magnitude.

It will be for the Magistrates to reconsider the subject from time to time as fresh information is obtained, and as the plans of Government are developed; but in the meantime they recommend the adoption of certain rules, which may enable them to accomplish without expense some of the objects contemplated in their Report.

And therefore they suggest,—

1. That a rule for the observance of silence, as far as practicable, and among convicted prisoners, similar to that adopted in the West Riding of Yorkshire, be made, and submitted to the Judges at the ensuing Assizes.

2. That the keeper of the gaol be enjoined to enforce this rule, and that he do apply from time to time to the Visiting Justices for such further assistance as may be necessary for that purpose.

3. That no friends of convicted prisoners shall be admitted, except under the written order of a Magistrate, and then not more frequently than once in a month, unless by express permission from a Visiting Magistrate, stating in writing the peculiar circumstances and cause for such visit, to be entered in the Governor's journal; and that all such visits shall be in the presence of the keeper or some other officer of the prison.

4. That a book shall be kept, in which the names of all persons admitted to visit the prisoners, together with their calling and address, and also the names of the prisoners visited, and the days of admission, shall be entered.

5. That convicted prisoners shall not be allowed to write to their friends more than once in every month, unless by special permission of a Visiting Justice."

All which said regulations were adopted by the court.

At the Michaelmas Sessions, 1834.

THE Visiting Justices reported that since the last Quarter Sessions they had directed their attention to the discipline of the prisons, and endeavoured to avail themselves as far as practicable of the suggestions contained in the Report presented at the last Quarter Sessions by the Committee appointed to inquire into that subject.

They regretted to state, that, on account of the inadequacy of the number of sleeping-cells, they had not been able to carry into effect a total and complete separation of the prisoners; but they had proceeded to accomplish as much of that object as the state of the prison buildings would admit.

Fully

Fully impressed with the importance also of silence, as a mode of prison discipline, they had directed the rules on that subject, made by the Court at the last Quarter Sessions, to be carried into effect; and they had great pleasure in reporting the result to be most satisfactory, that silence was much more observed than it used to be, and that the Governor had in no instance been obliged to resort to punishment to enforce it.

With a view to prevent the prisoners from congregating too frequently in the day-rooms, the Visiting Justices had resolved,—

That no cooking for breakfast should be allowed, nor any cooking at all after one o'clock, when the fires should be put out.

That the allowance of bacon and potatoes for each division of convicted prisoners should be delivered out daily to the cooks, who should boil the whole together, and serve up to each prisoner the portion allotted to him, together with his share of the liquor in which the meat is boiled.

That the prisoners should return from the wheel or labour to the day-rooms, and there be placed in the mode best calculated to prevent communication, for the purpose of taking their meals.

That the wardsmen and cooks, and also the turnkeys, as far as practicable, should take especial care to preserve strict silence during the meals, as well as during the working hours.

On a comparison of the hours of labour enforced at the prisons with those in other counties, it appeared that the former was less than any other county; and the Visiting Justices therefore directed the following regulations to be observed, (namely) that the working hours in the tread-mill in the bridewell should be—

- | | | |
|---|---|--------------------------------|
| From 1 April to 1 September | - | 8 to 1, and 2 to 6. |
| - 1 September to 1 October, and }
1 March to 1 April - } | | 8 to 12, and 1 to half-past 5. |
| - 1 October to 10 November, and }
1 February to 1 March - } | | 8 to 12, and 1 to half-past 4. |
| - 10 November to 1 February | - | 8 to 12, and 1 to 4. |

They hoped by the next Sessions to be enabled to lay before the Court the amended rules and regulations for the government of the prisons.

At the same Sessions the Chaplain presented the following Report:

"In making my annual Report, I have to congratulate the Magistrates on the improved state of the prison discipline, and which I trust will ultimately tend to lessen the number of offenders. The weekly averages taken on Sunday mornings exhibit a decrease of 20 on the three prisons, as follows:—Bridewell, 121, being 26 less than in the preceding year; Gaol, 104, being an increase of 3; Sheriff's Ward, 36, being an increase of 3. Of the 513 prisoners admitted into the Gaol since the last Michaelmas Sessions, 367 could read, and of whom 158 could write; of the 599 admitted into the Bridewell, 218 could read, 86 of whom could write also. In the Gaol there are at present 4 juvenile offenders, all of whom can read. In the Bridewell there are 6 juvenile delinquents, 5 of whom can read, and the other has nearly learned his letters. The number who have learned to read during the year is 21, being 7 in the Bridewell, and 14 in the Gaol. I have found the inmates of all the prisons, with a very few exceptions, orderly and attentive; and that a strong desire for religious and useful knowledge has existed among them, is evident from the fact that they have purchased during the year with their own monies, at reduced prices, from grants made to me by the Exeter Diocesan Society for Promoting Christian Knowledge, 98 bibles, 308 common prayer books, and 290 bound books and tracts.

"I cannot close my Report, without expressing to the Magistrates my full conviction of the benefit that would result from the consolidation of the chapels; and have to lament that after the utility of the plan had been acknowledged at the Sessions by a considerable number of the Justices present, the measure should have been postponed on account of the tenders for the alterations having exceeded the estimates by about two hundred pounds, and which sum I trust will not long be withheld, when it is considered that the Legislature intended by the Act of Parliament that all the prisoners should have the benefit of two regular services on Sundays, Christmas days, and Good Fridays."

At the same Sessions the Keeper reported, that, upon the whole, crime appeared upon the decrease, particularly in the classes of misdemeanors and vagrants. There was a small increase of felons in the gaol this year, as compared with the last; but there was a decrease to the same amount in the bridewell, as will be seen on reference to the statement under.

He had great pleasure in reporting, that during the year the prisoners had conducted themselves generally satisfactorily, with the exception of five men put in irons, and six in dark cells, for attempts to escape; and sixty-six placed in dark cells for other small offences.

34.—General Observations.—

(signed) W^m Cole,

Keeper Devon House of Correction.

N^o 16.—COUNTY OF DORSET.

AT an Adjournment of the Michaelmas Sessions for the County of Dorset, held on
Saturday, November 1, 1834.

The following REPORT of the Clerk of the Peace, founded on the several Reports of the Visiting Justices and of the Chaplain, and upon the Certificates of the Keeper of the United Gaol and House of Correction at Dorchester, was submitted to the Justices, and approved by them, in pursuance of Stat. 4 Geo. IV. c. 64. s. 21.

NO particular remark occurs in the three first Reports of the Visitors in the year now elapsed, as to the behaviour and state of subordination of the prisoners or the attention of the officers of the prison to their respective duties.

It had been found more convenient to restore the former Infirmary to its uses, by altering the communication to it, and preventing any interference with the Debtors' Ward. The health of the prisoners had been in general good. No escape has occurred. A settlement in one of the wings of the prison had been stopped, and the building secured at a small expense. But the increased and increasing number of recommitments (which will appear by the annual schedule) led the Visiting Justices to a more particular observation of the state of discipline and restraint of the convicts in this prison in comparison with that in others of a later and improved construction, and induced them to consider the expediency of taking some measures to assimilate, as much as the different circumstances will allow, the discipline and restraint here to those observed in the prison which they have had an opportunity of noticing, with a view to the making a return to imprisonment with hard labour more a subject of terror than it has hitherto been.

The Report of the Chaplain also strongly urges the necessity of this proceeding. The investigation was first entered into in the early part of the last quarter, and has been continued since from time to time, been followed by a series of new regulations, as appears by the Report of the Visitors at the present Sessions, when a Committee was appointed, consisting of the Visitors of the Gaol and House of Correction, together with other Magistrates, with direction and authority to carry the proposed system fully into effect. Their attention has to this time been principally called to the enforcement of silence, and the prevention of that unrestricted communication of the prisoners with one another at all times which had hitherto prevailed.

The total want of inspection from the house and premises of the keeper and the ordinary stations of the turnkeys, which arises from the construction of the prison, and which cannot be remedied without a reconstruction of the whole, has made it necessary to place the convicts under the eye of a turnkey, specially stationed for that purpose at all times, which has obliged the Visitors to require an addition to the number of the turnkeys, and to propose some alteration in the day-rooms and sleeping-cells of the prisoners, which have received the sanction of the Justices in Sessions. But the scheme suggested is not now in that state of maturity to allow of its being formally laid before the Justices. It is expected that at the next sessions the Committee will be able to bring forward some new rules and regulations, regularly digested, which will, as far as it may appear to be necessary, be referred to the Justices of Assizes for their approbation. The Visitors have also thought it expedient to make an alteration in the dietary of the prisoners, which will appear by the Schedule now transmitted herewith under the provisions of the Act; but this dietary the Visitors consider only as experimental, and subject to the constant attention and superintendence of the surgeon, and to such advice as his experience of its effects in the ensuing quarter may suggest.

The attention of the Chaplain and the Matron to their respective duties has met with the full approbation of the Visiting Justices.

There are no Work Rooms, but there are Day Rooms and Airing Yards to each Ward; the Prison may be capable of further subdivision, but it now affords a more extended classification than is required by the statutes.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—PRISONERS above fourteen years of age are allowed one pound of Wheaten Bread per day; one pint and half of Oatmeal Gruel for Breakfast; one pound and half of Potatoes, with sufficient salt, for Dinner; and one pint of Gruel for Supper. On Sundays, they have six ounces of Meat and one pound of Potatoes, in lieu of one pound and half of Potatoes for dinner. Prisoners under fourteen years of age are allowed one-fourth less. The Weekly Cost per Head is about 1 s. 10 d.

24.—Allowance

Schedule (B.)—County of Dorset: Common Gaol and House of Correction
at Dorchester—*continued.*

24.—Allowance of Clothing and Bedding, and Cost per Head?—EACH Prisoner has two Blankets and a Rug, Canvas Bag stuffed with Straw, and a Rush Mattress. The Clothing is a Jacket, Waistcoat and Trowsers. They are allowed two Dowlas Shirts, and a pair of Shoes or Slippers. The Cost per Head is about 2*l.* 6*s.*

25.—Description of Employment and Hard Labour?—THE Male Prisoners convicted and sentenced to Hard Labour work on the Tread Wheel. The Female Prisoners are employed in Washing, scrubbing Passages, and occasionally in beating Hemp. Other Convicts, for whom Employment can at present be found, work in the Nursery Garden, and in the Bakehouse, at cooking, baking, and occasionally in the trades of Masoning and Carpentering, when they are wanted in the Prison.

26.—Hours of Labour and of Exercise?—THE Hours of Labour during the Summer months are Ten, and as many Hours during the Winter months as the daylight will admit of.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Amount of Earnings is thus divided; viz. to Debtors and Convicted Prisoners not sentenced to hard labour, five-sixths, after deducting their Maintenance; and to the Keeper, in all cases, one-sixth of the Male Prisoners' Earnings, and to the Matron one-sixth of the Female Prisoners' Earnings.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—A CLASSIFICATION to a greater extent than is required by this Act has been carried into effect, and has been substantially observed, with such deviations only as have been sanctioned by the Visiting Justices.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS are read every Morning in the Chapel by the Chaplain, who also reads Prayers, and preaches once on Sundays, Christmas-days, Good Friday, and Ascension-day. There is a School in the Gaol, under the superintendence of the Chaplain. A Prisoner is schoolmaster. The Prisoners are supplied with Bibles and other Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon sees all the Prisoners in custody generally twice in a Week, and visits the Infirmary when necessary daily. The Infirmary for Males is over the Debtors' Apartments, and for the Females, in the Middle Cells in the N.E. and N.W. Wings, when necessary.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—OF the thirty-five not employed on the 29th September 1834, there were, Debtors, five; Smugglers, two; Imprisonment for Misdemeanors, four; under Articles of the Peace, three. Felons for Trial, sixteen; and Misdemeanants for Trial, five. Of these the greater part cannot be trusted with employment, and no proper employment for the other has occurred.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—THE Prisoners whipped were Convicts under sentence of Transportation, who had removed the Bricks of their Cells for the purpose of escape. Solitary Confinement was used for irregular and insubordinate Conduct.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—

34.—General Observations.—

Durham Michaelmas Sessions, 1834.

The GENERAL REPORT of the Deputy Clerk of the Peace, under 4 Geo. IV. c. 64.

TO the Justices assembled at the Durham Michaelmas Sessions, 13 October 1834.

Gentlemen,

I BEG leave to lay before you my General Report under the Act 4 Geo. IV. c. 64, comprising the four Reports of the Visiting Justices of the gaol and house of correction, together with the Chaplain's Report to the present sessions.

Copy Report of the Visiting Justices at Winter Sessions, 30 December 1833.

WE have to report, that the cleanliness, good order and proper discipline which is maintained throughout the prisons, are very satisfactory, and that the prisoners, of whom there are this day 214, are in a generally healthy state.

Agreeably to the request of the adjourned sessions of the 6th December, we recommend the following Diet Table to be adopted, as soon as can be conveniently arranged for by the Governor.

1½ lb. of bread	-	-	-	-	-	-	-	-	-	} per diem,
1½ pint of milk	-	-	-	-	-	-	-	-	-	
1 lb. of potatoes, with salt	-	-	-	-	-	-	-	-	-	

uniformly throughout the week, and that the same be applied to both debtors' and felons' wards.

Copy Report of the Visiting Justices at Easter Sessions, 7th April 1834.

WE, the Visiting Justices of the gaol and house of correction for the county of Durham, have to report to the Court, that the order made at the last Christmas Quarter Sessions for the alteration of the prison diet, has been carried into effect, without any visible alteration in the generally healthy state of the prisoners; and having consulted the prison Surgeon upon the subject, we feel justified in recommending a further reduction of diet, as regards the potatoes, allowing to each prisoner daily, 1½ lb. of bread, and 1½ pint of milk only.

In order as far as possible to render confinement in these prisons an effective punishment, we have thought proper to direct the indulgence hitherto permitted to the prisoners confined for offences, of purchasing articles of comfort, to be discontinued, and have also restricted the time of visiting all prisoners committed for offences (except those for trial) to half an hour on one day in the week only.

We have regularly visited the prisons, and their cleanly and healthy state has been very satisfactory; and the Court will be pleased to observe, that the number of prisoners at present confined is considerably below the general number for many months past; this must however, in a great measure, be accounted for by the circumstance of the Assizes and Insolvent Court having been held so recently as the 22d February and 10th of last month.

We have had under our consideration the expense of removing transports to the hulks, pursuant to their sentences, and we beg to submit to the consideration of the Court, that all prisoners sentenced to transportation at the April and July Sessions, and Summer Assizes in each year, shall be sent (when ordered to the hulks at Woolwich) by sea, and that all prisoners sentenced to transportation at the October and Christmas Sessions and Spring Assizes in each year, shall be removed by land, as at those periods the steam vessels do not proceed to sea. This arrangement has been suggested to us by the Governor of the prisons, who states that a considerable reduction of expense under this head will be effected, if adopted. We therefore recommend it for the approval of the Court.

N. B.—The prison diet ordered at Easter Sessions was 1½ lb. bread; 1 pint of milk and 4 oz. of oatmeal, excepting on washing days, when the women are to have 8 oz. of oatmeal.

Copy Report of the Visiting Justices at Midsummer Sessions, 30th June 1834.

WE, the Visiting Justices of the gaol and house of correction for the county of Durham, have to report to the Court, that upon all occasions of our visiting the prisons we have found them in a very proper state, and the generally good state of health of the male prisoners is very satisfactory. We regret, however, that we cannot report so favourably as regards

regards the health of the female prisoners, particularly those employed in washing for the prisons, respecting whom we have called before us the prison Surgeon, who has reported that several of the females have suffered lately from Influenza and occasional purging; and that he is of opinion that during the three washing days, those employed should be allowed some additional food; and we have accordingly adopted his recommendation, and allowed to each prisoner so employed, one ounce of tea and a quarter of a pound of sugar, and we have been the more induced to do so from our knowledge of the very hard labour imposed upon these women.

We beg to call to the notice of the Court, the order made at the last Christmas General Quarter Sessions, with respect to the appointment of Mrs. Margaret Horner, as matron, until the present sessions, and we have to report that she appears qualified for the situation, and recommend that her full appointment as matron be confirmed.

Copy Report of the Visiting Justices to the present Michaelmas Sessions,
13th October 1834.

WE, the Visiting Justices of the gaol and house of correction for the county of Durham, have to report, that the state of the prisons continues to our satisfaction.

That with respect to the Diet Table at present in use, we consider its adoption, together with the disallowance of indulgences formerly enjoyed by the prisoners, to have operated very beneficially.

The health of the prisoners continues good, and confinement within the walls of these prisons evidently appears a greater punishment than heretofore.

Copy Report of the Rev. C. G. Wheler, Chaplain of the Prisons, to the present
Michaelmas Sessions, 13th October 1834.

EVERY department in the prisons is conducted with such regularity and attention to the discipline, cleanliness and health of the prisoners, as to preclude making any particular remarks in my general report.

The regular duties of the Chaplain are the same as the years preceding; viz. daily morning prayers, with a portion of Scripture read and explained; religious instructions every Saturday afternoon; on Sundays, morning and evening service, with a sermon in the morning, and after evening prayers, an explanation on some portion of Scripture for the service of the day, and other duties as cases may occur to require them.

THE SCHOOL.

The school is daily attended by the master appointed by the Magistrates, and such prisoners are taught to read and write as are desirous to be instructed. Since October 1833,

102 prisoners have attended the school,
47 of whom could not read; and
69 could not write;
32 have learned to read; and
14 have learned to write.

Bibles, Prayer Books and religious tracts are provided for the use of the prisoners in each ward, and Bibles and Prayer Books for the use of the Chapel, and for the use of the female prisoners.

The female prisoners are, as usual, attended by the visiting ladies, and on special occasions they are instructed and attended by the chaplain.

A matron has the general attendance of the female prisoners.

The prisoners appear very attentive to religious instructions, and their general behaviour is respectful.

(signed) *C. G. Wheler, Chaplain.*

The Return made by Mr. Frushard, the governor of the prisons, in the form Schedule (B.) annexed to the Act, is left herewith for the use of the Magistrates, as required by the 22d Section.

I have the honour to be, Gentlemen,
Your most obedient Servant,

Deputy Clerk of the Peace.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—

(signed) P. Frushard, Governor.

N^o 18.—COUNTY OF ESSEX.

Essex Michaelmas Session, 1834.

A GENERAL REPORT, founded on the Reports of the Visiting Justices, on the Reports of the Chaplains, and on the Certificates of the Keepers of the several Prisons in the County of Essex, prepared by the Clerk of the Peace, agreeably to the Act of Parliament, 4 Geo. IV. c. 64; (that is to say)

County Gaol and House of Correction at Chelmsford, and Gaol at Springfield.

AT the present Michaelmas session, the Visitors reported that these prisons had been regularly visited; that the officers of the prisons had conducted themselves properly, and that the behaviour of the prisoners had been generally orderly; that the prisoners sentenced or adjudged to hard labour had been employed on the tread-wheels, capstan or winch, or at the machines for hard labour in solitude, and a few others in making and mending shoes, and other necessary work about the prison; that the allowance of beer to the prisoners had been discontinued, agreeably to the order of Court made at the previous quarter session, which order also directs, that after the expiration of one calendar month from the time of commitment, a quantity of oatmeal not exceeding two ounces per diem shall be allowed to each prisoner, if thought necessary by the Visiting Magistrates. The Visitors also reported, that the gaol at Springfield was lighted with gas.

The Chaplain reported, that although the number of prisoners had been increasing lately at the gaol at Springfield, there were now fewer than there were in October 1833, and that the proportion of debtors and females confined at Chelmsford was less than it had been at a corresponding time in some previous years; that it certainly appeared, that, with comparatively small alteration, the gaol at Springfield might be made capable of receiving all the prisoners, and that a great expense might be saved to the county by discontinuing the gaol and house of correction at Chelmsford.

The Chaplain also reported, that solitary confinement did not now produce those good effects that were at one time expected; that men had lately returned to prison who previously had been even three months in solitude, and that among the cases for trial at the present sessions there were seven prisoners who had been under sentence of solitary confinement for various periods; that strict classification was one of the first things to be considered in prison discipline; that if prisoners were constantly confined in their cells, with the exception of certain intervals for exercise, much good might be expected; that the communication that men had on the tread-wheel and in the yards was decidedly injurious, and tended much to contaminate boys and young offenders; that the regulation for allowing prisoners to be visited by their friends seemed to require some alteration; that it would be much better if those who were convicted had no communication with their connexions during the time of their imprisonment, excepting in cases of illness; and that a short and strict and summary punishment was calculated to produce more good, and be less injurious to the health of prisoners, than a sentence of long period of confinement, accompanied with any indulgence whatever.

Halsted House of Correction.

THE Visitors reported, that they had visited this house of correction as by law required; that the rules and regulations of the 4 Geo. IV. c. 64, were duly observed; that the prisoners had been employed according to their respective sentences; that no complaint had been made to the Visitors of misconduct on the part of the prisoners, nor had the Visitors any to make of the officers of the prison.

The Chaplain reported, that he could only repeat what he had said on former occasions; that the prisoners had constantly attended chapel, except when they had been prevented by illness or other sufficient causes; that a selection of prayers from the Liturgy had been read to them every morning, and divine service had been regularly performed on Sundays, Christmas day and Good Friday, with one sermon on every such day. In general, the Chaplain could not but remark the good conduct of the prisoners during their attendance in chapel, and the serious attention which they gave to what they heard. In his visits of inspection they had always appeared grateful for his admonitions, and seemingly desirous of improving by his advice. Bibles, Prayer-books, and other books of instruction, had been from time to time distributed amongst them, for which they had expressed themselves grateful; and the Chaplain was inclined to hope that they had not been altogether negligent of the means of improvement placed within their reach.

The Chaplain further reported, that the prison itself presented an appearance of being kept in the greatest order, regularity and cleanliness, and though very properly a place of punishment,

punishment, yet there was nothing in it which could at all affect the health of those in confinement, and that the sickness among them had been but trifling, and merely the usual consequences of a change of living and of close confinement. The Chaplain remarked, that during the summer and harvest the prison had been always comparatively empty, particularly in the present year; thus affording a strong argument that want of employment is one great cause of the increase of crime, and that if the labourer had always an opportunity of earning money, the number of prisoners in our gaols would be materially diminished. In conclusion, the Chaplain had only to inform the Court, that he had uniformly found the keeper and other officers of the house of correction forward to render him every assistance in the execution of his duty, and that the condition of the prison under their charge reflected the highest credit on the care and attention they respectively paid to their various duties.

Newport House of Correction.

THE Visitors reported, that there are now confined in this house of correction seven male prisoners, and that the prison appeared to the Visitors well regulated, and the prisoners healthy.

Colchester House of Correction.

THE Visitors reported, that they had inspected the accounts of the expenditure of this house of correction for the quarter ending at Michaelmas, and that the gaoler's expenses for salary and the keeping of prisoners amounted to 21 *l.* 16*s.* 9½*d.*, which, with the allowance to the chaplain of 10*l.* for the quarter, made 31 *l.* 16*s.* 9½*d.*

The Chaplain reported, that he had regularly visited the prisoners, and that Divine Service had been performed at the appointed times; that the prisoners under his charge had always readily attended to, and expressed themselves grateful for his advice and instructions; but that, from the generally short period for which they are committed, he is unable to make any statement as to their improvement in religious knowledge.

Ilford House of Correction.

THE Visitors reported, that the prisoners had been generally healthy, and that they had not heard any complaint, notwithstanding the abolition of the small beer, the good effects of which appeared to be visible in every respect, inasmuch as the Visitors did not anticipate the return of many prisoners after their discharge. The Visitors also reported, that the Chaplain, the Keeper and other officers had been equally vigilant and attentive in the performance of their respective duties.

The Chaplain reported, that of the discipline maintained in the prison he could speak with the greatest satisfaction. He had observed nothing but good order and regularity; that all possible cleanliness was preserved in the persons of the prisoners and their apartments; that, by firmness and steady uniformity of conduct, these desirable results were secured without unnecessary severity. Strong testimony, it seemed to the Chaplain, was borne to the judicious management of the house by the rarity of a case of illness occurring within the walls; that there had been scarcely a patient in the infirmary, except persons suffering under diseases brought with them into their confinement; that though the number of prisoners might not have much decreased since last year, there had been very few, if any, cases of an aggravated nature; that a large proportion of offences under punishment seem to have arisen from the idle and thoughtless habits encouraged by the beer shops, and the Chaplain thought a great diminution of crime might be anticipated from the alteration of the law respecting these most mischievous houses; that one other nursery of crime, from which a lamentable number of offenders came to be confined in this prison, which the Chaplain mentioned without venturing to suggest a remedy, was the Forest.

The Chaplain further reported, that classification was considerably extended, and that all care was taken to prevent evil communication; but he believed that very much good might yet result if solitary punishment were awarded, as far as practicable, to the more juvenile offenders, which would give more opportunity for reflection, and more time than punishment by the tread-wheel allowed for the lessons of the Chaplain.

The Keepers of the several prisons before mentioned respectively certified, that the rules laid down for the government of such prisons had been complied with.

Hops, and average during the last year about 2s. per Week per Head, and the same Allowance to Convicted Prisoners in the House of Correction Department, where Females only are confined.

24.—Allowance of Clothing and Bedding, and Cost per Head?—PRISONERS for Trial wear their own Clothes; Convicted Prisoners wear a coarse Dress, and Straw Beds are provided, with Blankets and Rugs. Cost per Head, about 3*l.* 10s. per annum.

25.—Description of Employment and Hard Labour?—WASHING for the Prisoners, &c. and turning a Winch Machine.

26.—Hours of Labour and of Exercise?—HOURS of Labour in the House of Correction Department are governed by the length of the day, commencing half an hour after unlocking in the Morning, and closing half an hour before locking up in the evening, deducting two hours for the Meal-times, Prayers, and Teaching; and the half hours at the beginning and end of the day are for Exercise. In the Gaol Department, Hours of Exercise all day.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—AMOUNT of Earnings not to be ascertained, the Prisoners having no Allowance for the Work, and the Profits, if any, are appropriated to the County Fund, and no part is given to the Prisoners or Officers.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—IT has not been fully observed. The Prison not containing a sufficient number of Divisions, a new Prison is erected, and which remedies this defect, as regards Male Prisoners.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain reads Prayers selected from the Liturgy every Morning, reads portions of Scripture to the Prisoners when assembled for instruction, and performs the Morning and Evening Service of the Church of England, and preaches a Sermon every Sunday, Christmas-day and Good Friday. He administers the Holy Sacrament of the Lord's Supper. He frequently visits every Room and Cell in the Prison, and Prisoners in Solitary Confinement. A Schoolmistress attends to instruct the Prisoners, and they are supplied with Bibles and other Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends daily, and separate Apartments are provided for the Sick.

19.—Whether Common Gaol, House of Correction, or Bridewell?—A PUBLIC and Common Gaol for Criminals of every description, and Vagrants.

20.—Under whose Jurisdiction and Superintendence?—THE Sheriff of the County, and ten Visiting Magistrates.

21.—Number of Officers, and how appointed?—ELEVEN. The Governor, appointed by the Sheriff; four Turnkeys, a Porter, and a Brewer and Baker, appointed by the Court of Quarter Session: a Miller, a Master Shoemaker, and two Watchmen, appointed by the Visiting Magistrates.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—FOURTEEN Divisions, Fourteen Day Rooms, Fourteen Airing Yards, Two Reception Cells, Eight Store Rooms, a Bake-house, Brew-house and Bath-house, an Infirmary and a Lazaretto, with an Airing Yard to each; and a Building erected for the reception of Vagrants, consisting of Four Rooms and an Airing Yard, which will conveniently hold forty-eight Prisoners.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—ONE pound and a half of good Wheaten Bread, made from Flour, with the coarse Bran taken out. On the 27th September the Allowance of Beer was discontinued, and each Prisoner has since been allowed two ounces of Oatmeal per diem, made into Gruel, in lieu thereof, except Smugglers, or such as subsist themselves, or are allowed 6d. per day for that purpose by the Board of Customs. Prisoners not sentenced to Hard Labour are allowed to subsist themselves, if they are able; if not, they have Prison Allowance. Cost variable, according to the price of Flour, Malt and Hops. The average Cost of the last Year has been about
2s. 6½d.

Schedule (B).—County of Essex: Convict Gaol at Springfield—*continued.*

2s. 0½d. per Head per Week. Prisoners employed at Hard Labour, Wardsmen, and those employed as Labourers, have an extra Allowance of four ounces of Bread and two ounces of Cheese each per Day. Cost for Cheese about 3d. per Head per Week. And all Prisoners, except those who subsist themselves, and Prisoners committed for Trial, are allowed Soup as after-mentioned, have one ounce and a half of Oatmeal made into Gruel, or Rice for Dinner every Day. Cost about 4½d. per Head per Week. All Prisoners who have been above Three Months in Prison have two ounces of Meat made into Soup three times a Week. Cost per Head, 3d. a Week.

24.—Allowance of Clothing and Bedding, and Cost per Head?—EACH Prisoner has a coarse Woollen Dress, a striped Linen Shirt, a Straw Bed, two Blankets and a Rug. Cost per Head about 3l. 10s. per annum.

25.—Description of Employment and Hard Labour?—EIGHT Tread Wheels, one Pump, worked by two Cranks, two Capstans, one of Hase's Patent Machines, and three of Richmond's for Hard Labour in Solitary Confinement. Some of the Prisoners are employed to make and mend Shoes, others to mend the Clothing.

26.—Hours of Labour and of Exercise?—NOT exceeding Ten Hours per Day in Summer, nor less than Six in Winter, according to the length of the Day, commencing half an hour after unlocking in the Morning, and ceasing half an hour before locking up in the Evening, allowing Two Hours for Meal-times, Prayers and School; the Half Hours at the beginning and end of the Day being for Washing, Combing, making Beds, &c.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—PAID Yardsmen, Nurses, &c. on discharge from Prison, at the rate of 1s. per Week, 14l. 11s. Loss by Mill Account, 9l. 1s. 1½d. Profit on the Shoemaking Account, 26l. 4s. 1d.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—IT has been observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain, or in his unavoidable absence, the Schoolmaster, reads Prayers selected from the Liturgy every Morning; reads portions of Scripture to the Prisoners when assembled for instruction. The Chaplain performs the Morning and Evening Service of the Church of England, and preaches a Sermon every Sunday, Christmas-day, and Good Friday. He frequently visits every Room and Cell in the Prison, and Prisoners in Solitary Confinement. The Schoolmaster attends daily to instruct the Prisoners, and they are supplied with Bibles and other Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends generally every Day, and oftener if necessary. Two separate Buildings are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—SEVENTY-SIX Prisoners for Trial, Twelve Smugglers, One Insane, and One labouring under a severe Disease of the Eye.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—BY Whipping for breaking the Prison Hard Labour Machine. By Solitary Confinement in their own Sleeping Cells, or in a Refractory Cell, for refusing to work, disobedience of Orders, robbing their fellow Prisoners, Assaults, Swearing, using indecent Language, making loud Noises, irreverent behaviour in Chapel, destroying County Stores, and disorderly conduct.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—ONE, James Ramsey, alias Prime, 33 years of age, acquitted of Rape on the ground of Insanity. Committed 8th March 1834. Unknown. (Waiting for Orders of Removal.)

34.—General Observations.—THE Apartments below Ground are two Cellars. The number of Sick includes every Name entered on the Sick List. The Punishment by Solitary Confinement comprehends every case where a Prisoner was confined to his own Sleeping Cell during the working hours in the day time.

No. 19.—FLINTSHIRE.

To the Right Honourable His Majesty's Principal Secretary of State for the Home Department.

Flintshire.—General REPORT of the Justices assembled at the Michaelmas Quarter Sessions of the Peace, held at Mold, in and for the County of Flint, on Thursday the 16th day of October 1834, pursuant to the Act of the 4th of his late Majesty King George 4, c. 64, s. 24.

SOME improvements have been made in the Gaol of Flint since the last General Report of the Justices assembled at the Quarter Sessions of the Peace, held at Mold on the 17th of October 1833.

The Reports of the Visiting Magistrates since then have been uniformly satisfactory, and the duties of the Chaplain have been regularly performed on Sundays, Wednesdays, and Fridays in every week.

The conduct of the Gaoler is also much approved of.

All which is humbly submitted to His Majesty's Honourable House of Parliament.

N° 21.—GLOUCESTER.

THE Magistrates of the County of Gloucester, assembled at Michaelmas General Quarter Sessions 1834, having inspected the Journals and Reports of the Visiting Justices, Chaplains and Surgeons, and the Certificates of the Governor of the Gaol and Keepers of the several Houses of Correction in the said County, make this General Report.

THAT in consequence of the dietaries adopted in the County Gaol, the Penitentiary, and different Houses of Correction, in this county, varying considerably one from another, a committee of magistrates has been appointed, for the purpose of inquiring into the diet allowed to the prisoners confined in those prisons, with a view to assimilating them, if it should be found expedient to do so; which committee, under the advice of the surgeon of the county gaol, and an experienced and skilful physician resident in Gloucester, recommended to the Court of Quarter Sessions an alteration in the nature and manner of administering the diet, by the adoption of a more solid food, which is now being tried in the County Gaol and Penitentiary only; but no order for its permanent adoption has yet been made:

That since the last Report, the chaplains of the Gaol and Houses of Correction have continued their usual attention to the moral and religious improvement of the prisoners; and the medical attendants have also continued their usual attention to the prisoners, of whose general health favourable reports have been received at each sessions:

That it appears from sessions to sessions, during the present year, by the certificates of the Governor of the Gaol and keepers of the Houses of Correction, that the rules laid down for the government of those prisons have been uniformly and strictly complied with, without deviation; except in the County Gaol, in the quarters previous to the last Epiphany and Trinity Sessions, when, in consequence of the crowded state of the Penitentiary, the supernumerary prisoners of that department were necessarily lodged for the night in the gaol side of the prison; and in the last-mentioned quarter, the crowded state of the Debtor's Gaol rendered it necessary to place the supernumerary debtors to sleep in a large room, lately used as part of the Female Debtors' Prison.

As to the manner in which the prisons have been conducted, and the rules carried into effect since the last Report, the Magistrates beg to refer to the annual Returns from the Governor of the Gaol and keepers of the several Houses of Correction hereto annexed.

19.—Whether Common Gaol, House of Correction, or Bridewell?—COMMON Gaol, or Sheriff's Prison.

20.—Under whose Jurisdiction and Superintendence?—JURISDICTION of the Sheriff and his Officers. Superintendence of Visiting Justices.

21.—Number of Officers, and how appointed?—A GOVERNOR who is appointed by the Magistrates, at a General Quarter Sessions, a Clerk, a Porter at the First Lodge, a Porter at the Second Lodge, a Miller, one Officer to attend the Interior Department, and a Matron. There are two officers in the Penitentiary Department, who occasionally attend on the Gaol side, for the purpose of assisting in the unlocking and locking-up of the Prisoners; also, two Night Guards who patrol round the yards of the Gaol and Penitentiary twice in every hour, from the locking up at Night until bell-ringing in the Morning, alternately. These Officers are appointed by the Governor, who is answerable to the Magistrates for their good conduct.

22.—Number of Classes, Wards, or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—THERE are eleven Classes or Divisions of Prisoners; viz., First Class, Male Felons, charged with Capital Offences, and Old Offenders. Second Class, Males charged with Simple Felony. Third Class, Juvenile Offenders charged with Felony. Fourth Class, Females charged with Felony. Fifth Class, King's Evidence. Sixth Class, Prisoners under Sentence of Death. Seventh Class, Male Fines, charged with Misdemeanors, want of Sureties, Convicted Misdemeanors, detained for Pecuniary Penalties unsatisfied, and Prisoners sent up from the Houses of Correction to appear at the Quarter Sessions. Eighth Class, Female Fines, charged as Male Fines. Ninth Class, Male Debtors in the Common Ward. Tenth Class, Male Debtors in the Irregular Ward; (see Rule 1, page 49, in Book of Rules.) Eleventh Class, Female Debtors. There is a Day Room or Kitchen, and Airing Yard attached to each of the said Classes, except to Class 5, viz. Prisoners under Sentence of Death, who are confined in Cells appropriated for that purpose, and allowed to walk for air and exercise upon the Leads adjoining. The Classes cannot be increased without additional Buildings.

23.—Dietary

Schedule (B.)—County of Gloucester: Common Gaol—*continued.*

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—EVERY Prisoner on County Allowance receives one pound and a half of good Household Bread per day, and 1*d.* in Money; and so much Coal is allowed to each Ward as is sufficient to cook the Victuals of the Prisoners confined therein, and to preserve them from cold in the Winter Season; and those who are employed in Work receive one half of the estimated value of their Earnings, in addition to the above allowance, or they may receive the whole of their Earnings by relinquishing the County Allowance. They may also expend their Earnings, together with any Money they may otherwise possess, in the purchase of any articles of Food. They may also receive any such articles from their Friends. The Weekly Cost per Head depends upon the price of Wheat. The last Quarter, the pound and a half of Bread cost 2 $\frac{2}{3}$ *d.*, so that the Cost per Head would be about 2*s.* 2 $\frac{1}{4}$ *d.* per Week for each Prisoner.

24. Allowance of Clothing and Bedding, and Cost per Head?—THEIR Dress consists of a Jacket, a Waistcoat, a pair of Trousers, a pair of Stockings, a pair of Wood-sole Shoes, a Day Cap and a Night Cap, a Flannel Shirt in Winter and a Linen Shirt in Summer; the Shirts, Caps and Stockings are washed at the expense of the County, and delivered to the Prisoners clean, every Week; but if a Prisoner is provided with decent Clothing, and has a change, he is allowed to wear his own Clothes and Linen, which is washed for him at the expense of the County. A Dress of this description costs the County about 26*s.* The Bedding consists of a Straw Mat, a Hair Mattress, two Sheets, two Blankets, and a Rug or Coverlet. The Sheets are given out about once a Month. The Cost of Bed and Bedding amounts to about 50 *s.*, which will last a great many years.

25.—Description of Employment and Hard Labour?—THE Prisoners are not employed before Trial, unless at their own request, as Constables, or Whitewashing and keeping the several Classes and Divisions clean. Indeed it is found that Prisoners before Trial are very much indisposed to work; and it has ever been held by the Magistrates of this County making the Rules, and by the Judges who confirmed them, that it is unlawful to enforce Labour or Employment of any kind on Prisoners charged only on suspicion of Offences, or even to withhold any share of their constituted Allowance for Disobedience.

26.—Hours of Labour and of Exercise?—ALL Prisoners, except those under Sentence of Death, are allowed to walk, for air and exercise, in the Airing Yards of their respective Classes, from Morning until Evening; and those who are employed as Constables or Wardsmen, work about eight Hours in Summer, and five Hours in Winter.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—DEBTORS receive the whole Amount of their Earnings, and the other Classes one-half is paid to the County Stock.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification has been observed according to the Rules of the Prison.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain reads Prayers and preaches a Sermon every Sunday, Christmas-day and Good Friday; and also reads Prayers every Wednesday and Friday Mornings, at regulated hours. He also distributes Books of Moral and Religious Instruction, at the County cost, at his discretion, amongst those Persons whom he shall judge likely to be benefited thereby. All Persons who are in health, are obliged to attend Chapel. Prayers are read, the Mornings the Chaplain does not attend, by the Governor or his Clerk.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends to examine every Prisoner as soon as he is brought into the Gaol (except Debtors). He also attends immediately on receiving a notice from the Governor that any Prisoner is ill. He visits the Patients in the Sick Ward once or twice a Day, and oftener if necessary; and generally twice a Week sees every Prisoner in the Gaol. There are Hospitals for the Sick, Male and Female; a Convalescent Room; a Foul or Infectious Ward, and eight Reception Rooms.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—REASONS for Non-employment of Prisoners, *see* Column 25.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—FOR Disobedience of the Rules and Regulations, and the lawful Orders of the Governor or other Officers.—N. B. No Irons used in this Prison as a Punishment or otherwise, except cases of very refractory Conduct, or attempts to Escape.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—

34.—General Observations. —CONVICTED Misdemeanors are sent either to the Penitentiary House, or to one of the Houses of Correction.

A Dress of this description costs the County about 44s. The Bedding consists of a Straw Mattress, a Hair Mattress, two Sheets, two Blankets, and a Rug or Coverlet. The Sheets are given out clean once a Month. The Cost of Bed and Bedding amount to about 5*l.*; a Bed and Bedding of this description lasts for many years.

25.—Description of Employment and Hard Labour?—ALL the convicted Male Prisoners are employed at the Tread-mill. Prisoners before conviction are not employed unless at their own request. The Females are employed in Mending and Washing for the use of the Prison.

26.—Hours of Labour and of Exercise?—THE Prisoners are employed at Mill labour ten Hours in Summer, and from Sun-rising to Sun-setting in the Winter season, with an interval of half an hour for Breakfast, and an hour for Dinner. Convicted Prisoners are allowed to walk for air and exercise in the Airing Yards of their respective Cells, half an Hour in the Morning, an Hour in the course of the Day, and half an Hour in the Evening, before they retire to their Bed-rooms. Prisoners before Trial are allowed to walk for air and exercise in the Airing Yards of their respective Classes at all hours in the Day when not at Work.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Prisoners' Earnings for the last Year amount to the sum of 37*l.* 4*s.* 6½*d.*, the whole of which sum is paid to the County Stock. The Prisoners receive the extra allowance, as mentioned above, in lieu of their Share.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification has been observed, agreeably to the Rules and Regulations of the Prison.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain reads Prayers and preaches a Sermon every Sunday, Christmas-day and Good Friday; and also reads Prayers every Wednesday Morning at regulated hours. He also distributes Books of Moral and Religious Instruction, at the County cost, at his discretion, amongst those Prisoners whom he shall judge to be in a situation to be benefited by such mode of Instruction.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends immediately, on notice from the Governor that any Prisoner is ill. He visits the Patients in the Sick Ward once or twice a Day, and sometimes oftener when he thinks it necessary; and at all times twice per Week and sees every Prisoner in the Prison. There are two Hospital Wards provided for the Sick, one for Male and the other for Female Prisoners; and also a large Room for those who are convalescent.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—REASONS for Non-employment of Prisoners, *see* Column 25.

32.—Reason for Punishments, by Solitary Confinement, by Whipping, or Irons.—FOR Disobedience of the Rules and Regulations, and the lawful Orders of the Governor, or other Officers.—N. B. No Irons used in this Prison, as a Punishment.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NO Insane Prisoner in Confinement.

(signed) M. Windey, Governor.

No. 22.—HANTS.

County of } The General REPORT of the Clerk of the Peace of the said County,
Southampton. } founded on the Reports of the Visiting Justices, on the Reports of the
Chaplain, and on the Certificates of the Governor of the Gaol and Keepers of Prisons
in the said County; submitted to, and approved by the Justices assembled at the
Michaelmas Quarter Sessions, 1834, and signed by the Chairman, pursuant to the
Statute 4 Geo. 4, c. 64, s. 24.

Gaol.

THE Visiting Justices at the last Epiphany Quarter Sessions reported the general good health and behaviour of the prisoners during the past quarter, and their entire satisfaction with the manner in which the duties of all the officers had been performed. The Visiting Justices stated, that notwithstanding the large number of prisoners confined in the Gaol, the expense during the quarter had been extremely moderate, amounting to only 94*l.* 9*s.*

The Visiting Justices in their Report to the Easter Quarter Sessions stated, that they continued to feel perfectly satisfied with the conduct of Mr. Beckett, the governor, who discharges his duty in an exemplary manner. The subordinate officers under his charge also deserved their commendation. The prison was clean and the prisoners healthy, and nothing particular had occurred during the past quarter. William Rose, convicted at the last Assizes for murder, underwent the awful sentence of the law, and, according to the direction of the Legislature, was buried in one of the prison yards. The unhappy man, previous to his execution, expressed his thanks to the Chaplain for his exhortation, and attributed his disgraceful death to his profanation of the Sabbath, and frequenting public-houses.

The Visiting Justices at the Midsummer Quarter Sessions had the satisfaction of reporting their continued approbation of the conduct of the officers, as well as the general good behaviour of the prisoners in this prison.

At the present Michaelmas Quarter Sessions the Visiting Justices reported, and expressed their entire satisfaction with the manner in which the officers of the Gaol had performed their duties during the past quarter, and had at the same time to report the uniform good conduct of the prisoners during that period. John Young, convicted at the last Assizes of burglary, accompanied with extreme violence, and ordered for execution, underwent the awful sentence of the law, but although apparently attentive to the earnest admonition of the Chaplain, died, it is to be feared, in an hardened and impenitent state of mind.

Certificates of the Governor.

The certificates of the Governor set forth that the rules and regulations for the government of this prison had been complied with as far as practicable.

Chaplain's Report.

In the Annual Report of the Chaplain of the Gaol and Bridewell it is stated, that since the last Report two executions had taken place, and it was a source of great regret to the Chaplain to report, that in both instances his exertions were met with the most unsatisfactory results. W. Rose was convicted at the March Assizes of the murder of a woman unknown, and John Young, at the Summer Assizes, of burglary, accompanied with great violence. The characters of the two prisoners were very similar, both of them labouring under the most deplorable ignorance, having lived in the unrestricted habits of vice, and evincing in their dispositions a species of unrelenting depravity seldom to be met with. Rose persisted to the last in denying his guilt. Young acknowledged the justice of his sentence, but evinced no signs of real contrition, or of his entertaining a proper sense of the danger of his state. At the Summer Assizes, George Barratt and John Munday were convicted of arson; and although those were the only cases of peculiar atrocity, yet the Chaplain had to lament a large increase of committals for minor offences. The Chaplain had regularly supplied the prisoners both in the Gaol and House of Correction with books of religious information, and the advice and instruction he had given them had always been received with thankfulness and attention. Many of the prisoners whose terms of imprisonment have been of sufficient duration to admit of their learning to read, had availed themselves of the opportunity thus afforded them. Divine Service had been regularly performed throughout the year.

Bridewell or House of Correction.

The Visiting Justices at the Epiphany Quarter Sessions reported, the general good health and behaviour of the prisoners, and their entire satisfaction with the manner in which the duties of all the officers had been performed. In submitting a statement of the prisoners committed during the above period, and the number then in confinement, the Visiting Justices regretted that they had again occasion to point out the increasing number of persons committed for offences against the game laws, amounting to 95; a number exceeding one

third of the whole of the commitments, and still in no degree exhibited the extent to which the crime has increased, as in many cases the offence is atoned for by payment of a fine, the offender in consequence not committed. The Visiting Justices had upon so many former occasions expressed their opinion upon the subject of the present state of the game laws and the baneful effects which, together with the beer-houses, are producing upon the conduct and character of the agricultural labourers, that they look forward with anxious hope and expectation to such a revision of the laws upon both these subjects as shall in a great measure, if not altogether, remedy the evils so loudly and generally complained of.

The Visiting Justices had much pleasure in stating, that notwithstanding the large number of prisoners confined in the Bridewell, the expense during the quarter had been extremely moderate. The earnings of the prisoners amounted for the quarter to 113*l.* 17*s.* 8*d.*, which had been directed to be appropriated as follows :

							£.	s.	d.
To the governor or taskmaster	-	-	-	-	-	-	28	9	5
To the turnkeys	-	-	-	-	-	-	28	9	5
		Together	-	-	-	-	56	18	10
To the county	-	-	-	-	-	-	56	18	10
		Total	-	-	-	£.	113	17	8

The mills and machinery for employing the prisoners in unproductive labour were nearly completed, and would in a very short time be in use, when there would be ample means of keeping the whole of the prisoners sentenced to hard labour actively and diligently employed during their stated hours for work.

At the Easter Quarter Sessions the Visiting Justices reported, that the same degree of commendation which they had expressed upon the conduct of Mr. Beckett and his subordinate officers, was also equally due to Mr. Barber, the keeper of the Bridewell, and to all those under his authority. The cleanliness and regularity which was so evident in every department of the prison, must be gratifying to every person who visits that place of confinement. Notwithstanding the discipline which was strictly observed in keeping the prisoners to the tread-mill and other avocations, the Visiting Justices had to lament the annual increase of commitments to that House of Correction. The alteration of the game laws, which was made with the best intention of lessening the number of persons who were punished for the offence of poaching, did not appear to answer the merciful view of the Legislature. The easy manner in which the game was disposed of appeared as an encouragement to the offenders instead of a check to the crime, there being not less than 78 persons, besides those who had paid their fines, committed since the last Sessions for that offence. The Visiting Justices had also to lament the number of commitments for breaches of the peace, chiefly arising from quarrels and disputes from those sinks of iniquity the common beer-houses, and they trusted and hoped that the present Session of Parliament would not pass without some attempt being made to lessen the baneful effects arising from those receptacles of idleness and drunkenness. It was with no small degree of concern that the Visiting Justices had to report that 313 persons had been committed to that Prison since the last Sessions, and they had it in contemplation, with the sanction of the court, to try if they could, by a greater degree of severity, without injury to the health of the prisoners, make some alteration in the prison discipline, as to make it more unpalatable to those who were committed for punishment, and to deter them from disturbing the peace of society and violating the laws of their country, and the Visiting Justices had every reason to hope, from the effects produced since they had the power of employing the prisoners the time allowed by the Legislature, viz. from eight to ten hours in the day, that much good would arise, as prisoners confined under penal statutes, although they had passed half the period allotted by their sentence, had paid the penalties rather than undergo the increased labour which had lately been introduced into the Prison. The numbers then in confinement were, 149 males, 19 females, 6 children.

The Visiting Justices at the Midsummer Quarter Sessions had the satisfaction of reporting their continued approbation of the conduct of the officers in the Bridewell, and the high state of discipline and good order of the Prison, as well as the general good behaviour of the prisoners. They felt gratified also in having to state that there had been a considerable decrease in the number of commitments to the Bridewell during the past quarter, both as compared with the preceding quarter and with the corresponding quarter of the year 1833. The Visiting Justices would be glad if they felt warranted in inferring from this favourable circumstance that crime was upon the decrease in the county, but they were apprehensive that no such conclusion could be formed whilst the incentives to crime remain the same; neither can they feel justified in ascribing the diminution of offences to the additional hard labour to which the prisoners had been made subject, since the introduction of the unproductive labour system. Increase of crime both in this county and in the kingdom generally was attributed to no single cause, nor could the remedy be expected from any one particular increase, but must be sought for in the improvement of the moral character of the people. It was in vain to anticipate any great diminution of crime from penal laws or severity of punishment, whilst encouragement to vice was continued to be held out by those hotbeds of seduction the beer-houses, which it was doubtful whether any amendment of the law would so restrain as to render them otherwise than destructive to the morals of the agricultural population; but the Visiting Justices contemplated with much satisfaction the progress

through

through Parliament of a Bill which had for its object to prevent the consumption of beer upon the premises, and also that still more important measure for the alteration and amendment of the poor laws, which they should be glad to find as practicable in execution as it appeared to be plausible in theory. Upon the Poor Law Amendment Bill, as it applied to this county, they make only the single observation, that it would require great intelligence and judgment in the assistant or local commissioners to substitute in the place of a system (universally acknowledged to be as injurious to the lower or labouring classes as it was to the higher, but which from long continuance had grown with their growth, and so rooted itself into the habits of the people as to become to them a law), another wholly opposite system, the effect of which would in time become beneficial, but upon its first introduction must be attended with difficulty and partial privation. Although the Visiting Justices had expressed their opinion that crime was upon the increase, they felt happy in believing that the offences were generally of a minor description, and principally against the property; that those of a deep and dark dye, as well as all offences against the person, had for some years past diminished, and they were moreover inclined to think that the liberal, and in many instances extravagant allowances made to parties prosecuting, and the payment of expenses to witnesses, had extended the apparent increase of offences beyond its actual excess, as compared with former years, and that many offences before perpetrated with impunity, were now prosecuted to conviction and punishment.

The Visiting Justices at the present Michaelmas Quarter Sessions reported, that they had to express their entire satisfaction with the manner in which the officers of the Bridewell had performed their duties during the past quarter, and had at the same time to report the uniform good conduct of the prisoners during that period. Henry Finch, committed for vagrancy, had been taken ill with the typhus fever the second day after he came into prison, and died on the 8th of October. The disease being of a virulent and contagious character, it became necessary to remove him to a distant part of the prison, and James Mitchell having volunteered his services, attended the sick man during his illness. The conduct of James Mitchell, thus exposing and endangering his life, and also his great attention to the deceased to the time of his death, appeared to call upon the Visiting Justices to make him some compensation, and they had therefore recommended to the Chairman of the Sessions to address a letter to the Secretary of State to obtain from the King the remission of the short remaining period of his sentence; and they further recommended that a small sum of money be given him upon his discharge from prison.

Certificates of the Keeper.

The certificates state, that the rules and regulations for the government of this prison had been complied with.

Chaplain's Report.

The same Chaplain officiates at both prisons, and the substance of his report is set forth in the report respecting the Gaol.

Bridewell, or House of Correction, at Gosport.

THE several quarterly reports of the Visiting Justices of this prison made to the Epiphany, Easter, Midsummer and Michaelmas Quarter Sessions during the year, state, That they had to report, that the Governor continued to give great satisfaction to the Visiting Justices; the rules and regulations were strictly adhered to, and in the frequent inspections of the Visiting Justices, cleanliness, regularity, order and neatness in the internal economy of the prison, prevailed, and were conspicuously displayed.

Chaplain's Report.

In the Chaplain's report it is stated, That the same system of religious and moral instruction had been pursued during the past as in preceding years. Divine service had been performed every Thursday morning throughout the year, and twice every Sunday, including a sermon in the morning, as well as on the particularly days specified in the Act. The prisoners attend in an orderly and correct manner, those who can read being supplied with Bibles and Prayer-books. The Chaplain also visits the prison every Tuesday morning for the purpose of public instruction; he superintends the reading and catechizing of the juvenile offenders, and encourages the system of mutual instruction: the better educated assisting in teaching the less instructed. The prisoners are furnished with tracts as well as a few elementary books for learning to read. The number of commitments during the year generally average between 300 and 400.

Certificates of the Keeper.

The certificates state, That the rules and regulations for the government of this prison had been complied with as far as practicable.

No. 23.—HEREFORD.

Herefordshire, } A General REPORT of the state of the Gaol and House of Correction to wit. } for the County of Hereford, situated within the Liberties of the City of Hereford; founded on the Quarterly Reports of the Visiting Magistrates, on the Report of the Chaplain, and on the Certificates of the Keeper of the said Gaol and House of Correction; prepared by the Clerk of the Peace, pursuant to the Statute passed in the fourth year of the reign of his late Majesty King George the Fourth, c. 64, s. 24; and submitted to the Justices assembled at the General Quarter Sessions of the Peace of our Sovereign Lord the King, held at the Shire-hall, in the City of Hereford, in and for the said County, on Monday in the week next after the 11th day of October, (that is to say,) on the 13th day of October, in the fifth year of the reign of our Sovereign Lord King William the Fourth, and in the year of our Lord 1834, before Edward Poole, Esq. Chairman, Sir George Cornewall, Bart., John Clutton, Doctor in Divinity, John Barneby and Benjamin Biddulph, Esquires, and others their companions Justices of the Peace for the said County; and read and approved by the Justices present at such Sessions.

Visiting Magistrates' Quarterly Reports.

Michaelmas Sessions, 1833.

See Report of preceding Sessions, signed *T. Bird*, Clerk of Peace.

THE Visiting Magistrates reported that the gaol was in a very good state and condition; that the only material alteration during the last quarter had been the appropriation of two cells on the female side of the prison to the use of the matron, in order that she might exercise personal superintendence over the prisoners under her care; that they were not aware of any abuse in the management of the prison, and that the rules had been generally observed; occasional instances of disobedience having been sufficiently punished by the gaoler under the provisions of the Act, without any appeal to the Visiting Magistrates having been rendered necessary.

The Visiting Magistrates, however, wished to call the attention of the Sessions to the inconvenience which resulted from the absence of the gaoler, while conveying the prisoners
sentenced

sentenced to transportation to their destination. That during his absence the prison was left without the superintendence of any one responsible for its management. The Committee of Visiting Magistrates suggested that the sheriff might appoint some person for the specific purpose of conveying such transports.

That 636 $\frac{1}{2}$ bushels of grain had been ground in the county gaol mill by the prisoners sentenced to hard labour during the last quarter; and that the number of prisoners then confined was 58, and of debtors 14, being 22 less in number than at the last Sessions.

January Sessions, 1834.

The Visiting Magistrates reported, That on the 22d of October last, Charles Page, a prisoner, sentenced 3d August 1833 to two years imprisonment, for uttering counterfeit money, had escaped from the gaol; that after having suspended John Jones, one of the turnkeys, and having carefully examined all the circumstances connected with the prisoner's escape, the committee came to the conclusion, that there was not sufficient evidence of negligence to call for his removal, and that after a month's suspension he was reinstated. Since retaken, and remanded for the remainder of his sentence.

(signed) *T. Bird,*
Clerk of the Peace.

That they had no further observations to report to the Sessions on the state and condition of the gaol and house of correction.

That there were then 87 prisoners confined, of whom 12 were debtors (24 fewer in number than at the Epiphany Sessions 1832).

That the clerk of the peace had written to the gentleman who would probably be appointed high sheriff of the county for the ensuing year, forwarding to him a copy of the resolution of the last Sessions on the subject of the appointment of a person to convey the convicts to the Hulks, and that he had expressed his readiness to carry into effect the suggestions of the magistrates; and they submitted to the Sessions the expediency of delegating to the Visiting Magistrates the power of entering into a contract advantageous to the county for such conveyance.

That 683 $\frac{3}{4}$ bushels of grain had been ground this quarter, of which five bushels had been ground for the use of the gaol.

N. B.—An arrangement has been since made, by which the duty of conveying convicts to the Hulks has been entrusted to a person appointed by the high sheriff, and the inconvenience arising from the occasional absence of the gaoler has been removed.

April Sessions, 1834.

The Visiting Magistrates reported, That the whole of the prison was in the best state of cleanliness, repair, industry and discipline.

That 876 $\frac{1}{2}$ bushels of grain had been ground in the corn mills by the prisoners sentenced to hard labour during the quarter, viz. 379 $\frac{1}{2}$ bushels for the gaol and 497 for hire.

July Sessions, 1834.

The Visiting Magistrates reported, That they had ordered that no tobacco should be allowed to be used by convicted prisoners, and that they were about to institute inquiries as to the diet of other gaols, finding from certain returns that the expense per head was greater in Hereford gaol than in most others. That the convicted felons had been disorderly during the quarter, but that vigorous measures had reduced them to order.

That the number of prisoners confined in the gaol and house of correction amounted to 127, of whom 22 were debtors, being an increase of 38 above the number confined at this time last year; that there had also been an increase of more than one-third in the committals during the quarter.

That the grain ground during the quarter had been 593 $\frac{3}{4}$ bushels, viz. for the use of the gaol, 378 bushels, and for hire, 215 $\frac{3}{4}$ bushels.

Gaoler's Returns.

Mr. James Keene, the keeper of the county gaol and house of correction, at each of the before-mentioned sessions (pursuant to statute 4 Geo. 4, c. 64), delivered into court a report, that the gaol and house of correction was in good and safe condition. That the classification, discipline and industry was strictly adhered to; and that the prisoners were in general in a good state of health, and that no contagious or epidemic disease had prevailed in the prisons.

The keeper also, in his quarterly declarations pursuant to same statute, declared, that the rules and regulations laid down for the government of the gaol and house of correction for the county had been faithfully complied with by him.

The usual annual report of the gaoler is annexed hereto.

The Chaplain's Report.

The chaplain, in his annual report to Michaelmas Sessions 1834, states as follows:

The chaplain respectfully begs to present to the Magistrates assembled at Quarter Sessions, the following report upon the general state of the County Gaol, and the conduct of the prisoners during the progress of the last year.

The general state of the prison cannot fail to have approved itself to the judgment and feelings of those, whom an interest in the moral improvement of their fellow men might have prompted to inspect it, and examine its moral departments in detail.

The arrangements being in strict accordance with legal requirements, they must have found order maintained, discipline enforced, habits of industry encouraged, disorderly conduct punished, religious and moral instruction daily administered, and every part of the prison presenting unequivocal evidence of habitual attention to cleanliness and health. The number of commitments during the year has been unusually great, whilst the general conduct of the prisoners has been marked by unusual quietness of demeanor, propriety of conduct, and laudable attention to religious and moral instruction.

The schools established in the prison have been kept in constant operation, and much benefit has resulted from them. Many have been taught to read, and great pains have been taken to instruct every prisoner, without exception, in the awful verities of Christian faith, and the solemn obligations of Christian practice.

In regard to the female department of the prison, the chaplain has much pleasure in bearing testimony to the orderly and correct conduct of the women. The endeavours which have been used to impress their minds with religious truths, and the comforts and advantages of virtuous conduct have not been in vain. Many among them have manifested unequivocal marks of unfeigned contrition, and resolved soberly and advisedly, as far as men can judge of the feelings and state of the heart, to quit the paths of vice, and live righteously, godly and chastely in the fear and love of God. It cannot fail to afford gratification to the Magistrates to know that a situation in a respectable family of this place was obtained for a young woman, whose period of confinement was shortened on account of exemplary behaviour, and that her conduct has been marked by such undeviating propriety and correctness for more than a year, as to obtain the approbation, and conciliate the regard, of her master and mistress.

The chaplain concludes with assuring the Magistrates, that so long as God shall be pleased to give him health and strength, he shall continue steadfast and persevering in the discharge of his important duties, so as to insure, he fervently hopes and trusts, their approbation, and fulfil the ends of his appointment.

N^o 24.—HERTFORD.

Hertfordshire.—AT the General Quarter Session of the Peace, holden at the Shire-hall at Hertford, in and for the County of Hertford, on Monday the 13th day of October 1834, before the Right Honourable Thomas Lord Dacre, Thomas Daniell, Nicholson Calvert, Esquires, and others their fellows, Justices of the Peace for the said County, the following General Report, under the 4 Geo. 4, c. 64, s. 24, was submitted by the Clerk of the Peace, and approved of.

THE buildings generally are in good repair, though there are parts of them that will soon require repair and improvement. One of the day rooms has lately been divided, and three of the large cells have been also divided, so as to make five cells for solitary confinement.

The gaol and house of correction have been whitewashed throughout by the labour of the prisoners.

No alteration has been made in any of the buildings, nor in the classifying the wards and rooms during the last year, except as appears by this Report. Meat and clothing are now supplied by contract.

The number of prisoners now confined is, in the gaol, 36; in the house of correction, 51. Total, 87.

At the same period last year there were 127.

The number committed, including debtors, during the last year, was 654, being 72 less than in the preceding year.

The prisoners in the gaol and house of correction during the last year have been generally healthy and orderly in their conduct.

No alteration has been made since the last Report, in the rules and regulations for the Government of the gaol and house of correction (except as appears by this Report and the Annual Return, Schedule (B.) hereafter noticed); nor does it appear that any deviation has been made therefrom.

The Surgeon has been regular in his attendance on the prisoners in the gaol and house of correction during the last year, and kept a journal, pursuant to the Act of Parliament above mentioned, and has given in to this court the usual certificate of the state of the health of the prisoners, whereby it appears that the prisoners in the gaol and house of correction are at this present time healthy; that there have been 47 cases of illness during the last year, but no more than four have been ill at any one time, and that there has not been any death.

The duties of the Chaplain have been regularly performed during the last year by the Rev. Thomas Lloyd, who has not any other avocation, with the exception of his professional duties, and he has sent in his Report to this Court agreeably to the directions of the above-mentioned Act.

The rules and regulations prescribed by the above-mentioned Act have been complied with by the keeper of the gaol and house of correction, as far as stated by him in the aforesaid Annual Return, Schedule (B.), and in compliance with the orders of the Visiting Magistrates from time to time.

An application was made at the last Easter Sessions by the Justices of the Peace for the liberty of St. Alban, in this county, in consequence of the crowded state of their gaol, to contract with the Justices of the Peace for this county, under the Act of the 5 Geo. 4, c. 85, for the reception into the county gaol of prisoners tried and convicted at the sessions for the liberty, but the Court was compelled to reject the application from want of room.

For the purpose of making the punishment of the tread-wheel more effectual, it has been thought advisable to make the prisoners labour in silence, under the superintendence of a turnkey.

The Midsummer yard has been appropriated for the purpose of instructing the juvenile offenders before trial, and — Mumford, the clerk in the gaoler's office, has been appointed to act as schoolmaster, in addition to his other duties. This regulation has been attended with good effect.

There has not been any alteration in the establishment of officers and servants since the last General Report, save as appears herein, and by the Annual Return, Schedule (B.)

With this Report is forwarded one Return (Schedule (B.) of the above-mentioned Act), in which the Returns for the gaol and house of correction are consolidated.

26.—Hours of Labour and of Exercise?—UPON an average during the Year eight Hours per Day. The Prisoners in the Gaol are allowed to walk during the Day in their respective Yards.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—£. 85. 3s. 1 $\frac{1}{2}$ d. the whole of which is deducted from my Disbursement Account.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by the Act has been complied with.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS every Day, and on Sundays twice, and a Sermon. A School for Juvenile Offenders before Trial, under the superintendence of the Chaplain and Schoolmaster, has been formed in the Gaol. The whole of the Prisoners are supplied with Bibles, Prayer-books, and other religious Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends every Day, if required; separate Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—WANT of Sureties, Bastardy and Assaults. The Prisoners committed to the Gaol are not employed.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—REFRACTORY Conduct and Disorderly Behaviour in the Prison.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—THE Visiting Magistrates have ordered the Prisoners in the House of Correction to be kept in silence during the Day, and in separate Cells at Night; since the adoption of this plan, we have had a great diminution of Numbers, and I think I can perceive a promise of amendment in some. Re-committals have but rarely occurred. This plan has been in operation since November last. The three Prisoners were ordered by the Visiting Magistrates to be whipped for Refractory Conduct in the House of Correction.

time, on five days in the Week, and on the other two days a quart of Soup, made of coarse Meat and Vegetables; Weekly Cost per Head, 2 s. 7 $\frac{1}{2}$ d.

24.—Allowance of Clothing and Bedding, and Cost per Head?—PRISONERS for Trial wear their own Clothes; Convicted Prisoners wear a coarse Dress; and Straw Beds, with Blankets and Rugs, are provided by the County. Cost per Head, about 2 l. per Annum.

25.—Description of Employment and Hard Labour?—CONVICTED Male Prisoners are employed on the Tread-wheel at grinding Corn, and raising Water for the use of the Prison, and at a Hand-crank Machine. Convicted Females at Washing and Mending the Prison Linen and Bedding.

26.—Hours of Labour and of Exercise?—IN the Gaol Department, Hours of Exercise all Day. In the House of Correction, Prisoners at Hard Labour average Ten Hours per Day in Summer, and Eight in Winter, exclusive of Meal-times, and the time occupied in Instruction by the Chaplain on Tuesdays and Fridays. The Hours for Exercise are half an Hour after unlocking in the Morning, and those who are convicted, but not ordered for Hard Labour, are allowed all the Day for Exercise, except Meal-times and Sundays, when they are confined in their Cells, and released only during Divine Service and two Hours for Exercise.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—The Amount of Earnings by the Tread-mill, in grinding Corn for the use of the Prison and the Public, is 42 l. 1 s.; all of which has been applied to the Fund applicable to the Maintenance of the Prison.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—CLASSIFICATION has been observed as required by the said Act; due regard being had to the Character of the Prisoners.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain performs the Morning and Evening Service of the Church of England, and preaches a Sermon every Sunday, Christmas-day and Good Friday; he administers the Holy Sacrament to such Prisoners as are desirous, and who are deemed by him to be in a proper frame of mind to receive the same. He frequently inspects the Prison, and visits all who are in Solitary Confinement, and those who are Sick, and particularly such as are under sentence for Execution. He constantly attends on Tuesdays to admonish the Prisoners in their respective Wards; and on Fridays he expounds the Scriptures to them in the Chapel. All the Day Rooms are supplied with Bibles and other Religious Books; and a Bible or Testament is placed in the Cell of each Prisoner who can read, and when discharged, a Religious Book or Tract is given them.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends daily when required; and separate Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—IN the Gaol Department Prisoners committed for Trial are not employed; and in the House of Correction, such Prisoners as have been convicted, but not ordered for Hard Labour, and also such as are incapable of performing Hard Labour.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—BY Solitary Confinement, pursuant to Sentence of Courts of Assize and Quarter Session, and for disobedience of the Rules of the Prison. By Whipping, pursuant to Sentence of Court. By Irons, none.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—YES, Thomas Wright, 43 Years of Age, indicted for Murder at the Lent Assize in 1823, holden at Huntingdon, and acquitted on the ground of Insanity. He was confined in the Gaol of this County until the 22d of December 1831, when he was removed by His Majesty's Warrant to the Lunatic Asylum at Melton, in the County of Suffolk, where he remained in custody until the 12th of June 1834, when he was removed back from the said Asylum to this Gaol, under a like warrant as aforesaid, it having been humbly represented to His said Majesty that the said Thomas Wright was then of sound mind, and thereupon ordered to remain in custody in this Gaol until His said Majesty's further pleasure shall be known. It appears that this Prisoner has been in confinement 11 years, 7 months and 24 days, up to the date of this Return, but how long he was Insane prior to his committal to Prison cannot be correctly ascertained.

34.—General Observations.—STRICT Silence being enforced as much as possible in the Convict Wards, has consequently augmented the number of punishments as stated in the Third Division of Column 16, which have varied from one Hour to three Days, according to the nature of the Offence and the character of the Prisoner. Cases of Sickness, as stated in the First Division of Column 18, contains all who have received Medical attendance, more or less, but only two cases of dangerous sickness has occurred during the Year, and in both instances the Prisoners were diseased when brought to Prison. The Second Division of Column 18 contains the greatest number who have applied for medical relief in one day, as recorded on the Sick List.

N^o 26.—KENT.

General REPORT prepared by the Clerk of the Peace of the County of Kent, pursuant to the Act 4 Geo. 4, c. 64, and submitted to and approved by His Majesty's Justices of the Peace, assembled at the annual General Session holden by adjournment at Maidstone, in and for the said County of Kent, next after the Michaelmas Session 1834, that is to say, on Tuesday the 21st day of October 1834.

IT appears by the Reports of the Visiting Justices, the reports of the Chaplains, and the certificates of the keepers of the county prisons at Maidstone and St. Augustine's, that the management of the prisons, as well as the general state of the prisoners as to morals, discipline, employment and hard labour, and observance of the rules, have been satisfactory.

That the existing rules for the government of those prisons have been complied with.

Copies of the Annual Returns delivered by each of the keepers of the said prisons to the Clerk of the Peace, in the form contained in the Schedule to the said Act annexed, marked (B.) are attached to this Report.

N^o 27.—LANCASTER.

Lancaster Quarter Sessions, 13th October 1834.

General REPORT of the Common Gaol of the County Palatine of Lancaster.

NO alteration has been made in the buildings during the last year; the discipline also continues the same, with the same beneficial effects; there has, however, been a Committee of Magistrates recently appointed to consider the propriety of introducing the system of Silence and Non-intercourse among the criminal prisoners.

The health of the prisoners continued good up to the month of July last, when several cases of ordinary diarrhœa occurred; and, during the succeeding month, the complaint assumed a severer form and more threatening character: it has, however, entirely disappeared, without having in any one instance proved fatal.

The reports of the officers of the gaol are in every respect satisfactory.

(signed) *Edmund Hornby*, Chairman.

Kirkdall Michaelmas Quarter Session, 3d November 1834.

General REPORT of the House of Correction at Kirkdale, in the County of Lancaster.

NO material alteration has yet been made in the rules, discipline or management of this prison, though the Magistrates have under their consideration a proposed change in them, by introducing the system of Silence and of Non-intercourse amongst the prisoners, which has been adopted with success at the gaol of Carlisle and the house of correction at Wakefield.

Religious and moral instruction continues to be given to the prisoners publicly in the chapel and school, and by private admonition and encouragement, as well as by watchfulness over their conduct, and by the distribution of religious books, which in many instances produce satisfactory results; though it is to be lamented, that in the generality of cases not much improvement is observable.

The conduct of the officers is reported to be exemplary, and the health of the prisoners has, during nearly the whole of the last year, been remarkably good; no cases of cholera, typhus fever, dysentery or any other infectious disease, having appeared in the prison during the last eleven months.

(signed) *Skelmersdale*, Chairman.

Preston Michaelmas Session, 1834.

General REPORT of the House of Correction at Preston, in the County Palatine of Lancaster.

NOTHING requiring remark has occurred in the conduct of the officers and servants, or of the prisoners; nor has any material alteration been made in the discipline or management of this prison during the last year.

But the system of Silent Labour, practised in America and introduced into some English prisons, has been brought under the Magistrates' notice, and is at present a subject of their consideration.

The health of the prisoners has been very good.

(signed) *T. H. Addison*, Chairman.

Salford Michaelmas Session, 1834.

General REPORT of the House of Correction at Salford, in the County Palatine of Lancaster.

THIS prison still maintains its former character and rank as one of the largest and most comprehensive in classification and interior arrangement and discipline. The health of the prisoners has also continued, during a series of years, to be remarkably good, and the conduct of the officers and prisoners is reported by the Visiting Justices in favourable terms.

The system of Silence amongst the prisoners has been recently introduced partially amongst certain classes of the prisoners, and with some appearance of success; but the system has not as yet been sufficiently matured and acted upon to form an adequate opinion of its ultimate utility.

(signed) Richard Dunstan, Gaoler.

N^o 28.—LEICESTER.

A General REPORT, submitted to the Justices of the Peace assembled at the Michaelmas Quarter Sessions, holden in and for the said County, the 13th day of October 1834, pursuant to the Act of the 4th of his late Majesty King George the Fourth, c. 64, intituled, "An Act for consolidating and amending the Laws relating to Gaols and Houses of Correction."

AT the Epiphany Session 1834, the Visiting Justices of the gaol and house of correction reported, That they had visited and carefully inspected both prisons, which they found clean in the interior, and the buildings in good repair. They had pleasure in bearing testimony to the good conduct of the respective officers who had discharged their duties to their entire satisfaction, and of the behaviour of the prisoners having been orderly and quiet; and that the health of the prisoners had been generally good, and no case of sickness beyond that of ordinary occurrence had made its appearance in either of the prisons.

By the gaoler's report at the same session, he certified that the total number of prisoners then in the gaol and female house of correction was 103; viz. in the gaol 54 male felons, 13 charged with misdemeanor, and 15 debtors; 2 female felons, and 1 charged with misdemeanor. In the female house of correction, 5 felons, and 13 on charge of misdemeanor.

By the governor of the house of correction's report at the same session, he certified that the total number of male prisoners then in the house of correction was 102; viz. 29 convicted of felony, 47 convicted of misdemeanor, 25 vagrants, and 1 for refusing to find sureties.

At the Easter Session 1834, the Visiting Justices of the gaol and house of correction reported, That having regularly visited both prisons during the last quarter, they were able to state that the conduct of the officers had met with their approbation, and the behaviour of the prisoners had been orderly and quiet; and there had been no case of sickness beyond that of ordinary occurrence.

By the gaoler's report at the same session, he certified that the total number of prisoners then in the gaol and female house of correction, was 61; viz. in the gaol, 17 male felons, 15 charged with misdemeanor, and 11 debtors; and 3 female felons. In the female house of correction, 8 felons, and 7 on charge of misdemeanor.

By the report of the governor of the house of correction at this session, he certified that the total number of male prisoners then in the house of correction, was 125; viz. 54 convicted of felony, 47 convicted of misdemeanor, 3 charged with misdemeanor, 17 vagrants, and 4 for refusing to find sureties.

At the Midsummer Session 1834, the Visiting Justices of the gaol and house of correction reported, That upon their visiting both prisons during the last quarter, they found the buildings in good repair, and the interior of the prison clean: that the conduct of the officers had been very satisfactory, and the behaviour of the prisoners quiet and orderly. The health of the inmates had been generally good, and no extraordinary case of sickness had made its appearance.

By the gaoler's report at the same session, he certified that the total number of the prisoners then in the gaol and female house of correction, was 92; viz. in the gaol 34 male felons, 22 charged with misdemeanor, and 15 debtors; 8 female felons, and 2 charged with misdemeanor. In the female house of correction 6 felons, and 5 on charge of misdemeanor.

By the report of the governor of the house of correction at this session, he certified that the total number of male prisoners then in the house of correction, to be 111; viz. 33 convicted of felony, 59 convicted of misdemeanor, 17 vagrants, and 2 for refusing to find sureties.

At the Michaelmas Session, the Visiting Justices of the gaol and house of correction reported, That they had during the last quarter frequently visited the gaol and house of correction, the buildings of which are in good repair, and the interior of the prisons clean. That the conduct of the respective officers met with their approbation, and that the behaviour had been generally orderly and correct; the health of the prisoners had been good, and no extraordinary case of sickness had occurred.

By the gaoler's report at the same session, he certified that the state and condition of the prison was good, and that the whole of the prison had been limewashed; and that the rules and regulations for the government of the gaol had been strictly enforced; that the total number of prisoners then in the gaol and female house of correction, was 73; viz. in the gaol 25 male felons, 20 charged with misdemeanors, and 12 debtors; 6 female felons, and 2 charged with misdemeanors. In the female house of correction, 3 felons, and 5 on charge of misdemeanor.

By the report of the governor of the house of correction at this sessions, he certified that the rules and orders given by the magistrates for the government of the prisoners had been duly enforced; that the total number of male prisoners then in the house of correction, was 101; viz. 29 convicted of felony, 57 convicted of misdemeanors, 3 charged with misdemeanors, 10 vagrants, and 2 for refusing to find sureties.

(signed) *Thomas Freer*, Clerk of the Peace.

The above Report was submitted to the Justices assembled at the Michaelmas Quarter Sessions of the Peace, holden at the Castle of Leicester, in and for the said county of Leicester, the 13th day of October in the year 1834, and approved by such Justices.

(signed) *Charles William Packe*, Chairman.

If not, For what Reasons; and what Measures have been taken to remedy this Defect?—NOT strictly, being sometimes over-crowded; Males convicted of Misdemeanors, and not sentenced to Hard Labour, have been in the Ward with those charged with Misdemeanors, or for want of Sureties. No Measures have been taken to remedy this Defect.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—FULL Service in the Morning; every Sunday, Christmas-day and Good Friday; Prayers twice per Week. The Chaplain's Journal is regularly kept and signed by the Chairman of the Sessions; a regular Schoolmaster attends to teach the Prisoners Two Hours in the Week Days, and Four Hours on Sundays; the whole of the Prisoners are supplied with Bibles, Prayer-books and other religious Books, at the discretion of the Chaplain.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—ATTENDANCE twice per Week, and at other times when required. The Surgeon's Journal is regularly kept, and signed by the Chairman of the Sessions. An Infirmary Cell in every Ward, and a new Hospital erected on the outside of the Boundary Wall.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—SUITABLE Employ cannot be obtained; are occasionally employed to Clean the Ward, the Chapel, Reception-room and out Yards.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—REFUSING to Work, Absent from Work, Neglect of Work, Assault, Swearing, and making use of Profane Language, Disobedience, &c.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been insane?—NONE.

34.—General Observations.—IN reference to No. 2 Column, there are forty-four Sleeping Cells in the Prison, six of which have two Beds in them, and the remainder one; total, fifty. The Prisoners sleep three or one in each; by so doing the Prison is capable of containing 144 persons occasionally.

6 October 1834.

N^o 29.—LINCOLN.

The GENERAL REPORT of William Forbes, Gentleman, Clerk of Gaol Sessions for the County of Lincoln.

TO His Majesty's Justices of the Peace assembled at a Court of Gaol Sessions on Thursday the 2d day of October 1834.

THE Keeper of the County Gaol or Castle of Lincoln, in his quarterly reports to the Courts of Gaol Sessions, has certified that the classification of the prisoners in his custody has been conformable to the Gaol Act in every particular, and that the rules of the prison have been duly enforced and observed, and that during the year he has not had occasion to inflict punishment on any prisoner for improper conduct, either by solitary confinement, irons or otherwise. He has also reported, that William Lenton, a convict transported for life at the Lent Assizes, for horse-stealing, died in gaol on the 12th June last, and was interred in the Castle Keep. A coroner's inquest was held on the body, and a verdict given that the prisoner died of consumption.

The Chaplain has reported, that the several duties of the prison have been duly and faithfully observed during the last year, and that the attendance of the prisoners at chapel has been very regular, and their behaviour during Divine service serious and attentive; and that it was greatly satisfactory to him to be able to record, that no criminal execution had taken place during the year.

The following Magistrates have been appointed Visitors at the County Prison for the ensuing Quarter :

The Honourable and Very Rev. Henry Lewis Hobart, D. D. Dean of Windsor, Sir Edward Ffrench Bromhead, baronet, George Ralph Payne Jarvis, esq., The Rev. Edward Chaplin,	John Nelson, Peregrine Curtois, Humphrey Waldo Sibthorp, and William Cooper, clerks,
---	---

And their respective residences are at and near Lincoln.

The report of Sir Robert Smirke upon the decayed state of the walls and towers surrounding the area of the Castle and upon the foundations of the south and west walls of the County Prison, which was annexed to the Clerk of Gaol Sessions' report of the last year, has been laid before the Court of Gaol Sessions, and the attention of the county surveyor directed to the subject; but in consideration of the expense that must be incurred in executing the works recommended by Sir Robert Smirke, the Court have deferred the commencement of the operations for the present.

It appears that the number of prisoners committed to the Castle since Michaelmas 1833 has been 194, of whom

63	were transported,
22	imprisoned for minor offences,
4	{ Imprisoned for different periods in the Castle, and in the Divisional Houses of
	Correction,
5	Smugglers,
9	Acquitted and discharged,
1	Convict died in gaol,
86	Debtors,
4	Now in custody, (1st October,) to take their trials at the next Assizes.

194

Robert Surfleet was appointed, on the 16th October 1833, the watchman and chapel clerk, in the place of Thomas Baker, who died on the 4th September 1833; and the surveyor's salary was increased from 40 *l.* to 120 *l.* a year at the October Sessions in last year, in consequence of his increased duties and the repairs in contemplation according to the report of Sir Robert Smirke.

No step or proceeding has yet been taken by the Court of Gaol Sessions to recover from the borough of Grantham the sum of 5 *l.* 13 *s.* 10 $\frac{1}{2}$ *d.*, and from the borough of Great Grimsby the sum of 11 *l.* 6 *s.* 6 *d.*, the expenses of prisoners committed from their local jurisdictions, (noticed in the last year's Gaol report), in consequence of a petition to the House of Commons on this subject from the county of Lincoln, and of the Commissioners on Municipal Corporations having been requested to direct their inquiries, and to report on the subject, and which report has not yet been published or laid before Parliament; and here it may be right to observe, that the borough of Stamford, following the example of Boston (reported last year), have acknowledged their liability by discharging the demand made upon them.

I beg leave to state, that His Majesty's Commissioners on the Public Records of the Kingdom have presented a set of the works published under their superintendence (53 volumes folio), for the use of the county of Lincoln, and they are deposited in the Grand Jury Room at the Castle of Lincoln.

19.—Whether Common Gaol, House of Correction, or Bridewell?—COMMON Gaol for the three Divisions of the County of Lincoln.

20.—Under whose Jurisdiction and Superintendence?—UNDER the Jurisdiction of the Sheriff and a Court of Gaol Sessions, consisting of the Justices of Lindsey, Kesteven and Holland, by authority of 5 Geo. 4. c. 12, and under the Superintendence of a Committee of Visiting Justices meeting monthly, with other occasional Visits.

21.—Number of Officers, and how appointed?—A KEEPER appointed by the Sheriff; a Chaplain, Surgeon, Surveyor, two Turnkeys, Gate Keeper, Watchman who acts as Chapel Clerk, Matron who acts as Caterer, Cook and Laundress, all appointed by the Gaol Sessions.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—EIGHT Classes: The Master Debtors and the Certificated Debtors have separate Apartments. The Prisoners work in their Day Rooms or Yards without any inconvenience. Twelve Day Rooms, including a Room

Schedule (B.)—County of Lincoln: Lincoln Castle—*continued.*

a Room for Visitors. Eight Airing Yards. The Debtor's Yard is seventy-four yards by twenty-eight yards, and handsome. The Castle Grounds are also occasionally allowed as an indulgence to Prisoners in delicate Health. The Prison, by its peculiar construction, admits of indefinite extension.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—ONE pound and a half of good Wheaten Bread, daily; one pint of Oatmeal Gruel, morning and evening; on Sunday, Tuesday, Thursday and Saturday, half a pound of boiled Beef, without Bone; on Sunday, Monday, Wednesday and Friday, the Broth of the preceding day, thickened with Oatmeal. The Certificated Debtors and Convicted Prisoners have one pound of Beef per week less if not employed. Average Cost about 2 s. 4 d. Weekly. This diet may be commuted into a Money Allowance in favour of Females. Salt is allowed at discretion.

24.—Allowance of Clothing and Bedding, and Cost per Head?—CONVICTED Prisoners are dressed in a Brown and Drab party-coloured coarse Cloth Suit, at 11 s. Prisoners for Trial, in a Brown suit of the same material at the same price, or a twilled Drab Cotton Frock and Trousers, at 11 s. The Bedding consists of a Hessian Mattress and ticked Pillow filled with Straw, at 12 s.; a Rug, 9 s.; three Blankets, 7 s. each, with any additional number wanted for warmth in Winter. Debtors and occasionally other Prisoners willing to pay 1 s. 6 d. weekly, are allowed by the County Feather Beds, Bolster and Pillows, 40 s., and Sheets, 12 s. All Female Prisoners have Sheets gratis.

25.—Description of Employment and Hard Labour?—FEMALES are employed in Sewing, Knitting, &c. Males who can be compelled to work, are employed in cleaning the Prison, in knitting Stockings for the use of the Prison, and occasionally in making Caps, List Shoes, &c.; other Prisoners find their own Employment in making Shoes, List Shoes and knitting Stockings, &c., or take the County Work above mentioned. Prisoners subject to Hard Labour, are required to execute a greater quantity of Task Work.

26.—Hours of Labour and of Exercise?—THE Prisoners are employed in Task Work, and exercise when they please in the Yards, which are open nearly the whole of the day.

27.—Amount of Earnings, how applied, and in what proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE County does not expect Profit from the Work. Prisoners who cannot be compelled to work, find their own Employment and enjoy the Profit, or they take the County Work and are allowed Wages to the full value of their Work; in order to encourage them to work, they are allowed to expend in extra Diet the amount of their Earnings, though maintained by the County. Prisoners who can be compelled to work, are allowed the same Diet as Prisoners for Trial on executing their Task Work. No Officer is allowed, directly or indirectly, to make a Profit of the Prisoners.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act is strictly observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain reads the full Church Service twice every Sunday, Christmas-day and Good Friday, and preaches once; he reads selected Prayers (by Bowen) every day; he administers the Sacrament on the Sunday before each Assize, and on the last Sunday in the year; he attends Prisoners left for Execution once a day at least, and at the place of Execution, and on those occasions preaches and administers the Sacrament; he is required to see the Prisoners once a week at least in their Day Rooms. The Prisoners are encouraged to instruct each other in reading, and have Books for the purpose. The Turnkeys superintend and assist in teaching the Prisoners. The Holy Scriptures are always within the reach of every Prisoner.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon visits the Prison in person every Monday and Thursday: if there are any Prisoners sick, he visits daily in person or by substitute. He is also required to answer any sudden summons at any hour. Separate Infirmarys, with every accommodation, are provided.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—FIFTEEN Master Debtors and one Certificated unwilling to work. And six Certificated Debtors unable on account of Age.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons?—THE behaviour of all classes of Prisoners during the Year has been so uniformly good, that no Punishment whatever has been inflicted.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations. —THE numbers entered from the Surgeon's Book (See 18) consist of all Applications made to him, however trifling.

The Parts of Kesteven, } The General REPORT of William Forbes, gentleman, Clerk
in the County of Lincoln. } of the Peace for the said Parts.

TO His Majesty's Justices of the Peace assembled at the General Quarter Sessions of the Peace, to be holden at Bourn, on Monday, the 13th day of October 1834, and at New Sleaford, by adjournment, on Thursday, the 16th day of the same month of October, within the said Parts.

I have to report that the Rules and Regulations for the Government of the House of Correction at Folkingham in these Parts have been duly observed and enforced during the last year, and that the Officers of the Prison have been attentive to their respective duties.

The number of prisoners committed to this house of correction during the last year, has been as follows; viz.

Felonies	-	-	-	-	-	-	-	72
Assaults	-	-	-	-	-	-	-	30
Bastardy	-	-	-	-	-	-	-	15
Vagrancy	-	-	-	-	-	-	-	22
Misdemeanors	-	-	-	-	-	-	-	35
Offences against game laws	-	-	-	-	-	-	-	47
								221

Being an increase of 22 upon the number of felons committed in 1833, and of 35 upon the felons in 1832, but a decrease of 40 in the total number of commitments in the last year. I have also to report that John White, the governor, died on the 26th day of July last.

The expenditure in the maintenance of the prison, salaries to officers, &c. during the past year has been 756 *l.* 11 *s.* 5*d.*

The following Justices have been appointed Visitors for the ensuing quarter:

Charles Allix, Esq. Willoughby House, near Grantham.
The Rev. Francis Whichcote, Aswarby, near Falkingham.
Benjamin Handley, Esq., Pointon, near Falkingham.
The Rev. William Walters, Rippingale, near Bourn.
The Rev. William Hardwicke, Lenton, near Falkingham.

TO the Court of General Quarter Sessions of the Peace, to be holden in and for the County of Merioneth, on Friday the 17th day of October 1834.

THE Report of the Visiting Magistrates of the common gaol and house of correction at Dolgelly, in and for the county of Merioneth.

The gaol and house of correction are in a good state of repair, clean and in good order.

The prisoners have been generally healthy and orderly in their behaviour.

No alterations have been made during the last year in the rules and regulations for the government of the gaol and house of correction, nor does it appear that any are necessary, and it does not appear that any deviation has been made therefrom.

The surgeon has been regular in his attendance on the prisoners, and has given to the court a certificate of the prisoners' health.

The duties of chaplain have been regularly performed by the Rev. Henry Weir White, for the preceding year, and who has sent in his report, agreeably to the direction of the Act of the 4th Geo. 4.

The rules and regulations made and prescribed by the said Act of Parliament, have been complied with by the keeper of the gaol and house of correction, as far as stated in Schedule (B), sent herewith, and the orders of the Visiting Magistrates, from time to time.

20 October 1834.

(signed) J. Jones Williams, Clerk of the Peace.

Nº 31.—COUNTY OF MIDDLESEX.

The General REPORT of His Majesty's Justices of the Peace for the County of Middlesex, assembled at the Michaelmas Quarter Sessions, held in and for the said County, in the year of our Lord 1834, made in pursuance of the directions of the 24th section of the Act of Parliament passed in the fourth year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing, and regulating of certain Gaols and Houses of Correction in England and Wales."

DURING the past year fourteen Justices have at each Quarter Session been appointed by the Court, under the authority of the 16th section of the said Act, to visit the House of Correction, situate in Cold Bath Fields, and the gaol called the New Prison at Clerkenwell, and those Justices have at each General and Quarter Session reported their proceedings to the Court, whereby it appears that they have paid constant attention to the due management of the prisons.

The Chaplain of the House of Correction has, at the present Session, in compliance with the 34th section of the said Act, delivered in his annual statement of the condition of the prisoners, and his observations thereupon; and he therein reports as follows:—
 "When the strictest discipline, order and vigilance prevail, by night and by day, as in this prison, whatever may have been the previous character, habits or disposition of the prisoners, improvement must be the consequence. As the Chaplain's uniform and constant aim, since the time of his appointment, has been to inculcate moral and divine truth, to impress the corrupted souls of his audience, to rouse their energies into action, and to shew his congregated culprits that continuance in crime must further prejudice their interests, no more will be necessary in this Report than briefly to state,

"I. The Mode of Instruction.

"II. The Capabilities of the Prisoners to receive the same.

"I. To meet the intellectual and spiritual wants of his congregations, the Chaplain has adopted the seven following methods of instruction marked out, as he conceives, by the statute:

"1st. Preaching to them on Sundays, Christmas-day, and Good Friday; 2dly, Expounding, in the plainest manner he is able, the Scriptures daily, in two separate chapels, one for males, and the other for females—being fourteen services in the course of seven days; and 3dly, The repetition of the church catechism and collects by the juvenile prisoners before the congregation in chapel, with a catechetical lecture once a week. In this manner 1,805 youths have been instructed during the year, and the first principles of the Gospel not only inculcated, but answers drawn forth from the prisoners to give occasion for correcting errors, and for disciplining the mind to a careful investigation of Divine truth; the collects affording materials for meditation and prayer, whereby the heart and affections may be influenced, and every individual learn to apply what he repeats daily in the liturgy,—that Almighty God pardoneth and absolveth all them that truly repent and unfeignedly believe His holy Gospel; to beseech him to grant them true repentance and His Holy Spirit, that those things may please him which they do at this present, and that the rest of their lives hereafter may be pure and holy, so that at the last they may come to His eternal joy. 4thly, Child-bearing women have been churched, and children born in the prison have been baptized, as well as some who came in unbaptized with their parents, before the female congregation, and afterwards registered. 5thly, In consequence of a more convenient classification of the male prisoners, the schools conducted by a schoolmaster, assisted by prisoners selected as monitors, have been reduced this year from six to five, and the scholars somewhat less in number. Between 80 and 153 have been daily advanced from the alphabet to the Bible, out of which the 1,805 already mentioned have been prepared for the chaplain's public examinations. 6thly, Bibles, Testaments, prayer and spelling-books, catechisms, collects, and homily tracts have been supplied by the county; and religious and moral publications, sent by the friends of the prisoners, have been distributed by the Chaplain alone. In the course of the year idolatrous publications, metaphysical disquisitions, revolutionary biography, and much of the trash of the present day (for the sale of some of which persons have suffered the penalty of the law), have been sent in almost daily to the prison; the examination and rejection of them have occupied as much of the Chaplain's time as the distribution of books of pure religion and sound morality requires. 7thly, Prisoners in solitary cells, day-rooms, wards and infirmaries, have also been visited and exhorted, when their previous sentiments and habits have been developed, their future prospects and intention declared, and the Chaplain placed in a capacity to devise means for their rescue from the contagion of their fellow-criminals and the fascinating thralldom of crime. In cases of a peculiar nature, the Chaplain felt it his duty to apply to His Majesty's Secretary of State for the remission of part of the sentences of prisoners, and he has the satisfaction to report that his applications, as

usual, were successful. The prisoners in various circumstances seeking the Chaplain's aid have been in number about one per day: half of them, at least, have had their wishes gratified. The condition of orphan and unprotected youth under different circumstances, not originating with themselves, is lamentable. No inconsiderable numbers of these individuals, purely the children of necessity, are educated and uncorrupted, but destitute and floating on the surface of the stream of society, when committed first to prison: on their enlargement, they apply with buoyant hopes of deliverance from a state of destitution to our various asylums. They are frequently not received, owing to a deficiency of funds, but thrown back into the streets, in some instances two or three times, and as often into prison. They now lose that simplicity of character in which they at first appeared: the energies of their minds are now blunted; the contaminating influence of prison association pervades the soul; they now become reckless and irreclaimable, and thicken and fill up the floating mass of corruption which draws innocence into its train wherever it rolls, plunders the hard-earned savings of industry, by daily and nightly depredations in shops, private dwellings, and on the person in the streets. Thus, taxation on the property of the county is augmented by their transportation abroad, or what amounts to much the same expense, their almost continual imprisonment at home. A grant of 2,000 *l.*, or at most 3,000 *l.* per annum from His Majesty's Government, charitable contributions, or from any other source, to the Refuge for the Destitute would be a sum sufficient for the salvation of all that would seek it by its protecting agency.

" II. The capabilities of prisoners to receive instruction. The Chaplain, desirous of ascertaining on certain data what capabilities prisoners possessed of acquiring religious and moral instruction to counteract the demoralizing influence with which they are surrounded, has inquired into the education of 967 prisoners individually; viz., 701 males and 266 females in this prison on the 29th September last.

" The following result appears:—

" Prisoners	-	-	-	-	-	-	-	-	-	-	967
Those uneducated, first imprisonment	-	-	-	-	-	-	-	-	-	56	} 104
Imprisoned before	-	-	-	-	-	-	-	-	-	48	
Those educated, first imprisonment	-	-	-	-	-	-	-	-	-	646	} 863
Imprisoned before	-	-	-	-	-	-	-	-	-	217	
First Imprisonment	-	-	-	-	-	-	-	-	-	702	} 967
Imprisoned before	-	-	-	-	-	-	-	-	-	265	
											967

" From this inquiry the Chaplain draws his conclusion, that it is not the want of education, but the absence of principle, which leads to crime. This principle once fixed in the heart would apply the means for the accomplishment of their legitimate ends; would soften the heart, subdue iniquity, break the stubborn will, bring every thought into the obedience of the law of God; the result of which would be, obedience to the laws of society and of man: the wretched wanderers would thereby be drawn into the paths of happiness and peace.

" Persons committed to this prison exceed in number those of the last year 140.

The numbers in 1833 having been	-	-	-	-	-	10,456
1834	-	-	-	-	-	10,596
						140"

The Chaplain of the New Prison has also made his annual statement and observations, in which he states, that, " In submitting to the Court his annual Report, he feels that he has little that is new to communicate, and therefore will confine himself to the statement of a few facts, and then add a few observations. In reference to facts, there have been committed during the current year, on the usual charges, 8,199, making an increase on the number committed the year before of 215. Of this total number, independent of those liberated after examination, there have been discharged by gaol delivery 1,831, being 435 more than the number so discharged the year before. As to the general state of the prison, it affords the Chaplain pleasure to report that it is kept very clean; that the health of the prisoners upon the whole has been remarkably good; and that its general discipline has been improved by a circumstance which will be presently mentioned. With respect to his own more immediate duties, he has to state that, as usual, the morning and evening service, with two sermons, is performed every Sunday, Christmas-day, and Good Friday. Prayers are also read daily to all the prisoners in the chapel, accompanied with instruction from the Holy Scriptures. Thus do these prisoners, who, it is to be feared, for the most part, neglected all the ordinances of religion while at liberty, enjoy within the walls of a prison the benefit of eight public services every week, all attended with expositions of the sacred writings, and solemn appeals to their consciences from them. During the services the conduct of the prisoners, whatever may be the ultimate effect, is generally as attentive and orderly as that of any other congregation. The sick prisoners charged with the higher order of crimes, and others who require or need his assistance, are visited by the Chaplain in private. The boys also are instructed, as far as the short period of their imprisonment will admit,

admit, by the new turnkey appointed for that purpose. The prisoners are likewise well supplied with Bibles, Psalters, and other suitable books and tracts, and are constantly exhorted to make a proper use of them. To ascertain the moral effects of these varied means of religious improvement, among an ever-moving mass of 8,000 persons, who annually pass through this prison, but who stay there only a few days, or a few weeks at the longest, is impossible; and though the Chaplain is not inclined to over-rate them, yet he cannot but rejoice in any success which may attend his labours, however small, and express a hope that some consciences may be brought to feel the power of truth, and be practically influenced by it, of which he will know nothing until the day of final account shall disclose the wonderful workings of guilt on the one hand, and the still more wonderful workings of eternal mercy on the other, in bringing some of the most hardened sinners to true repentance. But while he would hold out every encouragement to true repentance in all cases, he has long entertained a decided opinion that the hopes of recovering the guilty from a criminal course, entertained by many, are far too sanguine, and that the causes which lead to crime and profligacy are too little regarded. He finds that what Virgil long since recorded in fable—

————— ‘facilis descensus Avernī,
Sed revocare gradum, superasque evadere ad auras,
Hoc opus, hic labor est,’

is daily confirmed abundantly in morals; and therefore, under this conviction, he would earnestly solicit attention to what he has generally found to be some of the leading causes of crime and profligacy of every description; and among these deserves to be mentioned, first, on account of its great importance, namely, the lamentable want of a sound *religious education* among the lower orders. That a greater number of prisoners can now read than formerly is true; but the mere ability to read is the smallest part of a proper education. Nothing, in the judgment of the Chaplain, deserves the name which does not include *moral and religious principles*; the mere training of the intellect, without such principles, is only supplying a depraved being with greater powers of doing mischief, of which this prison supplies many examples. The Chaplain can state, from long experience, that he has seldom or ever found within the walls of a prison persons whose minds have been properly imbued from early life with the principles of education to which he has referred. The profanation of the Sabbath, and the consequent neglect of religious ordinances, to which the conduct of many of the higher classes affords a fearful sanction, is generally the next step in the downward road of guilt and ruin. But the excessive drinking of spirituous liquors, to which the increasing number of dram-shops affords a facility, and their splendour a sort of sanction, may undoubtedly be regarded as one of the most fruitful causes of crime and immorality of every kind. That many of the higher crimes are committed under the excitement of liquor is well known; and the Chaplain cannot refrain from expressing his conviction, that a great majority of prisoners have in a greater or lesser degree been injured in their character and conduct by immoderate drinking; in fact, it is the very element in which crime and profligacy live and flourish. But, in conclusion, the point which affords the Chaplain most pleasure to record is the real benefit which the prisoners are now deriving from the intermediate sessions. While, as we have just seen, the number of annual commitments has increased, the monthly return of the sessions, instead of once in six or eight weeks as formerly, has naturally had the beneficial effect of keeping the number of the prisoners continually much lower than formerly; and just at the commencement of the sessions, when the prison is fullest, the reduction in number cannot be much less than from 80 to 100, independent of a more speedy release of the prisoners generally (and consequently of those who are less corrupt from exposure to greater contamination), it requires no remark to show how such a continual reduction of numbers must tend to the peace, good order, and improved discipline of a prison, which has always had more committed to it than it could well accommodate.”

The Governor of the House of Correction, and the Keeper of the New Prison have respectively, during the last year, delivered to the Court the certificates required by the 21st section of the said Act; by which certificates of the Governor of the House of Correction it appears that the rules and regulations set forth in the Act for the government of prisons have been complied with so far as they are applicable to that prison, except in a few instances, duly reported to the visiting justices and to the Court, and by which certificates of the Keeper of the New Prison it appears that the rules laid down for the government of that prison and the classification required by the statute have been complied with as far as the limits of the prison will admit of, the principal deviation consisting of the appropriation of two of the yards on the females’ side of the prison for the use of male prisoners.

The Court, as required by the 24th section of the said Act, have annexed to this Report copies of the Returns or Schedules (B.) delivered to the clerk of the peace by the Governor of the House of Correction and the Keeper of the New Prison, for the use of the Justices assembled at the present session.

22.—Number of Classes, Wards, or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—The number of Classes is six Male and two Female; the number of Wards or Divisions is twenty; Day Rooms, ten; Airing Yards, twelve, which may be extended or increased.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—THE general Diet is twenty ounces of the best Wheaten Bread, and a pint of Gruel daily; Weekly Cost per Head, about 2 s.; in addition to which the Prisoners are allowed to provide for themselves, and to be visited by their friends daily, excepting Sundays.

24.—Allowance of Clothing and Bedding, and Cost per Head?—ALLOWANCE of necessary Clothing is made to those who are in want. Every Prisoner is provided with a separate Bed, two Blankets and a Rug. The Cost per Head, if entirely clothed, is for Males about 2 l. 4 s. 10 d.; and for Females, about 2 l. 3 s. 3 d., including Bedding.

25.—Description of Employment and Hard Labour?—THE employment of a few Prisoners before trial, and with their own consent, consists of Washing the Prison Bedding, Clothing, &c.; Whitewashing, and daily cleansing the Prison, for which an extra allowance of Meat and Beer is made.

26.—Hours of Labour and of Exercise?—THE Hours of Employment and Exercise generally to all the Prisoners are from Six o'clock in the Morning in Summer, and from Seven in the Winter until Sunset.

27.—Amount

Schedule (B).—County of Middlesex: New Prison, Clerkenwell—*continued.*

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—NO Hard Labour being imposed, there are no Earnings.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by the Act has been observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—DAILY attendance for Prayers in the Chapel, twice, and two Sermons on Sundays, Christmas-day and Good Friday; visiting the Sick, and Prisoners charged with capital Crimes. The Prisoners are supplied with Bibles and other Books.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—ATTENDANCE of the Surgeon daily, and oftener when required. Separate Buildings are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15?—SEE Answer to No. 25.—The Prisoners are untried. The Commitments are mostly for bailable Offences, Commitments for Trial, and Commitments for further Examination.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons?—MISBEHAVIOUR in Chapel, assaulting one another, turbulent or riotous Conduct, destroying the Prison Clothing, &c.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NO Insane Prisoner.

34.—General Observations.—THREE hundred and sixty-four Prisoners have been committed in execution under the Summary Conviction Act, 9 Geo. 4, c. 31; 1,831 Prisoners have been discharged at the several Gaol Deliveries. The number of Prisoners committed exceeds that of the past year by 215.

20.—Under whose Jurisdiction and Superintendence?—JURISDICTION of the Magistrates of the County of Middlesex; Superintendence of George Laval Chesterton, Governor.

21.—Number of Officers, and how appointed?—FORTY-FOUR Males, including Governor, Chaplain and Surgeon; Ten Females, including Matron; by the Magistrates of the County.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—THIRTY Classes; Thirty open Yards, Thirty-four Day Rooms. *Note*.—Some of these are frequently from necessity made both Day and Sleeping Rooms.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—PRISONERS above Sixteen years of age, whose period of confinement exceeds Three Months, as follows: one pound and a quarter of Bread, and one pint of Gruel daily for Breakfast; six ounces of Meat, and one pint of Soup, three times per week; one pint of Gruel on Saturday for Dinner. Prisoners above Sixteen years of age, whose period does not exceed Three Months, as follows: one pound and a quarter of Bread, and one pint of Gruel daily for Breakfast; six ounces of Meat, and one pint of Soup, twice each per Week; one pint of Gruel, three times per Week for Dinner. Prisoners under Sixteen years of age, one pound of Bread, and one pint of Gruel daily for Breakfast; Six ounces of Meat, and one pint of Soup once each per Week; one pint of Gruel, five times per Week for Dinner. All Prisoners whose period of confinement exceeds Six Months have half a pint of Gruel as an extra evening Meal. Average Cost per Head not exceeding 1 s. 10½ d. per Week.

24.—Allowance of Clothing and Bedding, and Cost per Head?—ONE Waistcoat, two Jackets or Wrappers, two pairs of Trowsers, two Shirts or Shifts, three pairs of Stockings, three pairs of Shoes, two blankets, one Bed, one Rug, one Flannel Petticoat, two handkerchiefs, one Woollen Cap for Males, three Linen Caps for Females. Estimated Cost about 3 l. per Head. The foregoing is the Estimated Amount of Clothing, &c. necessary for each Prisoner who would remain in the Prison an entire Year, and if every article issued should be new, the cost would be 3 l. Considering, however, the total Cost for Clothing, and the average number of Prisoners, the Cost per Head is in reality only 1 l. 1 s. per Annum.

25.—Description of employment and Hard Labour?—PICKING Oakum, Painting, Whitewashing and Repairs to the Prison, Menial Offices in the Prison, Needlework, Tread-mill.

26.—Hours of Labours and of Exercise?—LABOUR not exceeding Ten Hours daily. Exercise One Hour and a half daily; to those in solitary confinement whenever practicable.

27.—Amount of Earnings, how applied, and in what proportion to each class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—PICKING Oakum, 235 l. 6 s. 6 d. Needlework, 26 l. 10 s. Paid to the County Treasurer.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification has been observed, excepting in the following instances (duly reported to the Court of Session): Individuals have occasionally been removed to other Classes, either to preserve the peace of the Prison, or for greater security; also the Aged and Infirm, and Women having Children, are respectively associated for the sake of the increased attention they require. A considerable number of Prisoners having for some time been employed to repair the Buildings, and to work in the Grounds within the Walls of the Prison, and it being desirable to have Prisoners with short terms, for greater security against Escape or evil designs, under the sanction of the Magistrates, Prisoners of the best characters from various classes have been selected for those purposes, having short remaining terms to serve, or such with longer terms, whose health requires more air than the Wards afford them.

29.—What duties are performed by the Chaplain, what provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS, daily, with Scriptural Expositions, in two Chapels; two Sermons on Sundays, (one to the Males, the other to the Females); weekly catechising the Children in Chapel; visits to Pri-

soners in Cells and Infirmaries; attending to the applications of Prisoners who desire admission into Asylums, &c.; and frequently engaged without the Prison in reconciling Prisoners to their Friends, or otherwise benefiting them. Books and Tracts supplied by the Prisoners' Friends, or from other sources, are distributed amongst the Prisoners by the Chaplain's or Governor's directions; and Bibles, Prayer and other Books provided by the County are distributed by the Chaplain, and Schools are kept for the Instruction of Children.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—ATTENDANCE twice daily, with the exception of Sunday and Monday; on each of these days once, and as often at any time as required. Separate Buildings or Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—BECAUSE those persons are merely confined in default of Bail.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping or Irons.—FOR Disobedience of the Prison Rules and Regulations, and refractory Conduct, by Solitary Confinement; very refractory Conduct, or positive refusal to Work, by Whipping; Leg or Body Irons when Prisoners are exceedingly violent or attempt to escape; Handcuffs or the Strait Waistcoat, or Leather Shackles, for unusual Violence, Assaulting or threatening to Assault the Officers, wilfully destroying their Cells, Bedding or Clothing. These restraints are invariably removed the moment it can be done with safety.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—WILLIAM STEERS, aged 40 years, indicted on the 12th May 1834, for simple Larceny, and found to be Insane by a Jury impaneled for that purpose, is ordered to be kept in strict custody until His Majesty's pleasure shall be known. William Henry Clark, aged 33 years, acquitted on the 16th June of simple larceny, on account of insanity, is ordered to be kept in strict custody until His Majesty's pleasure shall be known.

34.—General Observations.—THE Discipline of the Prison as a House of Correction is, as far as practicable, strictly enforced. The Prisoners are required to observe silence during the hours of Labour, and commanded to be orderly, obedient and respectful to the Officers over them; and to move with decorum and regularity on all occasions. The general Punishment for any breach of the Rules is, conformably to the Act of Parliament, Solitary Confinement on Bread and Water; but for Minor Offences, Prisoners are sometimes kept on Bread and Water, without being locked up, the Gruel (Meat or Soup rarely) being stopped for one Meal. This is resorted to chiefly to check neglect of Work (Oakum picking), or to restrain the unruly conduct of Boys, and is returned under the head of "Other Punishments."

1834, made in pursuance of a certain Act of Parliament passed in the fourth year of the
reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating
and amending the Laws relating to the building, repairing, and regulating of certain
Gaols and Houses of Correction in England and Wales."

WE have the satisfaction of reporting, That the Prisoners have enjoyed a good state
of health, and that the prison rules have been complied with.

The New Gaol and House of Correction having been but recently finished, the classi-
fication of the Prisoners has not yet been completed; the several improvements and
alterations suggested last year are also now in progress.

N^o 34.—COUNTY OF NORFOLK.

The General REPORT of the Justices of the Peace for the said County, assembled at their General Quarter Session of the Peace, holden at the Castle of Norwich, in the Shirehouse there, on the 15th day of October 1834; and which Report is made in pursuance of the Act of Parliament of the 4 Geo. IV. c. 64.

IT appears to this Court by the Reports and Certificates delivered in pursuance of the said Act of Parliament, that the Rules and Regulations by that Act directed to be observed and carried into effect in every prison, and also those which have been made by the Justices of this county for the prisons therein, have from the time of making our last Report been fully complied with in the county gaol and in the houses of correction at Walsingham and Wymondham, and that they have been complied with in the house of correction at Swaffham, as far as that prison will admit. It also appears to this Court by the said Reports and Certificates, that the health of the prisoners in the said gaol and houses of correction has been generally good, and their conduct (with some few exceptions) satisfactory; and that the duties of all the officers of the said several prisons have been faithfully and diligently discharged.

The Earnings of Shoemaking about 5l. 12s.; Earnings of Tailoring, 5l. Washing Prisoners' Linen, Shirt-making and knitting Stockings is a saving to the County about 44l. annually.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—IT has. Juvenile Offenders are kept separate from other Prisoners.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS, selected from the Liturgy of the Church of England, together with a portion of the Scriptures, are read every Morning by the Chaplain himself (with scarcely any exception). Instruction is afforded to Prisoners of both Sexes, agreeably to the Regulations of the Visiting Magistrates, under the direction of the Chaplain. The Prisoners invariably attend Divine Service on Sundays, and all other days, unless prevented by illness or other reasonable causes. The Chaplain performs the appointed Morning and Evening Services of the Church of England, preaches a Sermon on every Sunday, and on Christmas-day and Good Friday; supplies Prayer-books, Testaments and other religious Books; administers the Holy Sacrament once a Quarter, if there are any Prisoners disposed to receive it, and visits the Prisoners in private. The Chaplain has no Apartments in the Prison; his Journal is kept correctly, and laid before the Quarter Sessions regularly.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends every other day, or oftener, if required. A Room is provided for the Sick, and a Receiving Room to Male and Female Ward. As to Surgeon's Journal, &c., the Answer to Question 29 applies.

(signed) E. A. Johnson, Governor.

No. 35.—COUNTY OF NORTHAMPTON.

THE General Annual Report of the Justices assembled at the General Quarter Sessions of the Peace for the County of Northampton, held in and for the said County on Thursday in the first week next after the 11th day of October, to wit, the 16th day of October, in the year of our Lord 1834, pursuant to the 24th section of the Act of Parliament 4 Geo. 4. c. 64.

As to the Visiting Justices.

That the Visiting Justices have made their Report at each Quarter Sessions of the Peace during the last year, from which it appears that everything has been conducted in the Gaol and House of Correction, as regards the management of the prison and the prisoners, to their entire satisfaction.

That it appeared to the Gaol Committee at the last January Sessions, that the number of prisoners then in confinement was unusually large, there being no less than 153 in confinement, of whom 36 had been committed for the offence of poaching, and 37 for bastardy and petty offences; and that in little more than 10 weeks previous to the said Sessions, no less than 178 men had been committed to prison.

That the Gaol Committee considering that the comfortable lodging which the gaol afforded, from its warmth, cleanliness, and allowance of food during the winter season, had an influence to a certain extent with those who had been so committed, proposed, after advising with the Surgeon of the gaol, an alteration in the diet, which, without affecting health, might render the prison more suitable to its real purpose as a place of confinement and punishment. The suggestion of the Gaol Committee as to the dietary was accordingly immediately acted upon, and at the April Sessions the Gaol Committee again reported that it had been attended with good effect, operating as a material saving to the county, and that in no one instance had it affected the health of any prisoner.

That the attention of the Gaol Committee had been also directed to the expense of conveying convicts from the prison to the hulks at Portsmouth or Gosport, which struck the Committee to amount to a large sum; that it appeared to them upon inquiry that the Gaoler received for the conveyance of each convict 1 s. per mile, and considering that 9 d. per mile would be a sufficient remuneration for this duty, they recommended such sum to the Court; and the Court agreeing with the recommendation of the Gaol Committee, the allowance of 9 d. per mile for each convict is now established as the sum payable to the Gaoler for such conveyance.

That at the last July Sessions the Gaoler stated to the Gaol Committee that he found great inconvenience from the number of persons applying to be admitted into the gaol to see prisoners; and the Court, in consequence of the recommendation of the Gaol Committee, made an order directing that persons desiring to see convicted prisoners should not be allowed to do so more than once within each quarter of the year, except in cases of sickness, and that such persons should be confined to the wife, children, father, mother, brothers and sisters of such convicted prisoners: but the regulations referred to were to extend only to those persons who might be imprisoned for a limited time, and not to those imprisoned before trial, or to those who might be under sentence of transportation.

That in consequence of a complaint by the Gaoler to the Gaol Committee, at the April Sessions, of the want of a due supply of water, and which was also a subject of serious complaint at the July Sessions, (although the difficulty of obtaining a due supply had been certainly understood as expressed in the last General Annual Report to have been removed,) the Committee recommended that in order that there might be no deficiency in the supply of so essential an article as water, a new well should be made within the gaol; and it appeared to the Committee, upon the examination of the county surveyor and the person who proposed to enter into a contract for the sinking of such well, that an ample supply of water could be obtained therefrom; in consequence of which, directions have been given for making a new well, and the contractor is now employed in executing that work.

That the prisoners have been employed in grinding and baking as usual, and also in other works about the repairs of the gaol; and that during the last year there has been from such labour a profit to the county.

As to the Chaplain.

The Chaplain reports that "The duties of the Church of England, as by law established, are regularly performed; the morning and evening services, according to the directions of the Rubric, with a sermon at the morning service, are performed every Sunday in the chapel; the same duties, with a sermon also, are done on Christmas-day and Good Friday. The sacrament of the Lord's Supper is administered to all such as are disposed and duly qualified to receive it at Christmas, Easter, and Michaelmas.

"Prayers selected from the Liturgy are read, at the ringing of a bell, morning and evening, in the several yards, by a prisoner appointed for that purpose.

"Bibles, Testaments and Prayer-books, together with books on religious subjects, are distributed in every yard.

"Instruction in religion, grounded on the Church Catechism, is privately given to the prisoners, who are visited by the Chaplain four days a week on the average.

"Those prisoners who cannot read, but are inclined to learn, receive instructions."

The number of commitments since the Report of last year is 655, of which 309 can read; of this number, 162 can write also: 224 have learned the Church Catechism, of whom, 147 have been confirmed: 31, included in the above numbers, have been at National Schools; 13, not included, could not repeat the Lord's Prayer.

As to the Gaoler.

A copy of the Return of the Gaoler as to the state of the prison is hereunto annexed, from which it appears that during the last year four prisoners were put in irons for attempting to effect their escape; 57 in solitary confinement, for felony, fighting, talking at work, being off the tread-wheel out of their turns, refusing to work, and being insolent to the officers, &c.; and that 16 had their soup withheld for not keeping themselves clean, &c.

Approved by the Court.

19.—Whether Common Gaol, House of Correction, or Bridewell?—COMMON Gaol and House of Correction.

20.—Under whose Jurisdiction and Superintendence?—THE Sheriff and Justices of the Peace.

21.—Number of Officers, and how appointed?—SEVEN; Gaoler, appointed by the Sheriff and Justices; a Matron, appointed by the Justices, who has a Female Assistant; three Turnkeys, appointed by the Gaoler; also a Baker, who occasionally acts as Turnkey.

22.—Number of Classes, Wards, or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—ELEVEN Yards, eleven Airing Yards, twelve Day Rooms, seven Work Rooms. These were extended as much as was necessary in 1829.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—PRISONERS for Trial or sentenced for a longer period than a Month, receive one pound and a half of Bread per Day, and Soup of the value of 1 *d.*, the Cost of which is 2 *s.* 0 $\frac{1}{2}$ *d.* per Week. Prisoners convicted and sentenced, not exceeding one month, and during the last month, receive one pound and a half of Bread only, the Cost of which is 1 *s.* 5 $\frac{1}{2}$ *d.* per Week. Prisoners convicted or committed in execution, having been imprisoned previously within the last two years, receive one pound of Bread, and Soup of the value of 1 *d.* per Day, the Cost of which is 1 *s.* 6 $\frac{1}{2}$ *d.* per Week.

24.—Allowance of Clothing and Bedding, and Cost per Head?—A SUFFICIENT stock of Gaol Clothing is kept to be used when necessary; also clean and comfortable Beds; the whole provided at the County Expense. The Cost per Head, when new, I do not know, but believe for Clothing, 1 *l.* 2 *s.* 6 *d.*, Bedding, 2 *l.* 3 *s.* 6 *d.*; but considering the length of time they are used, I am of opinion the Cost per Head will only average 4 *s.* 6 *d.* or 5 *s.* 6 *d.*

25.—Description of Employment and Hard Labour?—GRINDING and dressing Corn; baking for the County Infirmary and Gaol; and at the Tread-mill.

26.—Hours of Labour and of Exercise?—GRINDING, &c. four Hours, and at the Tread-mill six Hours in Summer, and from Sunrise to Sunset in Winter.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Earnings are 8 *d.* per Bushel for Corn, and are applied, one-fourth to the Gaoler, and the residue to the County Stock.

28. Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect.—THE Classification, as required by the Act, has been observed in the Prison.

29. What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Liturgy of the Church of England is now performed twice on a Sunday, and a Sermon preached once in a day; also on Christmas-day and Good Friday by the Chaplain, who has been appointed under the Act. The Prisoners are supplied with Bibles and other Books, and the Chaplain attends the Prison most Days in the Week.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends regularly twice a Week, and oftener if required. There are separate Apartments provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—PRISONERS charged with Offences, not being convicted.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—FOUR in Irons for attempting to effect their escape; 57 in Solitary Confinement for fighting, talking at work, being off the Tread-wheel out of their turns, refusing to work and being insolent to the Officers, &c. Sixteen had their Soup withheld for not keeping themselves clean, &c.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—ROGER ROLFE, aged 34, charged with Arson, convicted at the Lent Assizes 27 Feb. 1832, and ordered to remain in Gaol until His Majesty's pleasure be known. I cannot tell how long he has been Insane.

34.—General Observations.—

N° 36.—NORTHUMBERLAND.

4 GEO. IV. c. 64. s. 24.

The GENERAL REPORT, prepared by Robert Thorp, esquire, Clerk of the Peace for the County of Northumberland, and submitted by him to His Majesty's Justices of the Peace in and for the said County, assembled at the Michaelmas General Quarter Sessions of the Peace, holden at Alnwick, in and for the said County, on Thursday the 16th day of October 1834, and approved of by such Justices, and signed by the Chairman at such Sessions, in pursuance of the Act of the 4th Geo. 4, c. 64, s. 24.

FIRST, as to the common gaol and house of correction at Morpeth (both under the charge of one keeper, and within the same boundary wall), Do certify, that no alteration has been made in this prison since the last year.

There are now in the gaol part of the prison 25 debtors, viz. 22 males and 3 females, 6 male and 1 female felons; and in the house of correction side of the prison, 11 males and 2 females, who have been convicted of misdemeanors, and 6 male and 1 female felons; making a total in the two prisons of 52; which when compared with the same period of last year, makes a decrease of 24, and of committals during the whole year, a decrease of 2.

The prisoners in the gaol and house of correction have been generally healthy, and no deaths have occurred.

From the reports made by the Visiting Justices and the Rev. Thomas Shute, the chaplain, who has been appointed since the last report to that office, on the resignation of the Rev. Luke Yarker, it appears that the prisoners have been generally of good behaviour. The Visiting Justices, chaplain, surgeon and keeper, have kept journals of the transactions of the prisoners during the year, and they have been laid before each quarter sessions. The duties of the chaplain have been regularly performed by the Rev. Thomas Shute, the chaplain, who has filled that office since Easter sessions last, and he also sent in his report to the said court of quarter sessions, agreeable to the directions of the before-mentioned Act.

The rules and regulations laid down by the 4th Geo. 4, c. 64, s. 10, have been attended to and acted upon.

It appears from the certificate of Samuel Hall, the keeper of the house of correction at Tynemouth, and the report of the Visiting Justices there, delivered in at this sessions, that no alteration has been made in this prison since the report of last year; that therefore the building is still incapable of the classification required by law, as the prison has only two airing yards and two day-rooms, one for males and the other for females, and a room appropriated for sick prisoners. That there are at present confined within the prison seven males and four females under punishment for misdemeanors, and one male under sentence of imprisonment for felony. There has been an increase of committals to this prison during the year of 22, viz. 1833, 85, and 1834, 107. The prisoners have during the year all behaved well, and the health of the prisoners has been generally good, and no case of cholera has occurred within the prison, nor any deaths. James Diamond, convicted of being a rogue and vagabond, and found afterwards to be insane, has been removed to a lunatic asylum, where he still continues. Prison dresses have been introduced at this house of correction for persons convicted, and it has been found to have the double effect of cleanliness, and adding to the punishment by the disgrace of wearing the same. The magistrates express the excellent manner in which this prison is conducted by the keeper; and in consequence of the immense population of the borough of Tynemouth, a plan has been prepared, and laid before this sessions, to enable eleven additional sleeping cells, one additional day room, and one additional sleeping room for the keeper's family, to be added, which will be immediately proceeded with.

From the certificate of John Leath, keeper of the house of correction at Hexham, it appears, that there has been no alteration made in this prison, but the same is in a very sufficient state for the purpose of health, security and such classification as its construction will permit, being divided into four small but distinct classes, with three airing yards, one of the classes not having an airing yard attached thereto, and that there are now only six prisoners confined in this prison. There has been a decrease of seven committals during the year.

From the report of the keeper of the house of correction at Alnwick, likewise delivered in at this sessions, that during the last year, the south wall of this prison has been taken down, and some additional buildings made, and the south wall rebuilt. Accompanying this report is a complete plan of the Alnwick house of correction, showing all the additions and alterations therein on a scale of one-sixteenth of an inch to a foot, and the prison is now in a clean and substantial state. No alteration has been made in the employment of the prisoners, or in the rules and regulations for the government of this prison since the report of last year. The prisoners have been of good behaviour, very little sickness, and no deaths. There are now confined in this house of correction ten males and two females; the two females and three of the men are committed for trial at this sessions on charge of felony, and seven are under commitments in execution on summary convictions. There has been a decrease of committals, when compared with last year, of 22.

19.—Whether Common Gaol, House of Correction or Bridewell?—HOUSE of Correction and Bridewell.

20.—Under whose Jurisdiction and Superintendence?—UNDER the Jurisdiction of the Justices of the Peace for the County of Northumberland, and Superintendence of the Justices acting for Coquetdale and Bamburgh Wards, they being the Visiting Justices of the said Prison, and also under the immediate Superintendence of the Keeper of the said Prison.

21.—Number of Officers, and how appointed?—ONE Keeper appointed by the Justices in Quarter Sessions.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—NOT classed further than that the Women are kept distinct from the Men. The present accommodations are amply sufficient; two Rooms used as Work and Day Rooms, and two Airing Yards; one Room and Yard for Males and the other for Females.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—ALLOWED 4*d.* per Head per Day. The Keeper provides Victuals in consideration of receiving this sum. Oatmeal Porridge for Breakfast; Bread and Soup or Herrings and Potatoes for Dinner; Porridge and Milk for Supper.

24.—Allowance of Clothing and Bedding, and Cost per Head?—NO allowance for Clothing. The Keeper furnishes Clothing and Bedding, and charges the actual cost to the County, and is paid by order of the Court of Quarter Sessions.

25.—Description of Employment and Hard Labour?—TEAZING Oakum and Horse Hair, making Mats and Mattresses, sewing Pokes, breaking Sand, turning the Ribbing Machine, and if brought up to any trade allowed to work at their trades.

26.—Hours of Labour and Exercise?—TEN Hours labour.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE amount of Earnings cannot be ascertained, they are trifling, and the Keeper is allowed to retain them in addition to the 4*d.* per head per day for providing Food for the Prisoners.

28.—Whether the Classification required by the Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by the Act cannot be observed for want of room further than to keep the Males distinct from the Females.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THERE is no Chaplain to this Prison; the Keeper lends the Prisoners Bibles and Testaments.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—A SURGEON attends when any of the Prisoners are sick. No separate Apartments are provided for the Sick; but the Keeper allows them one of her Rooms for their accommodation.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—NO Persons are employed before Trials, unless they are desirous of having work given them.

32.—Reasons for Punishments by Solitary Confinement, by Whipping or Irons.—

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—THERE is no Insane Prisoner in Confinement.

N^o 37.—COUNTY OF NOTTINGHAM.

The REPORT of His Majesty's Justices of the Peace, acting in and for the County of Nottingham, assembled at the General Quarter Sessions, held at the Shire-hall, in Nottingham, the 13th day of October 1834, respecting the County Gaol and House of Correction, pursuant to the Act of Parliament made in the fourth year of his late Majesty's Reign.

First,—As to the County Gaol, situate at Nottingham.

THE said Justices report, That the new buildings in addition to the gaol, have been completed since their last Annual Report, and which have furnished a number of cells and apartments for the better accommodation and classification of the prisoners, and will be fully adequate to enforce the rules and regulations of the Act of Parliament, and will also save a considerable expense to the county, by the Magistrates not being obliged, as heretofore, to send such offenders as are not committed to hard labour, to the House of Correction at Southwell.

That the state and condition of the prison for the last year have been in each quarter satisfactorily reported by the Visiting Justices, the chaplain and the surgeon, and that good order and regularity have been observed by the prisoners, That the health of the prisoners has been good throughout the year, with the exception of slight disorders.

That the respective duties of the chaplain and surgeon appear to have been regularly and diligently performed, and the conduct of the gaoler very satisfactory.

Secondly,—As to the House of Correction, situate at Southwell.

The said Justices report, That the state and condition of the prison, during the last year, has been satisfactorily reported by the Visiting Justices, the chaplain and the surgeon, and that good order and regularity have been observed by the prisoners. That the health of the prisoners has been good, with the exception of some slight disorders, and the death of one prisoner, by an attack of diarrhoea, and the severe illness of another, who was suffering from a pulmonary complaint.

That the respective duties of the chaplain and surgeon appear to have been very satisfactorily performed. That the late keeper, Mr. Matthew Mole, tendered his resignation at the last Epiphany Sessions, which was accepted; and that Mr. Williamson Etches has been duly elected in his stead.

The said Justices further report, That a committee was appointed at an adjourned General Quarter Sessions, on the 21st of January last, to consider what alteration could be made in the rules and regulations by which the House of Correction should in future be governed, and especially with a view to keep the prisoners more separate and silent, and how far it might be eligible to apply the tread-wheel to some profitable purpose. That the said Committee have reported, that they had carefully considered the rules and regulations in use in the House of Correction at Wakefield, and recommended the adoption of such part of them as regards the enforcement of silence, and also recommended the erection of work-houses, as necessary for carrying into effect such system of discipline. And the said Committee further reported, that they were of opinion that it would be inexpedient to make the tread-wheel applicable to any profitable purpose. Also, that they had made various alterations in the rules and regulations of the House of Correction, which have since been submitted to and approved by the General Quarter Sessions, and now await the confirmation of the Judges of Assize, to whom they were presented on their last circuit.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—EIGHT Male Classes, one Female Class; no Work Rooms, nine Day Rooms, and nine Airing Yards; and they can neither be extended or increased.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—TWO shillings and eleven pence, out of which the Prisoners find their own Coal.

24.—Allowance of Clothing and Bedding, and Cost per Head?—CLOTHES and Bedding supplied as wanted; the Cost per Head averaging about 23 s. per Annum.

25.—Description of Employment and Hard Labour?—THERE is no Hard Labour in the Prison; a Prisoner is occasionally committed to Labour, to assist in cleaning the Prison. The limewashing of the Gaol has been done by Prisoners of industrious habits, not committed to Hard Labour.

26.—Hours of Labour and of Exercise?—EXERCISE, the Day Rooms and Airing Yards the whole of the Day.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—NONE.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—CLASSED so far as the means of the Prison admit. The Gaol has recently been enlarged, and, when completed, the Classification required by this Act will be carried into full effect.

Prayers every Morning, and a Sermon on Sundays. The Chaplain does not reside in the Prison; his Journal is kept with precision. The Prisoners are supplied with Bibles, Testaments, Prayer Books and Religious Tracts.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—DAILY Attendance, and oftener, when required. There is a detached Hospital for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THE Prison affords no means of Employment.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—REFRACTORY Prisoners are put in Irons or Solitary Confinement, as the circumstance of the case requires.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—AT the last March Assizes, Mary Holland, aged 32, was indicted for the Wilful Murder of her Child; she was found Not Guilty, on the ground of being Insane at the time the offence was committed, and ordered to be confined until His Majesty's pleasure be known. She has been in Prison nearly twelve months, and shews no symptoms of Insanity, but conducts herself in the most rational manner. There was no reason to suppose her Insane previous to committing the Crime.

34.—General Observations.—OF the number of Prisoners committed during the Year, a portion have only been committed for a short time for safe custody, until they could be removed to the House of Correction, being generally Persons suffering summary Punishments. Considerable additions and enlargements have been recently made to the Gaol, which at present are not entirely completed, but when finished will be sufficient to carry the Rules and Regulations required by this Act into full effect.

N° 38.—COUNTY OF OXFORD.

GENERAL REPORT of the Clerk of the Peace, of the State and Condition of the Gaol and House of Correction of the County of Oxford, submitted to and approved by His Majesty's Justices of the Peace for the County of Oxford assembled at the Michaelmas Quarter Sessions, 1834.

THE Clerk of the Peace has the honour to report to the Court of Quarter Sessions, that having perused the several Reports during the past year of the Visiting Justices of the Prison and of the chaplain and surgeon, and the certificates of the gaoler, he is enabled to state that the respective duties of the officers have been uniformly performed, and that throughout the year good order and cleanliness have been preserved in the prison, and under Divine Providence it has been preserved from any diseases among the prisoners, beyond those of a common order.

A revision of the prison rules has been made by the Magistrates, and is now before the Judges for their approval.

In addition to the new rules embracing all the provisions of the Acts of 4th & 5th Geo. IV., they propose to reduce the dietary of the criminal prisoners, by taking away the cheese hitherto allowed them, and to enact that prisoners confined for a month or less, shall be fed on bread and water only, and work for two hours before breakfast only, and for the remainder of the twenty-four hours be confined in their respective cells. The object of the Magistrates in this seemingly rigid treatment is two-fold, so to punish this class of prisoners, as to instil into them a dread of ever being committed again, and to guard against that contamination which is often seen to more than counteract the good effects of imprisonment, by engendering worse principles than had been imbibed previous to committal.

N° 39.—COUNTY OF PEMBROKE.

Pembrokeshire, } TO the Worshipful His Majesty's Justices of the Peace for the County
to wit. } of Pembroke, assembled at the General Quarter Sessions of the Peace
of our Sovereign Lord the King, held at the Shire-hall, Haverford-
west, in and for the said County, in the week next after the 11th day of October,
(to wit,) the 15th day of October, in the fifth year of the Reign of His present Majesty,
and in the year of our Lord 1834.

The REPORT of William Evans Paynter, Clerk of the Peace of the said County, in conformity with an Act of Parliament made and passed in the fourth year of the Reign of King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."

I do hereby report and submit to your worships the report of the Visiting Justices and Chaplain of the gaol and house of correction of this county, as also the reports and schedule of the Keeper thereof, which has been delivered to me in pursuance of the said Act, since the last Michaelmas general quarter sessions of the peace, held in and for the said county:—

That it appears by the report of the Visiting Justices of the said gaol and house of correction, at the Epiphany general quarter sessions, held at the Shire-hall, Haverfordwest aforesaid, in and for the said county, on the 1st day of January 1834, that the morals of the prisoners were generally good; that they had neither seen or heard of any abuse or abuses within the wards of the prison; that prisoners sentenced to hard labour are kept seven hours a day during the winter and ten hours in summer; that there are at present confined in the prison 45 prisoners; viz. eight male debtors, 31 male prisoners under warrants, &c. and six female warrant prisoners who are generally healthy.

That it appears by the report of the Keeper of the gaol and house of correction aforesaid, that the said gaol and house of correction was in good and sufficient repair, with very few exceptions; that there were then confined in the said gaol eight debtors, five unconvicted felons, one unconvicted misdemeanant, two for want of sureties to keep the peace, and one lunatic, and one for refusing to be sworn to give evidence; and in the house of correction twenty prisoners for various offences.

That it appears by the certificate of the said Keeper, that the rules laid down for the government of the said gaol and house of correction have been complied with in every respect, as far as the number of wards will admit (having but eight wards), otherwise no deviation therefrom hath taken place.

Easter Quarter Sessions, 1834.

That it appears by the report of the Visiting Justices of the said gaol and house of correction at this quarter sessions, that they had since the last quarter caused a wall to be built at the back of the Keeper's dwelling-house on the old wall (which was very low) to the height of six feet; also an extra wall in the lobby of the new prison, a grating at the top of the same, and a small door within the walls in the large gates, which was very insecure, and which from this additional building they consider to be safe:—That there was then confined in the said prison 56 prisoners; viz. 10 debtors, 42 male warrant prisoners, and four female ditto, who are generally well-conducted:—That it appears by the report of the Keeper of the said gaol and house of correction that the said gaol was in good and sufficient repair, with very few exceptions:—That the water troughs round one division of the prison were in a very decayed state, and would contain very little water:—That the timber supporting the pipes in the well is in an insecure state from decay, and that it is dangerous to put the prisoners to pump:—That there was then confined in the said gaol ten debtors, three King's debtors, three convicted felons, one unconvicted misdemeanant, three for want of sureties to keep the peace and one lunatic; and in the house of correction, thirty prisoners for various offences.

That the certificate of the said Keeper of the said gaol and house of correction is the same as at the last quarter sessions.

Midsummer Quarter Sessions, 1834.

That it appears by the report of the Visiting Justices aforesaid, at this quarter session delivered, that there was then confined in the said prison 46 prisoners, viz. five debtors, 31 male warrant prisoners, &c. and 10 female ditto, who were generally healthy and well conducted; that they had not seen or heard of any abuse or abuses of any description whatever within the prison, and that the discipline of the prison is good.

That the report of the Keeper of the said gaol and house of correction is the same as at the preceding quarter sessions, with a variation as to the number of prisoners contained therein, which number were then five debtors, seven unconvicted felons, two unconvicted misdemeanants, two for breaches of the peace, three for offences against the revenue laws, one for want of sureties for bastardy and one lunatic; and in the house of correction 25 prisoners for various offences.

That the certificate of the said Keeper of the said gaol and house of correction is the same as at the preceding quarter sessions.

Michaelmas Quarter Sessions, 1834.

That it appears by the report of the Visiting Justices aforesaid, that they had in the course of the last quarter caused a new water-tank to be made in one of the prison yards, capable of containing 300 barrels of water, to receive the rain water from the troughs of the new prison, round which prison there had been placed new troughs, the old ones being in a state of decay; they had also new oak beams placed in deep well to support the pump pipes, which could not be worked on account of its dilapidated state; they had also several places repaired, and the platform of the drop flagged and cemented:—That the number of prisoners committed to the said prison during the past year was 409, and 14 debtors, being an increase over the preceding year of warrant prisoners 158, and a decrease in debtors of 20:—That the morals of the prisoners during the past year had been generally good:—That they had neither seen or heard of any abuse or abuses within the walls of the said prison; on the contrary, the discipline of the prison is good, and every thing had been conducted to their entire satisfaction.

That the report of the Keeper of the said gaol and house of correction is the same as at the preceding quarter sessions, with the variation as to the number of prisoners confined in the same, which were then two debtors, six for offences against the revenue laws, five unconvicted felons, and one lunatic; and in the house of correction, for various offences, 24.

That the certificate of the Keeper of the said gaol and house of correction is the same as at the preceding quarter sessions.

That it appears by the statement of the Chaplain of the gaol and house of correction that the condition of the prisoners confined therein is good; that their morals are generally correct with a few trifling exceptions; and he had the satisfaction to find that many of them had improved much in religious knowledge during their imprisonment.

Paynter, Clerk of the Peace.

Agreeable to the said Act of the fourth year of the reign of his late Majesty King George the Fourth, the Clerk of the Peace of the said county having submitted unto us a report, founded upon the several reports, certificates and statements of the Visiting Justices, the Keeper and Chaplain of the said gaol and house of correction, together with the Schedule according to Form (B.) in the same Act.

19.—Whether Common Gaol, House of Correction, or Bridewell?—COMMON Gaol and House of Correction.

20.—Under whose Jurisdiction and Superintendence?—JURISDICTION of the Sheriff of the County of Pembroke, and the Sheriff of the Town and County of Haverfordwest, of the Magistrates of the County of Pembroke, and Town and County of Haverfordwest. Superintendence of the Visiting Justices of the County of Pembroke.

21.—Number of Officers, and how appointed?—THREE; the Governor is appointed by the Sheriff of the County of Pembroke; the Miller (or Taskmaster) and Matron by the Magistrates assembled at the General Quarter Sessions of the Peace for the County of Pembroke.

22.—Number of Classes, Wards or Division, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—EIGHT Wards, two Work Rooms (at the same Tread-mill), one for Men and one for Women, eight Day Rooms, and eight Airing Yards. The same may be increased by new Erections.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—TWO pounds and a half of the best Barley Bread; three ounces and a half of good Welch Cheese; three pints of Milk Pottage; and about six pints of the best Oatmeal Gruel, daily, to all Prisoners under Warrants of Magistrates; and also to all Debtors who are unable to support themselves. Weekly Cost per Head is about 2s. 9d.

24.—Allowance of Clothing and Bedding, and Cost per Head?—EACH Man has a Shirt, a Cloth Jacket and Trowsers, and a pair of Shoes. Each Woman has a Shift, a Cloth Jacket and Petticoat, and a pair of Shoes. Each Prisoner is provided with a Straw Mattress and Pillow, a thick Blanket, and two Coverlets. Cost per Head per Year for the above is about 10s.

25.—Description of Employment and Hard Labour?—MEN are employed in pumping Water, preparing Fuel, and cleaning the Prison; Women in washing Prisoners' Clothes, baking Prison Bread, and cleaning the Prison. The Tread-mill is the only description of Hard Labour for Men and Women.

26.—Hours of Labour and of Exercise?—LABOUR from Six o'clock in the Morning till Six in the Evening in Summer, and from Half-past Seven in the Morning till Half-past Four in the Evening in Winter; allowing One Hour for Breakfast, and One Hour for Dinner. Prisoners not sentenced to Hard Labour have free access to the Airing Yards throughout the whole day.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—A PORTION is laid out for Clothing those who are destitute of such at their discharge, and a sum of Money given to each to take them to their respective homes, or to some place of Employment; the overplus, if any, is paid into the hands of the Treasurer of the County Stock. There is no Earnings arising from any Labour in the Prison except the Tread-mill, which is very limited.

28.—Whether the Classification required by this Act has been observed? If not, For what Reason; and what Measures have been taken to remedy this Defect?—HAS been observed as far as the number of Wards will admit of Classification, there being but eight Wards in the Prison (as set forth in reply to Query 22). No measures have been taken to remedy this Defect.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles, and other Books?—THE Chaplain reads Prayers, and Preaches every Sunday, Good Friday, and Christmas-day, and also every Friday throughout the Year; he visits Prisoners when in Solitary Confinement; also those that are Sick, and unable to attend Chapel, and distributes Religious Tracts among the Prisoners. The Prisoners generally assemble every Morning, when some portions of Scripture are read and explained by the Governor. They are supplied with School Books and Bibles.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon or his Assistant attends three times in every Week, and oftener if required. There are no separate Buildings or Apartments provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THERE is no provision made for the Employment of Prisoners not sentenced to Hard Labour; but all Prisoners who are able to work are employed in the ordinary work of the Prison, viz. pumping Water for the use of the Prison, cleaning the Prison, &c. &c. Those who are not thus employed are Women nursing their infant Children; and some so disordered in their limbs, and otherwise diseased, as render them totally unable to do any kind of work.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—FOR Swearing, Fighting, Gambling, refusing to work when sentenced to Hard Labour, passing the Fence of their Wards, shouting to their fellow Prisoners when at work on the Tread-mill, or when locked up in their sleeping Cells, and for irreverent behaviour at Chapel. In Irons for attempting to break Prison, and for damaging the Buildings and Prison Furniture, and other riotous conduct.

33.—Is there an Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—ONE; Lewis Landry, aged 63, being unruly when at large; insane 24 years; in confinement 26 years.

Rutland, } A GENERAL REPORT, submitted to the Magistrates at the General
to wit. } Quarter Sessions of the Peace of our Sovereign Lord the King, holden
at the Castle of Oakham, in and for the said County, on Thursday the 16th day of
October, in the fifth year of the reign of our Sovereign Lord WILLIAM the Fourth,
by the Grace of God of the United Kingdom of Great Britain and Ireland King,
Defender of the Faith, and in the year of our Lord 1834; before John Muxloe
Wingfield, Gilbert John Heathcote and John Eagleton, esquires, the Reverend
Thomas Kaye Bonney, the Reverend Henry Atlay, the Reverend William Bel-
grave and the Reverend Heneage Finch, clerks, Justices of our Sovereign Lord
the King, assigned to keep the peace of our said Lord the King, in the County
aforesaid, and also to hear and determine divers Felonies, Trespasses and other
Misdeeds committed in the said County, and of the Quorum; made in pursuance
of an Act of Parliament made and passed in the fourth year of the reign of his
late Majesty King George the Fourth, intituled, "An Act for consolidating and
amending the Laws relating to the building, repairing and regulating certain
Gaols and Houses of Correction in England and Wales."

BY the Report of the Visiting Magistrates of the gaol and house of correction of this
county, made to the Court, it appears that the said gaol and house of correction are in a
state of security for the safe custody and duly keeping the several persons who are or may
be confined therein, and that the several requisitions required by the said Act have been
complied with.

That it also appeared by the several Reports made by the same Magistrates, the Chap-
lain, and the certificate delivered by the Keeper of the said gaol, that the rules and
regulations made for the government of the said gaol and house of correction, and
the classification of the prisoners confined therein, have been strictly enforced and
observed.

N^o 42.—COUNTY OF SALOP.

TO the Justices assembled at the Michaelmas Sessions 1834.

A GENERAL REPORT, founded upon the Report of the Visiting Justices, on the Report of the Chaplain, and on the Certificate of the Keeper of the Prison, prepared by the Clerk of the Peace, submitted by him to, and approved by, the Justices assembled in the Michaelmas Sessions 1834, and signed and transmitted by the Chairman, together with a Copy of the Schedule (B.) delivered by the Gaoler, (pursuant to the Act passed in the fourth year of the reign of his late Majesty King George the Fourth, cap. 64, sec. 22 & 24) to one of His Majesty's Principal Secretaries of State.

At the Sessions held the 30th day of December 1833.

THE Visiting Justices reported, That the gaol was entirely free from any infectious or contagious disease, but that of four prisoners then in the infirmary, three males and one female, two of the males were considered to be seriously ill.

That the prison, generally, was in a perfect state of repair, and that no expense was required to be incurred on that head at that time.

That an amended form of the division of the gaol and house of correction had had the approval and signature of the High Sheriff, and which was ordered to be confirmed by the Court, and a copy thereof accompanies this Report.

That in consequence of a few alterations having been made in the gaol rules, submitted to the Court at the October sessions 1833, they were again presented to the Court at this sessions, whereupon it was ordered that the same be approved of and be laid before the Judges of Assize for their sanction, which was accordingly done at the Lent Assizes 1833, and a copy of the rules, as approved and sanctioned by the Judges, accompanies this Report.

The Visiting Justices also report, that in pursuance of the directions of the Court at the October Sessions 1833, they had taken into their consideration the present mode of conveying convicts sentenced to transportation and the expense attending thereon, and that it appeared to them, that the allowance theretofore made to the gaoler for such conveyance had been considered as part of his salary; that the payment of a portion of his salary from such allowances was highly objectionable; that it appeared from the statement made by the gaoler himself and from averages laid before them, that a saving of one-third of the expenses might be effected; that it appeared the average amount of profit admitted by the gaoler, during the last ten years, from this source, amounted to 150*l.*, and that it appeared to them (the Visiting Justices,) that it would be desirable to give an allowance to the gaoler of 100*l.* per annum in lieu of the profit derived from this source, thereby securing a saving upon this item of 50*l.* per annum, and that it might be advantageous to the county to apply for contracts for such conveyance in future, and that the gaoler remain responsible for their safe delivery as theretofore; from which mode of proceeding it was also hoped by the Visiting Justices that a still further saving might be effected, whereupon it was ordered by the Court, that the contract with the gaoler should cease at the Easter Sessions 1834, and that the Visiting Justices should make inquiries and report as to the future mode of proceeding.

The Visiting Justices also reported, with respect to a house then lately erected by Mr. William Henry Griffiths, the gaoler, in Howard-street, that such house had not been built on land belonging to the county, and therefore did not come within the provisions of a contract for exchange which had been theretofore entered into between the county and Mr. Griffiths; but that although the house did not come within the provisions of the contract for exchange, yet that it was nearer to the walls of the gaol than was allowed by the Local Act, and that although an old building formerly stood there, yet that the present house by being of so much higher elevation, was likely to become a serious nuisance, inasmuch as it materially interfered with the privacy of the gaol, and from the upper story completely overlooked some of the courts. That it appeared to them (the Visiting Justices) that Mr. Griffiths had a caution given him on the subject, but that the building was proceeded with, they therefore submitted this matter to the deliberate consideration of the Court as one of great moment, both as respected the privacy of the gaol and the security of the prisoners; whereupon it was resolved by the Court, that the Magistrates did not sanction the house so erected by Mr. Griffiths, which they considered illegal and liable to be pulled down should any evil thereafter arise from it; in the mean time the Court recommended to Mr. Griffiths the taking away of the upper story, in order to lessen the nuisance.

The Visiting Justices recommended that a gratuity of 5*l.* should be allowed to the taskmaster for his attendance on the business of the mill during the year 1833, and which sum was ordered by the Court to be paid to him.

At

At the Sessions held the 7th day of April 1834.

The Visiting Justices reported, that the gaol was entirely free from any infectious or contagious disease, and that there was no case of serious illness amongst the prisoners.

That the prison generally was in a perfect state of repair, but that a small outlay for the preservation of the boundary wall was called for, and which was ordered by the Court.

The Visiting Justices having reported the result of their inquiries as to the most advantageous and economical mode of conveying Convicts sentenced to transportation to their place of destination, it was ordered by the Court that, subject to the approbation of the Sheriff, John Jobson, coach proprietor, be contracted with for the conveyance of convicts for one year, at four-pence per head per mile, and subject to the conditions of a bond to be prepared for that purpose; and it was also ordered, that 100*l.* per annum be allowed to the gaoler in future, in lieu of the profit he had derived from the conveyance of convicts.

It was also ordered by the Court, upon the recommendation of the Visiting Justices, that an improved plan of keeping the gaol accounts be carried into effect under the directions of the Visiting Justices for the then ensuing quarter.

At the Sessions held the 13th day of June 1834.

The Visiting Justices reported, that the gaol was entirely free from any infectious or contagious disease, and that there was no case of serious illness amongst the prisoners.

That the pointing of the boundary wall had been completed as far as was then requisite, and that the interior was in a good state of repair, but that a small outlay was called for to drain off the water on the outside of the boundary wall, at the back of the Infirmary, the expense of which was estimated at 10*l.* 14*s.*, and which was ordered by the Court to be done.

That Mr. Jobson, coach proprietor, had executed a contract for the conveyance of all convicts from the gaol at four-pence per head per mile, including the conveyance and re-conveyance of necessary guards, but exclusive of remuneration to such guards for trouble and loss of time, and of fees at Newgate, and for knocking off irons at the hulks, and which contract was approved by the Court.

The Visiting Justices recommended, that the borough jurisdictions within the county should be charged with their proportion, according to the number of their convicts, of the 100*l.* per annum allowed, at the April Sessions 1834, to the gaoler in lieu of transport money; also with their share of the hire of the guards attending the convicts, and of the fees in Newgate, and for knocking off irons, which recommendation was approved of by the Court and ordered to be carried into effect.

The Visiting Justices also reported, that the new rules had been printed, and copies of such parts thereof as related to the treatment of the prisoners had been printed, to be fixed up in conspicuous parts of the prison, as directed by the Gaol Act; in consequence of which the debtors had addressed a letter to the gaoler, which was taken into consideration by the Court, and it was resolved that the Visiting Justices should be recommended to inquire into the practicability of removing the objections raised to the new rules by the debtors, by affording a better accommodation in the visiting rooms or otherwise.

The Visiting Justices also reported, that they had advertised for parties to supply the gaol with the various articles required there, and recommended the Court to contract for the supply of such articles for one year, which recommendation was approved of by the Court, and contracts were accordingly entered into.

At the Sessions held the 13th of October 1834.

The Visiting Justices reported, that the health of the prisoners was generally good, and that the prison was free from any infectious disorder, that the buildings were in substantial repair, and that the discipline and order within the walls were satisfactory.

That after taking into consideration the order of the Court respecting a representation of the debtors as to the admission of debtors, they (the Visiting Justices) had provided an additional room by dividing the entrance lobby. Whereupon it was ordered by the Court, that for the future, the rules on this subject be carried into strict execution.

The subject of Mr. Griffiths' new house in Howard-street, which is nearer to the boundary wall than is allowed by the Local Act, having been again taken into the consideration of the Court, it was ordered, that previously to any steps being taken to enforce the Act of Parliament, a legal opinion be taken on the part of the county as to the legality of the erection of the house in question under the Gaol Act.

The Chaplain reported, that the *general* moral and religious instruction of the prisoners had, he trusted, been continued with some success, as well as their *private*; the former of which was now attended to almost every day of the week, the latter every day.

The Gaoler certified, that he had carried into effect the rules and regulations for the government of the gaol, agreeably to the 4th Geo. IV. cap. 64.

N° 43.—COUNTY OF SOMERSET.

TO the Justices assembled at the Michaelmas General Quarter Session of the Peace, held at the Castle of Taunton, in and for the said County, on Monday the 13th day of October 1834.

A GENERAL REPORT, founded on the Reports of the Visiting Justices and others, of the several Prisons in the said County, from the Michaelmas Session 1833, to the Michaelmas Session 1834, prepared by the Clerk of the Peace, and submitted to the Justices assembled as aforesaid, pursuant to Statute 4 Geo. IV. c. 34.

Ilchester Gaol.—At the Michaelmas Session 1833, the Visiting Justices reported, That during the quarter just ended, they had observed order, regularity and cleanliness in the gaol.

The Chaplain reported, That great attention to cleanliness and order prevailed in the different wards and amongst the various classes of prisoners. That they had been regular in their attendance at chapel twice on the Lord's Day and once on all the other days of the week, in the morning, and that their behaviour during Divine Service had been very creditable to them. That he had constantly visited the sick and the different wards, where he had examined the juvenile prisoners in reading and in the Church Catechism in the presence of those of more advanced years, that they likewise might be benefited by what

they heard on such occasions. That the Schoolmaster, who was a respectable man and of some experience in teaching youth, attended at the gaol, Sundays excepted, every morning. That, in the course of the last year, he had assisted eighty-one individuals in reading and learning the Church Catechism. The Surgeon reported, That the prisoners were then, with two or three exceptions, in a healthy state.

At the following Epiphany session the Visiting Justices reported the prisoners to be generally orderly.

The Surgeon reported, That there had not been much general illness amongst the prisoners during the quarter; that there had, however, been a few severe cases, but no instance of death.

At the following Easter session the Visiting Justices reported, That the gaol had been kept during the quarter in a clean and orderly state.

The Surgeon reported, That there had been two deaths in the gaol during the quarter, the one the case of a convict who was brought to the gaol in the last stage of a consumption, and the other was that of a debtor, seventy-four years of age, who died from water in the chest.

At the following Midsummer session the Visiting Justices reported, That nothing had occurred during the past quarter to call for any particular notice. The prisoners had been well conducted and had not made any complaint.

The Surgeon reported, That the prisoners had been particularly healthy during the quarter.

Wilton Prison.—At the Michaelmas session 1833, the Visiting Justices reported, That the prisoners had been orderly, and the general state of the prison had been satisfactory.

The Chaplain reported, That out of one hundred and twenty-seven prisoners eighty-eight could read and were acquainted with their moral and religious duties, and the remainder were in a state of almost utter ignorance. That he had been unable to adhere to the rules and regulations which required the Sacrament to be administered at least four times in the year, in consequence of there having been no prisoner disposed to receive the same.

The Surgeon reported, That the prisoners had been generally healthy during the quarter.

At the following Epiphany session the Visiting Justices reported, That during the quarter every thing appeared to have been conducted with regularity and propriety.

The Surgeon reported, That there had been no epidemic or infectious disease during the quarter, and that the then state of the prison was healthy.

At the following Easter session the Visiting Justices reported, That the prisoners during the quarter had been healthy and behaved orderly, and the different officers attached to the establishment had severally done their duty under the superintendence of the Keeper.

At the following Midsummer session the Visiting Justices reported, That the conduct of the prisoners had in general been orderly during the quarter. That in one instance, however, they gave some little trouble for a short time. That some few days having elapsed after animal food had not been given them for dinner, about twenty of the men refused to go on the tread-wheel, saying they could not and would not work unless meat was allowed them as had before been the custom; that about four of the men were evidently the leaders and advisers on that occasion, and as soon as they were separated from the others and put into solitary confinement the rest expressed their contrition and readily went to work again. That on the following day those who had been kept in solitary confinement entreated to be liberated, and at once returned to their labour. That the duties of the Chaplain and Surgeon had been regularly performed; the conduct of the Keeper had been very judicious and well calculated to preserve discipline and good order, and the subordinate officers had been attentive and conformable to the rules and regulations of the prison.

The Surgeon reported, That there had been less disease in the prison during the quarter than any corresponding one; that the prisoners had not suffered in their general health from the alteration of diet.

Shepton Mallet Prison.—At the Michaelmas session 1833, the Visiting Justices reported, That the behaviour of the prisoners during the quarter had been remarkably peaceable and quiet, a circumstance which they could only attribute to the excellent manner in which the discipline had been maintained by the Keeper and the other officers of the establishment.

The Chaplain reported, That during the year his duties as Chaplain had been according to the regulations of the prison; that the prisoners had been generally orderly and attentive at the times he had performed Divine Service, catechized and admonished them, and in many instances had expressed themselves grateful for the instruction afforded to them; that the prison had been kept in the most cleanly and wholesome state.

The Surgeon reported, That the prisoners had generally been in good health during the quarter.

At the following Epiphany session the Visiting Justices reported, That the conduct of the prisoners had been peaceable and orderly during the quarter. That some charges had been made against George Allen, the Turnkey, which after a short examination were, to their judgment, substantiated, and the Turnkey had been consequently dismissed.

The Surgeon reported, That since his last report the prisoners had been generally in good health.

At the following Easter session the Visiting Justices reported, That the prisoners during the quarter had been healthy, quiet and orderly. That George Allen, the dismissed Turnkey, had preferred various charges against the Keeper, which they had investigated and recommended the appointment of a Committee to whom the evidence which they annexed to their Report might be referred.

At the following Midsummer session the Visiting Justices reported, That the state of the prison during the quarter had been very satisfactory. That the Committee appointed at the last session to inquire into two cases of imputed flogging, by Edward Pitman, the Keeper, of Joseph Harman, and severely lacerating his back, had examined the said Joseph Harman and the witnesses produced by Edward Pitman in his defence, and were of opinion that Joseph Harman was privately whipped according to his sentence passed at the Taunton Assizes in March 1833, and that the punishment was not inflicted with more than ordinary severity. That they had also examined further evidence respecting a previous charge of flogging and wounding with a nail John Chambers Vining. That the evidence tended to throw discredit on the testimony advanced in support of the charge, and to prove that a conspiracy existed between Allen, Vining and Bown. That the Committee believed that the accusing parties had acted in concert for a sinister purpose, and their impression as to the probable infliction of the punishment was weakened. That they were of opinion, however, on considering this and the charges alleged against Edward Pitman, and in part proved, that an admonition should be given him to be more careful and circumspect as to his future conduct.

The Surgeon reported, That there had been two or three cases of inflammation of the chest, of a severe character, which had terminated well, and many slight cases of disease, but nothing to demand particular notice. That he thought, as far as he could judge, the alteration of diet in the prison had answered.

The REPORT of the Clerk of the Peace, pursuant to the 4th Geo. IV. c. 64.

THE Visiting Justices of the Gaol report that the walls between the yards are yet unfinished, but that a dead house has been built; that the new cells are inhabited, and are perfectly dry and healthy; that the new Hospital answers well; that the additional rules and regulations for the government of the house of correction have been approved by the Judges; that two unsuccessful attempts at escape have been made by convicts, and that, with this exception, the conduct of the prisoners has been orderly. The Visitors notice that the weaving was discontinued, and that the work in the manufactory is now confined to

Making and mending clogs for the prisoners,
 Making potatoe-nets,
 Knitting stockings,
 Heading pins,
 Scouring blankets, hospital dresses and caps for prisoners, and
 Scouring horse-cloths for the public.

The old buildings are stated to be in good repair, with the exception of the lead on the flats, which requires reparation, and some of the wood and iron work, which wants painting, and all of which the county surveyor has directions to see done, upon estimates, which have been advertised for in the public newspapers.

The Report states that, notwithstanding the additional cells gained by the erection of the new buildings, the number of prisoners somewhat exceeds the number of cells, and the visitors express a hope, that whenever the alteration of the law relating to the arrest for debt shall take place, the number of cells will be sufficient to provide one for each prisoner.

The visitors also state, they are of opinion the proposed alteration of the law relative to secondary punishment will again occasion an increase of prisoners.

The good conduct of all the officers in the gaol is noticed, and they are reported to have done their duty to the governor's satisfaction.

All the new buildings, except the walls, being now perfectly completed, a plan of them has been made, and will be forwarded with this Report, as well as a copy of the additional rules and regulations for the government of the house of correction.

The Chaplain, in his Report, states there to have been a decrease of 67 in the number of prisoners in the present year as compared with the number in the last year. The number in the last year was 1,824, and in the present year 1,757. He reports their conduct (with some few exceptions) to have been orderly, becoming and respectful, and that many of them, during their imprisonment, have derived considerable moral and religious improvement. That Divine Service is performed twice on every Sunday, Christmas-day and Good Friday, and the Sacrament administered regularly four times in each year, and at such other times as may be required. That the sick are constantly visited, as well as the prisoners in solitude. That prayers are read in the Chapel every Wednesday at a quarter before twelve o'clock, and a quarter after twelve o'clock on every Friday, thus giving the Morning and Evening Services. That prisoners under sentence of death are visited daily. That there have been two executions in the present year, one male and one female, both for murder. That prayers are read daily in the different wards. That the boys are separated from the other prisoners, and divided into classes. That a master is appointed over each class, under the immediate superintendence of the chaplain. That they are instructed twice every day in reading, spelling and the Catechism. That many, when they come to prison, are ignorant even of the Lord's Prayer, and the instances are very rare of their leaving without being able to repeat the Lord's Prayer, Creed and Commandments. That others, according to their abilities and length of imprisonment, are further instructed in the catechism, and taught to repeat the collects, gospels, and many of the psalms. That bibles, testaments and prayer books are freely distributed to the prisoners. That the attendance of the debtors at Divine Service has been full and regular, and the conduct of the prisoners in general at Chapel has been highly attentive and becoming. He states the number of commitments to be 1,757, of which 740 can read and write, 423 can read and not write, and 548 can neither read nor write.

From the certificate of the gaoler it appears, that the rules and regulations of the gaol have been complied with.

N^o 45.—COUNTY OF SUFFOLK.

Suffolk, } A GENERAL REPORT, founded upon the Report of the Visiting Justices,
to wit. } the Reports of the Chaplain, and on the Certificates of the Keeper of the Gaol and House of Correction at Ipswich, in the County of Suffolk, prepared by the Clerk of the Peace, and submitted to the Justices assembled at their Michaelmas Quarter Sessions of the Peace, held by adjournment at Ipswich aforesaid, in and for the said County of Suffolk, on Friday the 17th day of October, in the fifth year of the reign of our Sovereign Lord WILLIAM the Fourth, by the Grace of God of the United Kingdom of Great Britain and Ireland King, Defender of the Faith, and in the year of our Lord 1834, and approved by the Justices of such sessions, and signed by the Chairman of the same, pursuant to the directions of an Act of Parliament made and passed in the fourth year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating certain Gaols and Houses of Correction in England and Wales."

THE Visitors appointed at the several quarter sessions of the peace, held by adjournment at Ipswich, in and for the said county, in the month of October 1833, and in the months of January, April and July 1834, reported at the several quarter sessions succeeding their appointment by their visiting book, the periods of their visits, which were always three times at least during the quarter, and at other times, in all of which every thing was stated to be in good order, and without any complaint appearing to have been made by the prisoners throughout the whole of the year from Michaelmas 1833 to Michaelmas 1834, and without any further observations than an order in January last to dispose of the barley mill and

and the malt mill, and their having found on one occasion some of the bread deficient in weight, and their directing the contractor to remedy the defect. And except on direction by the Visitors, as a measure tending to the good discipline of the prison, that the most orderly prisoner in each ward should be placed to superintend the conduct of those at the wheel, and to report thereon; and that since such direction the gaoler has reported that the wards were much more quiet under the superintendence thereby established.

And at each of the said quarter sessions the Journal of the Rev. Robert John Tunney, Chaplain of the said gaol and house of correction, was laid before the Justices for their inspection, and signed by the Chairman in proof of the same having been so produced, in which were entered the times of his attendance in the performance of his duties, together with such observations as occurred to him to make in his execution thereof. And his report to the Visitors generally testified the good conduct, attention and orderly behaviour of the prisoners.

And at each of the said sessions, Samuel Johnson, keeper of the said gaol and house of correction, delivered into court a certificate under his hand, pursuant to the directions of the said Act, containing a statement of the number and description of the several prisoners confined therein, and attended to give answers to all such questions as should be inquired into by the Justices in sessions respecting the state and condition of the said prison; and at the same times also delivered into court a certificate signed by him, containing his declaration that the rules and regulations established for the discipline of the prison had been complied with in every thing which concerned his department in the same.

the 17th day of October, in the fifth year of the reign of our Sovereign Lord
William the Fourth, and in the year of our Lord 1834, before George Capper,
clerk, chairman, Ambrose Harbord Steward, esquire, and others, Justices of our
said Lord the King assigned to keep the peace in and for the said county, and
also, &c.

The foregoing Report is approved by the Justices at these sessions.

Suffolk, } A GENERAL REPORT, founded upon the Report of the Visiting Justices,
to wit. } the Reports of the Chaplain, and on the Certificates of the Keeper of the
Gaol and House of Correction at Bury Saint Edmund's, in the County of Suffolk,
prepared by the Clerk of the Peace, and submitted to the Justices assembled at
their Michaelmas Quarter Sessions of the Peace, held by adjournment at Bury
Saint Edmund's aforesaid, in and for the said County of Suffolk, on Tuesday the
21st day of October, in the fifth year of the reign of our Sovereign Lord William
the Fourth, by the Grace of God of the United Kingdom of Great Britain and
Ireland King, Defender of the Faith, and in the year of our Lord 1834, and
approved by the Justices of such sessions, and signed by the Chairman of the
same, pursuant to the directions of an Act of Parliament made and passed in the
fourth year of the reign of his late Majesty King George the Fourth, intituled,
"An Act for consolidating and amending the Laws relating to the building,
repairing and regulating certain Gaols and Houses of Correction in England
and Wales."

AND first, at the Michaelmas general quarter sessions of the peace, held by adjournment at Bury St. Edmund's aforesaid, on Tuesday the 22d day of October, in the fourth year of the reign aforesaid, and in the year of our Lord 1833, the Visitors appointed at the Midsummer sessions delivered in their Report in writing, wherein they stated, That the general health of the prisoners had been good. That the duties of the Chaplain, Surgeon, Governor and other officers of the prison had been regularly performed. That the several buildings were in good repair. That the committee had contracted for the supply of the following articles for the use of the prison; namely, 40 chaldrons of coals, at 1 l. 8s. 10d. per chaldron; 30 coombs of malt, at 1 l. 7s. 9d. per coomb, and a pocket of hops, at 11 ½ d. per pound. And that they had visited the prisons at least three times during the quarter, agreeably to the Act of Parliament.

And secondly, at the general quarter sessions of the peace held by adjournment at Bury St. Edmund's aforesaid, on Tuesday the 7th day of January 1834, in the reign aforesaid; the Visitors appointed at the preceding sessions delivered in their Report in writing, wherein they stated, That they had visited the prisons at least three times during the last quarter. That the general health of the prisoners had been good, and that there were then only two under the surgeon's care. That the duties of the Chaplain, Surgeon, Governor and other officers had been regularly performed. That the several buildings were in a good state of repair; and the general conduct of the prisoners had been orderly during the last quarter.

And thirdly, at the general quarter sessions of the peace held by adjournment at Bury St. Edmund's aforesaid, on Tuesday the 15th day of April 1834, in the reign aforesaid; the

Visitors appointed at the preceding sessions delivered in their Report in writing, wherein they stated, That they had visited the prisons at least three times during the quarter. That the general health of the prisoners had been good, and that only two were then under the surgeon's care. That the duties of the Chaplain, Surgeon, Governor and other officers had been orderly during the last quarter. That on Friday the 7th of March, the Visiting Magistrates found that Mr. Orridge had adopted from the county prison at Bedford a practice of causing the unemployed convicts during the hours of labour to walk round their respective yards in Indian file, at about the distance of two yards between each prisoner. That this practice was continued during fair weather; that Mr. Orridge enforced silence as much as possible, and considered their employment as very irksome, particularly to the boys.

That they had authorized Mr. Orridge to continue this practice, with an improvement suggested, of increasing the distance between each convict in walking, as much as the numbers in each ward would permit.

And fourthly, at the general quarter sessions of the peace held by adjournment at Bury St. Edmund's aforesaid, on Tuesday the 8th day of July 1834, in the reign aforesaid; the Visitors appointed at the last sessions delivered in their Report in writing, wherein they stated, That they had visited the prisons at least three times during the quarter. That the general health of the prisoners had been good, and that at the time of their report there were only three under the surgeon's care. That the duties of the Chaplain, Surgeon, Governor and others had been regularly and satisfactorily performed, and that the buildings were in good order, and the general conduct of the prisoners had been orderly during the quarter.

And at each of the said quarter sessions, the Journal of the Rev. Thomas West, Chaplain of the said gaol and house of correction, was laid before the Justices for their inspection, and signed by the Chairman in proof of the same having been so produced; in which were entered the times of his attendance in the performance of his duties. And his Report to the Visitors generally testified the good conduct, attention and orderly behaviour of the prisoners.

And at each of the said sessions, John Orridge, keeper of the said gaol and house of correction, delivered into court a certificate under his hand, pursuant to the directions of the said Act, containing a statement of the number and description of the several prisoners confined therein, and attended to give answer to all such questions as should be inquired into by the Justices in sessions respecting the state and condition of the said prisons.

And at the same times also delivered into court a certificate signed by him, containing his declaration, that the rules and regulations established for the discipline of the prison had been complied with in every thing which concerned his department.

Suffolk } The general quarter sessions of the peace of our Sovereign Lord the King

Suffolk, on Tuesday the 21st day of October, in the fifth year of the reign of our
Sovereign Lord William the Fourth, and in the year of our Lord 1834; before
Nathaniel Colvile, doctor in divinity, Thomas Quayle, esquire, and others, Justices
of our said Lord the King, assigned to keep the peace in and for the said county,
and also, &c.

The Justices of the Peace, assembled at the above sessions, approve the foregoing Report.

Suffolk } A GENERAL REPORT, founded on the Report of the Visiting Justices, the
to wit } Reports of the Chaplain, and on the Certificates of the Keeper of the House of
Correction at Beccles, in the County of Suffolk; prepared by the Clerk of the
Peace, and submitted to the Justices assembled at their Michaelmas Quarter
Sessions of the Peace at Beccles aforesaid, in and for the said County of Suffolk,
on Monday the 13th day of October, in the fifth year of the reign of our Sovereign
Lord William the Fourth, by the Grace of God of the United Kingdom of Great
Britain and Ireland King, Defender of the Faith, and in the year of our Lord 1834,
and approved by the Justices of such Sessions, and signed by the Chairman of the
same, pursuant to the directions of an Act of Parliament made and passed in the
fourth year of the reign of his late Majesty King George the Fourth, intituled,
"An Act for consolidating and amending the Laws relating to the building,
repairing and regulating certain Gaols and Houses of Correction in England and
Wales."

AND first, at the Michaelmas General Quarter Sessions of the Peace, held at Beccles aforesaid, on Monday the 14th day of October, in the fourth year of the reign aforesaid, and in the year of our Lord 1833, the Visitors appointed at the Midsummer sessions delivered in their Report in writing, to the effect as following,—That they had personally visited the house of correction at the least three times in the quarter of the year ending at Michaelmas 1834, and always when occasion required. That they had examined into the state and condition of the buildings, and had made inquiries into the conduct of the respective officers
and

and into all matters cognizable by them as Visitors. That on the 9th of July last John Gosling, a convicted felon sentenced to hard labour, was punished with three dozen lashes by order of a Visiting Magistrate, for neglecting his work, refusing to move to that part of the tread-mill to which he was ordered, assaulting the Turnkey and conducting himself in a very riotous manner in the prison yard. And they certified that the house of correction and all the buildings thereto belonging were in good repair; and testified their approbation of the conduct of the officers, of the treatment and condition of the prisoners, and of the observance of the rules established for the discipline and labour of the prison and for the improvement of the morals of the prisoners. That the school-room had been found to have had a good effect on the general conduct of the prisoners who had been instructed.

And secondly, at the General Quarter Sessions of the Peace, held at Beccles on Monday the 30th day of December 1833, in the reign aforesaid, the Visitors appointed at the preceding sessions delivered in their Report in writing, to the following effect,—That they had personally inspected the said house of correction at Beccles, at the least three times in the quarter of the year ending Christmas 1833, and always when occasion required. That they had examined into the state of the buildings and had made inquiries respecting the conduct of the respective officers and into all matters cognizable by them as Visitors; and certified that the said house of correction, and all buildings thereto belonging, are in good repair.

That in consequence of an order of Court last Quarter Sessions, made to ascertain how far it would be expedient to receive female felons before trial, and what accommodation there was for them in Beccles house of correction, in lieu of sending them to Ipswich gaol, whereby a considerable expense had been incurred to the county; they, the Visiting Magistrates, considered that there was sufficient accommodation for female prisoners before trial. That there are two day rooms and a sufficient number of night cells for about eight or nine females. That the work of females is at present required in the gaol. They also testified their approbation of the conduct of the officers, of the treatment and condition of the prisoners, and of the observance of the rules established for the discipline and labour of the prison and for the improvement of the morals of the prisoners.

And thirdly, at the General Quarter Sessions of the Peace, held at Beccles on Monday the 7th day of April, in the year of our Lord 1834, and in the fourth year of the reign aforesaid, the Visitors appointed at the preceding sessions delivered in their Report in writing.

That they had personally inspected the said house of correction at Beccles, at the least three times in the quarter of the year ending at Easter 1834, and always when occasion required. That they had examined into the state and condition of the buildings and had made inquiries respecting the conduct of the respective officers, and into all matters cognizable by them as Visitors; and certified that the said house of correction, and all buildings thereto belonging, were in good repair; and testified their approbation of the conduct of the officers, of the treatment and condition of the prisoners, and of the rules established for the discipline and labour of the prison and for the improvement of the morals of the prisoners.

And fourthly, at the General Quarter Sessions of the Peace, held at Beccles on Monday the 30th day of June 1834, in the fifth year of the reign aforesaid, the Visitors appointed at the preceding sessions delivered in their Report in writing.

That they had personally visited and inspected the said prison, at least three times in the quarter, and whenever occasion required, and that they had also examined into the state of the buildings and their repairs.

That during that period the officers of the prison had been assiduous in the discharge of their respective duties, and had performed them to the satisfaction of the said Visitors. That the rules and regulations of the prison had been complied with, and the conduct of the prisoners had been orderly.

That they begged leave to represent that from the contiguity of the water-closets in each of two of the day rooms for females, those rooms could not be kept so pure and healthy as they ought. That they therefore recommend that those closets should be removed to the respective yards which belong to those classes, and that this is the more necessary from the greater number of females confined in this prison from the late regulations. That the copper in the washing-house is greatly out of repair, and that it was necessary to replace it with a larger one.

And at each of the said Quarter Sessions the journal of the Reverend Robert Francis, Chaplain of the said house of correction, was laid before the Justices for their inspection, and signed by the chairman of such respective sessions in proof of the same having been so produced, in which were entered the times of his attendance in the performance of his duties. And his report to the Visitors generally testified the good conduct, attention and orderly behaviour of the prisoners.

And at each of the said Quarter Sessions Samuel Drewell, keeper of the said house of correction, delivered to the Court a certificate under his hand, containing a statement of the number and description of the several prisoners confined therein, and attended to give answers, upon oath, to all such questions as should be inquired into by the Justices in sessions respecting the state and condition of the said house of correction. And at the same

times also delivered to the Court a certificate, signed by him, containing his declaration that the rules and regulations established for the discipline of the prison had been complied with in every thing which concerned his department in the same.

Suffolk, } The General Quarter Sessions of the Peace of our Sovereign Lord the King,
to wit. } begun and held at Beccles, in and for the said County, on Monday in the first week after the 11th day of October, to wit, the 13th day of October, in the fifth year of the reign of our Sovereign Lord William the Fourth, and in the year of our Lord 1834, before Henry Bence Bence, Esq. Chairman, John Francis Leathes, Esq., and others Justices of our said Lord the King, assigned to keep the Peace in and for the said County. And also, &c.

This Court doth approve the foregoing Report.

(signed) *H. B. Bence*, Chairman.

Suffolk, } A GENERAL REPORT, founded upon the Report of the Visiting Justices,
to wit. } the Reports of the Chaplain, and on the certificates of the Keeper of the House of Correction at Woodbridge in the County of Suffolk, prepared by the Clerk of the Peace, and submitted to the Justices assembled at their Michaelmas Quarter Sessions of the Peace, held by adjournment at Woodbridge aforesaid, in and for the said County of Suffolk, on Wednesday the 15th day of October, in the fifth year of the reign of our Sovereign Lord William the Fourth, by the Grace of God of the United Kingdom of Great Britain and Ireland King, Defender of the Faith, and in the year of our Lord 1834, and approved by the Justices of such sessions and signed by the Chairman of the same, pursuant to the directions of an Act of Parliament made and passed in the fourth year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating certain Gaols and Houses of Correction in England and Wales."

THE Visitors appointed at the several Quarter Sessions of the Peace, held for the Division of Woodbridge, in the months of October 1833, and January, April and July 1834, reported generally at each sessions succeeding their appointment, in their visiting book, which was laid before the Court, the times and the observations which occurred to them in their visits to the said house of correction, and by which it appeared that the state and condition of the prison was in good order and no repair had been necessary. That they had inquired into the conduct of the several officers and found that the duties of each had been regularly and satisfactorily performed. And that the said house of correction had been visited at least three times in every quarter, by some of the Visitors after their appointment, and always when necessary. That the condition of the prisoners and the treatment of the keeper towards them had been good, and that no complaints had been made to them.

And at each of the said several sessions the journal of the Reverend Henry Browne Longe, Chaplain to the said house of correction, was laid before the Justices in sessions for their inspection, and signed by the chairman in proof of the same having been so produced, and in the said journal were entered the times of his attendance in the performance of his duty, together with such observations as he had thought fit to make in the execution thereof. And his report to the Visitors, as respects the prisoners generally, testified his approbation of their conduct and behaviour.

And at each of the said several sessions William Fiske, keeper of the said house of correction, delivered to the Court a certificate under his hand, containing a statement of the number and description of prisoners from time to time confined therein, and attended to give answer, upon oath, to such questions as should be inquired into by the Justices in sessions, respecting the state and condition of the said house of correction. And at the same time he delivered to the Court a certificate signed by himself, containing a declaration that the rules and regulations established for the discipline of the prison had been complied with in every thing which concerned his department in the said house of correction.

Suffolk, } The General Quarter Sessions of the Peace of our Sovereign Lord the King,
to wit. } holden by adjournment at Woodbridge, in and for the said County, on Wednesday the 15th day of October, in the fifth year of the reign of our Sovereign Lord William the Fourth, and in the year of our Lord 1834, before Robert Newton Shawe, Esq. Chairman, and others, Justices of our said Lord the King, assigned to keep the Peace in and for the said County. And also, &c.

The foregoing Report is approved by the Justices of these Sessions.

25.—Description of Employment and Hard Labour?—TREAD Mill labour generally, because most Prisoners are Labourers in Husbandry; but Smiths, Bricklayers, Painters, Carpenters, Tailors and Shoemakers, are employed in their respective Trades about the Prison. The Women are employed in Sewing and Washing.

26.—Hours of Labour and of Exercise?—TEN Hours, or as long as the Day-light in the different Seasons of the Year will admit.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—EARNINGS at the Tread Mill, 178 l. 5 s. 1 d., four-fifths to the County and one-fifth to the Governor. The amount of Earnings by Prisoners employed in Repairs and Work for the Prison has not been ascertained. Such allowance is made to Prisoners when discharged as the Visiting Justices shall direct.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—IT has been observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain performs Morning and Evening Service every Sunday, Christmas-day and Good Friday, and preaches two Sermons; he also reads Prayers every Morning in the Chapel, and explains portions of Scripture. He frequently visits every part of the Prison and every Prisoner separately, and directs all such Books as he shall think proper to be distributed. A Schoolmaster is employed, who acts under his direction. The Chaplain keeps a regular Journal.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—IT is required by the rules of the Prison to attend regularly twice a Week, and the Sick as often as is necessary. There are cases appearing on the Surgeon's Journal as having occurred during the year; but many were trifling ailments, not requiring Medicine. The Prison has been healthy. Apartments are provided.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—BECAUSE eight are Debtors; thirty-four for Trial; eighteen not ordered for Labour:—total, sixty.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—ONE was put in Irons for attempting to escape. The others were for Pilfering, refusing to Work, or irreverent Behaviour at Chapel.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—WITH reference to Column 13, I beg to state that a large majority of the re-committals are for Offences against the Game Laws and Misdemeanors.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—NONE appointed, except as at 25.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—NOT put in force, except by order of Sessions.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—MANY of the above Forms are not applicable to this Prison. No alteration could be advantageously introduced under the present system. It would be very expensive to enlarge the Prison sufficiently to erect a Mill, which is the only alteration required; but the necessity for that is not great, as the County Gaol at Ipswich is but seven miles distant, to which place all Prisoners committed to Hard Labour in this Division are removed.

N° 46.—COUNTY OF SURREY.

A GENERAL REPORT, founded on the Quarterly Reports of the Visiting Justices, the Annual Reports of the Chaplains, and on the Quarterly Certificates of the Governors of the Common Gaol and several Houses of Correction in the County of Surrey, and submitted to and approved by the Justices of the Peace assembled at a General Quarter Sessions of the Peace holden at Kingston-upon-Thames, in the said County, by adjournment on Saturday the 15th day of November, in the year 1834, pursuant to an Act of Parliament passed in the fourth year of his late Majesty's reign, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."

County Gaol.

Visitors.

IT appears from the Quarterly Reports of the Visitors of this prison, That they have at their several visitations found the prison in a state of cleanliness and good order, the officers diligent and faithful in the discharge of their respective duties, with the exception of two of the turnkeys, who having been detected in clandestinely conveying articles to the prisoners, were discharged. That although the gaol has been crowded, the health of the prisoners has been generally good; but in May last, diarrhoea prevailed in the prison to a considerable extent, and at the beginning of September last, Asiatic cholera, which had for some time prevailed in the neighbourhood, appeared in the gaol, four prisoners being attacked with it, two of whom died. The disease however soon abated, and by the 15th of the same month had entirely disappeared.

Chaplain.

The Chaplain reports, That he has nothing new to offer in his annual Report, but that he has never seen at any former period the prison so crowded as it was then and had been for the last six or eight months. That the frequent gaol deliveries afford little or no relief. It seems to him as if the prisoners were discharged to-day only to be exchanged for others to-morrow; that this observation is applicable to all the wards of the prison, and to all characters and conditions of the prisoners, male and female, young and old. That there is, however, generally speaking, the same decency and decorum in their outward conduct and behaviour as stated in former Reports, an apparent attention and devotion during Divine Service in the chapel, where he is frequently gratified with the loud response which appears to come from all the individuals of the congregation, and shows him two things, viz. that the greatest number of them can read, and that they have been before accustomed to the service of our Liturgy. That there are however many exceptions and great varieties; some are naturally quiet, peaceable and orderly, others are so only by restraint, management and a discipline which is not always available for the purpose, but fails of success. Some of them read and seem to value their Bibles, Testaments and Prayer Books and Tracts, while others wholly neglect them, and if not watched and prevented, would destroy them.

Governor.

It appears from the certificates of the Governor, delivered at each Session during the year, That the rules and regulations for the government of the gaol have been duly enforced and observed.

House of Correction at Brixton.

Visitors.

IT appears from the Reports of the Visitors, That the prisoners have enjoyed good health, and that for the better securing the continuance of that health, they had under the authority given them by the Quarter Sessions caused a better drainage of the prison to be made, and had recommended the purchase of a piece of waste land near the boundary wall of the prison, in order to secure a freer circulation of air in the prison, which recommendation was adopted by the Court, and a treaty is now going on for the purchase; and that they had also caused platforms to be fixed under the pent-houses in the women's classes, somewhat similar to those in the men's classes, to prevent the ill effects to be apprehended from their resting their feet on the damp pavement during the intervals of labour.

That it appears from the same Reports, That the prison has been clean and in good repair, and that the officers (with the exception of one turnkey, who has been dismissed,) have discharged their duties satisfactorily, and have duly enforced the prison discipline. It also appears that the conduct of the prisoners has, excepting some few instances, been orderly; but that the soldiers sent there under sentences of courts martial are the most disorderly of any class of prisoners, and that in consequence of their numbers (at one period amounting to 41) these prisoners can only be employed on the tread-wheels two-thirds of their regular working hours.

That at the last Epiphany session the Visitors reported, That in pursuance of the recommendation of the court of quarter session, they had discontinued the scale of allowance to prisoners on their discharge and adopted a new scale; and it appears from the Report of the Visitors at the following session, that in consequence thereof, the allowance to prisoners during the preceding quarter amounted to only 6*l.* 10*s.*, whereas the allowance during the quarter corresponding with that quarter in several preceding years amounted to 30*l.*

That it also appears from the Report of the Visitors at the same Epiphany session, That the Governors had represented, that from the increased number of prisoners, particularly juvenile offenders, recently sentenced by different courts to solitary confinement, he experienced great difficulty in carrying such sentences into execution, inasmuch as the number of cells in the prison yet for that purpose are indispensably necessary for the maintenance of the prison discipline; they therefore recommended that this subject should be referred to the consideration of a committee of magistrates.

The Visitors reported at the last Easter session, That they had directed blinds to be affixed to 12 additional windows of cells in the men's classes, to prevent them, when confined there, from communication with the other prisoners.

The Visitors have reported to this present session, That the platforms which were provided in front of the wheels in the men's classes, for them to rest on during the intervals of labour, proved a temptation to them to violate that discipline which it is so important to maintain, by affording opportunity to them to lie in groups on such platforms, and to behave themselves not only contrary to good order, but in a manner approaching to indecency and indecorum. To remedy this evil, they caused the platforms to be removed and benches to be constructed in lieu thereof out of the materials, and directed that each prisoner on descending from the wheel should be made to sit down on the end of the bench corresponding with that part of the wheel from which he descended, and to move towards the contrary end as other prisoners descended in rotation to take his place. They further reported, that they had directed that no prisoner should be permitted to leave the benches unless for some reasonable purpose, nor on any account to resort to the day room during the hours of labour. And they have further reported, that these arrangements being effected, it affords them much satisfaction to find their object accomplished, by greater order and silence being observed by the prisoners. And as a further measure under this head, they had caused doors to be fixed in the division walls of classes N^o 1 & 2, and 9 & 10, whereby two turnkeys have complete inspection and control over these four small classes. The same Visitors have further reported, that they had directed whenever personal correction should be awarded to any boy under the authority of the 25th rule of the Prison Regulations, it should be inflicted in the presence of the other boys, in the school-room, for the sake of example. And they have further reported, that they are of opinion that it is highly desirable that amongst the turnkeys there should be one of qualifications and acquirements beyond those usually possessed by persons offering themselves for the situation on the present scale of remuneration, and in whom a degree of confidence might be reposed, which would not be consistent at this time; instead therefore of filling up the vacancy which had occurred in the ordinary manner, they had embraced the opportunity of securing the services of a very desirable character, to be called "Principal Turnkey," qualified to represent the Governor upon any occasion of unavoidable absence, to assist in keeping the accounts, and generally to aid him in the execution of his office; and they recommend the Court to authorise his appointment at wages of 30*s.* a week, with bread and other allowances as in the case of the other turnkeys.

Chaplain.

The Chaplain reports, That his endeavours to afford his unhappy charge suitable instruction, both in the chapel and in the cells, have been met by a corresponding attention on their part, which has proved a great encouragement in the discharge of his arduous duties. That the behaviour of the prisoners during Divine Service has been marked by good order and attention, as many gentlemen on the bench can testify. Though the two full services on a Sunday take up a considerable part of their leisure time on that day, not one complaint from any prisoner has been heard by him, while many have expressed gratitude for the additional service, and accounted it a great privilege. By the blessing of a Gracious Providence, he has been enabled to attend every day throughout the year, and to perform his clerical duties. The daily labours of a clergyman appear to have been beneficial in some instances, and to have introduced into the prison a great love for reading. To encourage so salutary a feeling, he states, that he has been induced to furnish each cell with a Bible or Testament, Book of Common Prayer, Manual for Prisoners, or Instructions for the Poor. These are left in the cells, and are accessible at all times. In addition to these religious helps, a large collection of tracts, homilies and other small publications have been procured from the Society for Promoting Christian Knowledge. These are distributed weekly among the prisoners for the purpose of occupying their leisure hours on the Sunday and also on the week day with benefit to themselves. This plan has succeeded much beyond his expectations. He further states, that it is an act of justice to the prisoners that he should bear testimony to the quiet and orderly state of the prison on the Sunday. From the report of the respective turnkeys, he has occasion to believe that the portions of the time between and after the Services are employed in reading the Holy Scriptures or some religious Tract, and that the confinement in their cells is not considered irksome—at least, no such fact has come to his knowledge, and he finds the prisoners very ready to acquaint him with their supposed grievances. With the inmates of the hospital, the

scholars

scholars in the two schools, and especially with prisoners in solitary confinement, he has had many opportunities of making an earnest and affectionate appeal to the conscience, and he humbly hopes that that appeal has not been made in vain. Duty calls on him to express his gratitude to the Visiting Magistrates for the kind and prompt assistance afforded him on all occasions.

Governor.

The Governor has certified to the several quarter sessions, That the rules for the government of this prison have been duly enforced and observed.

House of Correction at Guildford.

Visitors.

THE Visitors have reported at each quarter sessions throughout the year, their entire satisfaction with the conduct of the Governor, Matron and other officers of the prison, who have duly enforced the regulations and discipline of the prison; that the cell, buildings, airing courts and infirmary have been kept in a state of cleanliness and good order, and the garden well stocked with vegetables for the use of the prisoners. That the health of the prisoners has been very good, few being at any time in the infirmary, and fewer requiring extra diet.

At the Epiphany session the Visitors stated the necessity of the matron being allowed a female assistant, in consequence of the increased number and the description of female prisoners lately committed to that prison, for the purpose of preserving order and discipline on the wheel and in the laundry while the matron is necessarily absent from the one or the other, and a female assistant was appointed accordingly.

At the Easter session the Visitors reported, That two totally dark cells having been made in the same manner as those at Brixton for the punishment of the refractory, it had had the desired effect upon those prisoners whom the Governor had been under the necessity of confining there.

At the Midsummer session the Visitors reported, That the prisoners having petitioned to have their hours of labour more equally divided, they had ordered that the dinner hour should be one o'clock instead of twelve o'clock as heretofore for effecting that purpose.

Chaplain.

The Chaplain in his annual Report states, That in making such Report he has again to testify to the uniformly good conduct of the prisoners under his spiritual superintendence, both at chapel and at all other times when he is brought into contact with them. Outwardly they pay great attention to the instruction he is enabled to give them, whether it be in preaching, expounding the Scriptures or conversing with them in private. That he is frequently much pained, as regards the younger part of his charge, in seeing so many boys quit the prison with no prospect of living but by the same means which caused their committals. He is continually applied to by such to procure for them recommendations to different societies, but in general all he is enabled to do is to lament his inability to assist them. Some perhaps, if they were furnished with letters of recommendation, would make no use of them, but he is convinced the far greater part would gladly avail themselves of such benefits. He further reports, that the Sacrament has been administered the appointed four times during the last year, and applications were made at each time by some of the prisoners to partake of it.

He further reports, That the school continues in a state of efficiency; many learn to read during the term of their imprisonment. It is visiting each cell and seeing every prisoner by himself is perhaps one of the most profitable parts of his duty. In these visits he frequently witnesses the tears of penitence, which would not be produced by a public address.

Governor.

The Governor has certified to the several quarter sessions throughout the year, That the rules and regulations for the government of the prison have been duly enforced and observed.

House of Correction at Kingston-upon-Thames.

Visitors.

IT appears from the Reports of the Visitors, That they have always found the prison in a clean and wholesome state, and the rules and regulations for the government of the prison duly observed; the prisoners quiet and orderly, and in good health, and attentive to their religious duties, and constantly employed in voluntary labour except during one quarter, when it was discontinued until the stock which was the produce of their labour could be disposed of.

Chaplain.

The Chaplain states, That the prisoners have conducted themselves very orderly since his last annual report. That they have been taught reading every day, and those who desired to write were taught writing. That every Friday they rehearse the Catechism. That he reads prayers every morning, and that the prisoners read the Lessons appointed for the day,

and that they are allowed to take the Bibles and Prayer Books out of the chapel to their own apartments, with caution to take care of them ; and when they have been supplied with religious Tracts they have very soon defaced or lost them. That two sermons are preached on Sundays, and one on Christmas-day and Good Friday. That the Governor is indefatigable in his duty, and that to his judicious and discreet management the good order before mentioned may be chiefly ascribed.

Governor.

The Governor has reported at the several quarter sessions throughout the year, That the rules and regulations for the government of the prison have been duly enforced and observed.

N° 47.—COUNTY OF SUSSEX.

Sussex.—The GENERAL REPORT prepared by William Vidler Langridge, Clerk of the Peace for the County of Sussex, founded on the Reports of the Visiting Justices, the Report of the Chaplain, and on the Certificates of the Keeper, &c. pursuant to the Statute 4 Geo. IV. cap. 64, sec. 24, and submitted to and approved by the Justices assembled at the Michaelmas Quarter Sessions, holden at Chichester, in and for the Western Division of the said County, on Monday the 13th day of October 1834; and at Lewes, within and for the Eastern Division of the County aforesaid, on Thursday the 16th day of the same month.

As respects His Majesty's Gaol at Horsham:

THE Clerk of the Peace, in pursuance of the above-mentioned statute, reports, That it appears by the Quarterly Reports of the Visiting Justices, that the said gaol is in good and substantial repair, and the prisoners generally orderly and healthy.

That it appears from the Reports and Certificates of the Keepers, That the rules and regulations for the government of the said gaol have been complied with, except in a few occasional instances regarding females, and for a short period only. And that in the case of eight prisoners committed during the quarter ending at Easter last to hard labour, the Visiting Justices, in order to carry such sentences into effect, directed a hand-mill for bruising corn to be purchased, and many of the inhabitants of the town of Horsham had sent corn to be bruised (which had been satisfactorily done at two shillings per quarter); but the supply of corn had not been sufficient to keep such prisoners constantly employed.

That it appears from the Chaplain's Report, That prayers selected from the Liturgy of the Church of England had, with few exceptions, been read daily in the chapel of the gaol, and portions of the New Testament read to the prisoners when assembled for religious instruction. That the regular morning and evening services of the Church had been performed, and a sermon preached on each Sunday, on Christmas-day, and on Good Friday. That the prisoners had regularly attended Divine Service, and whenever their number had exceeded the means of accommodation in the chapel, such extra service had been performed, both during the week and on Sunday, as to enable the prisoners to attend. That the prisoners are provided with Bibles and Prayer-books, namely, each person who can read is furnished with a Prayer-book, and one or more Bibles are placed in the several day-rooms, according to the number of prisoners in the same class. That tracts and other religious works are distributed to the prisoners from week to week; and every convict under order for transportation is, upon his removal, if able to read, supplied with a copy of the New Testament by the Society for Promoting Christian Knowledge. That spelling-books, copy-books and copies are provided for the instruction of the prisoners in reading and writing.

That of 183 prisoners who had entered the criminal side of the prison since the 29th day of September 1833, 86 could both read and write, 33 could read only, and 64 could do neither; of the two last classes 14 had learnt to read and 13 to write.

That the prisoners had generally conducted themselves in an orderly manner. That, pursuant to an order of Session to that effect, the prisoners had been employed in the manufacture of mops and shoes, under the superintendence of a task-master, working in classes and in silence. That the Visiting Justices ordered that the prisoners, while exercising in the yards, should walk in single file and preserve silence; and that the turnkeys should be strictly forbidden to speak to any prisoner except when necessary to enforce obedience to the rules.

That the Chaplain states, That it is with great satisfaction he observes a marked improvement in the moral condition of the prisoners, arising from the system of alternate employment and exercise in *silence* which had been adopted since his last Report; and that among other circumstances which have met his observation as confirmatory of the fact, he would advert to the almost total disappearance of that unseemly levity which has always been more or less prevalent among the criminals when associated in idleness, and in which he has ever found one of the most formidable obstacles to the successful inculcation of religious knowledge, that his experience during the past year induces him to lay particular stress upon the great advantage of the regulation enforcing silence, and that he is decidedly of opinion that not only as conducive to the general good order of the prison, but also as an aid to the efforts of the teacher of religion in effecting the reformation of criminals, its value is incalculable.

That it appears from the Surgeon's Reports, That during the quarter ending Epiphany last but little sickness had prevailed among the felons since his preceding Report, and none of a severe or epidemic character.

From the Epiphany to the Easter session the felons were equally healthy as in the preceding quarter, and that during the remainder of the year the prisoners had been generally healthy and quite free from epidemic disease.

That Philadelphia Vinall, a convict under sentence of transportation for life, reported to be afflicted with an incurable disease, had received His Majesty's pardon, and was discharged on the 19th of September last.

That during the year two cases of death had occurred, one on the debtors' side of the prison, namely, Emanuel Jones, who was afflicted with pulmonary consumption when he came into the gaol. He was suddenly attacked with pulmonary apoplexy in the night of the 5th of November last and expired in a few minutes.

An inquest was regularly holden, and a verdict returned, "died of pulmonary apoplexy."

And the other on the felons' side, namely, the infant son of Catherine Tighe, a convict under sentence of transportation, on the day after its birth, in consequence of being attacked with convulsions.

That it appears from the Report of the Visiting Justices made to the last Easter session, That the new workshops lately ordered to be made had been completed, and that a taskmaster had been appointed, and the prisoners had been set to work and employed at hard labour, according to their sentences.

That the new drop ordered to be erected at the said gaol (referred to in the last General Report) had been completed.

The Clerk of the Peace further reports, That at the last Epiphany session at Petworth the Court ordered that the Visiting Justices of the said gaol be recommended to adopt the same plan for preventing the prisoners confined therein from communicating with each other as is now practised in the penitentiary at Millbank, which has been carried into effect to a considerable extent.

The Clerk of the Peace further reports, That Visiting Justices have been appointed at every general quarter sessions of the peace to superintend the said gaol, who, with the Keeper, Chaplain and Surgeon, have respectively delivered in Reports, agreeably to the requisitions of the said Act; and that the description and number of prisoners confined in the said gaol previous to the respective general quarter sessions of the peace held within the last twelve months appears by the Keeper's Reports to have been as follows:—

Sussex.—The GENERAL REPORT, prepared by William Vidler Langridge, Clerk of the Peace for the County of Sussex, founded on the Reports of the Visiting Justices, the Reports of the Chaplain, and on the Certificates of the Keeper, &c. pursuant to the Statute 4th Geo. IV. cap. 64, sec. 24, and submitted to and approved by the Justices assembled at the Michaelmas Quarter Sessions, holden at Chichester, within and for the Western Division of the said County, on Monday the 13th day of October 1834.

As respects the House of Correction at Petworth:

THE Clerk of the Peace, in pursuance of the directions of the above-mentioned statute, reports, That it appears, from the Report and Certificate of the Keeper, that the rules laid down for the government of the prison have been complied with, except in the two following instances, (mentioned in his certificate to the last Epiphany Sessions,) namely, that the 10th rule, sec. 7, directs the classification of the prisoners, which had been necessarily deviated from during the night, in consequence of the comparatively small number

of

of sleeping cells, to the number of persons committed to the prison, the prison being originally built for thirty-two prisoners, with a cell to each. Since that period, the law requiring solitary cells for the reception of refractory prisoners, and others sentenced to solitary confinement, two of the sleeping cells have been turned into dark cells for that purpose, leaving only thirty for the accommodation of all the prisoners. The average number of prisoners in confinement daily during the last two years being fifty-two, and the greatest number during the then last quarter being one hundred and seven, and such had been the crowded state of the prison, that five females had been confined day and night in one room, measuring only sixteen feet by twelve feet, three sleeping upon bedsteads, and two upon the floor of the prison. That the Keeper had also been under the necessity of allowing a person convicted of an attempt to commit an unnatural crime (two of whom were then in the prison) to sleep in a cell with other prisoners.

That the 10th rule, sec. 24, directs the employment of prisoners upon the tread-wheel, but in consequence of the old tread-wheel not being in a fit state to be worked, the prisoners have not been employed thereon from the 12th day of November to the 7th day of December last, during which period the wheel had been put in perfect repair.

That the Keeper in his certificate to the last Easter Sessions particularly pointed out the inadequacy of the prison to carry into effect the rules, and the enforcement of prison discipline, in which he observed, that confining prisoners in the present day-rooms destroyed the efficacy of the otherwise salutary discipline of the prison.

That the Visiting Justices, the Keeper, Chaplain and Surgeon, have regularly made their Reports to each Quarter Session, which have been filed, with the proceedings thereof, and that it appears from the Report of the said Visiting Justices, made to the Epiphany Session, that the said prison was in perfect order considering its crowded state.

That in their Report to the Easter Session the Visiting Justices stated, that the prison was clean, and in a good state of repair, but, in consequence of the great increase of committals thereto, the Keeper could not comply with the rules of classification and hard labour.

That in their Report to the Midsummer Session the Visiting Justices stated, that the prison was in good order in every respect, considering the progress of the alterations and additions thereto.

That the Chaplain in his Report to the Epiphany Session stated, that during that quarter the prisoners had been, considering their numbers, more than usually well-behaved during the time of Divine Service. A school had been established, but from the short time it had been conducted its general effect could not be ascertained; in other respects the prison was as usual, clean and well conducted.

That in his Report to the Easter Session the Chaplain stated, that during that quarter the prison had been conducted with propriety and cleanliness. The generality of the prisoners had been well-behaved during Divine Service, but there had been one or two exceptions. The school varied in number, sometimes a great many attending, and at times but few. Some had learnt to read, and some had improved themselves in their reading. Experience painfully showed the deteriorating effect which the present facility of intercourse among the prisoners had upon their manners and habits.

That in his Report to the Midsummer Session the Chaplain stated, that the prisoners had generally behaved well during the attendance at chapel. The school was thinly attended.

That in his Report to the present Michaelmas Session the Chaplain stated, that the prisoners had not been in the early part of this quarter so well conducted as usual during the time of Divine Service; but that having taken one of the turnkeys into the gallery of the chapel, his superintendence had preserved proper order. The school had been of late very fully attended, and many prisoners had learnt to read.

The Clerk of the Peace further reports, That the Surgeon in his Report to the Epiphany Session stated, that during the preceding quarter there had been 184 prisoners in the House of Correction, and only one serious case of sickness, namely, James Ayling, who was diseased when committed. That the healthy state of the prison was the more remarkable, when it was considered that the prison was then in a more crowded state than it had ever been since it had been built; that the weather had been very unhealthy, and that there had been a great deal of fever in Petworth, and the neighbouring parishes. There were then 23 prisoners in the room appropriated for the confinement of prisoners convicted of misdemeanors, which room was not calculated to contain more than twelve. The prison had been kept very clean.

That in his Report to the Easter Session the Surgeon stated, that since his last Report there had been 219 prisoners in the said House of Correction, and only one case of sickness which could strictly be called serious. There had been many slight cases of sickness, and there had been and were many prisoners (especially among those sentenced to long periods of confinement) whose health required to be narrowly watched over. The prison had been kept very clean.

That in his Report to the Midsummer Session, the Surgeon stated, that since the date of his last Report there had been 154 prisoners in the said House of Correction, and more sickness than usual. There had been ten cases of influenza, five of which were either attended with, or succeeded by, inflammation of the chest. These five, with a case of asthma and of biliary obstruction, were the only severe cases that had occurred. That at that time the prison was very healthy, and as far as could be judged there was not a single prisoner who was not likely to be discharged in good health.

That in his Report to the present Michaelmas Session the Surgeon stated, that since the date of his last Report there had been 143 prisoners in the said House of Correction, and only one serious case of sickness, although there had been several slight cases.

The Clerk of the Peace further reports, That the Visiting Justices in their Report to the last Epiphany Session stated, that in consequence of the great increase of crime in the Western Division of the county, the said House of Correction was then totally incompetent to contain the number of prisoners committed thereto, at the same time conforming to the Act 4 Geo. IV. c. 64. s. 49, they therefore recommended that the clause referring to the enlargement or rebuilding Houses of Correction should be taken into consideration at that session.

That at the same session the Court appointed a committee to inquire into the best mode of altering and enlarging the said House of Correction, with reference to the Act 4 Geo. IV. c. 64. s. 49, and ordered the said committee to procure plans and estimates for carrying the same into effect.

That the said Court also ordered, that the said committee should report the same, together with any information they could obtain on the subject to the next General Quarter Session of the Peace, to be holden at Petworth aforesaid.

The Clerk of the Peace further reports, That at the last Easter Session the said committee made their Report, wherein they stated, that in pursuance of notice they held their first meeting at the House of Correction, on the 14th day of January, on which occasion Mr. Cowper (an eminent surveyor in the eastern part of this county, and who at that time was employed in the very extensive alterations and additions going on at the House of Correction at Lewes), was desired to attend to meet Mr. Upton, the surveyor of the Petworth House of Correction.

The committee having inspected the plans produced by Mr. Cowper, and having personally surveyed the House of Correction, together with the land adjoining, directed Mr. Upton, the surveyor, to prepare a plan and estimate for enlarging the said House of Correction, by extending the present boundary walls on the north and south of the Keeper's house, without encroaching on the field in the front of the prison, the said enlargement to include the additional number of 67 cells.

The committee held their second meeting on the 18th day of February, at which Mr. Upton, the surveyor, produced his plan and estimate, as directed at the last meeting. Mr. Blagden, the surgeon, also attended, and read his report thereon, and the committee were of opinion that the proposed alterations were not likely to injure the general health of the prisoners.

The committee directed a plan and estimate to be prepared for warming the said House of Correction.

The committee upon inspection found only 30 sleeping cells in the prison, and whereas 100 male prisoners had been confined in the said House of Correction at one time, the committee were of opinion, that to carry it into effect the Act of 4 Geo. IV. c. 64. s. 49, which directs (if possible) "a separate sleeping cell to be provided for every prisoner," 60 new cells should be erected, and seven sleeping cells should be obtained from the present day-rooms, making 97 cells for male prisoners, leaving the two manufactory rooms for the manufacture of prison and other articles.

In compliance with the following words of the said Act, namely, "It shall be considered as a primary and invariable rule that the male prisoners shall in all cases be separated from the females," the committee were of opinion, that as 14 females and three infants had been confined in the prison at one time, and there being no proper apartments in the prison for females, that a small building should be erected in the garden on the south side of the Keeper's house, with a wash-house and laundry for the employment of females sentenced to hard labour, which will also furnish a drying ground and airing yard under the inspection of the matron.

And for the general health of the male prisoners, that the garden on the north side of the Keeper's house should be made into an airing yard (in the place of those occupied by the proposed new building) under inspection from the Keeper's house.

In conformity with the following words of the before-mentioned Act, namely, "due provision shall be made in every prison for the enforcement of hard labour, and for the employment of other prisoners not sentenced thereto," the committee were of opinion that the present crank house should be enlarged, and that 21 new cranks should be added to the graduating pump, with two water regulators for the employment of 21 additional prisoners.

The committee convinced of the injurious tendency of the day rooms in the morals of the young and less hardened offenders, had in the whole of the contemplated alterations and additions kept in view the plan of separate confinement, that no communication should take place between the prisoners, and that strict silence should be kept throughout the prison by confining the prisoners in their cells when not employed or in the airing yards, where a turnkey should attend to keep silence and subordination. To this end the committee had annexed to their Report plans and estimates which comprehended the whole of the proposed alterations and additions.

The Clerk of the Peace further reports, That the above Report of the said committee was accompanied by the following observations of the Surgeon which he submitted to their consideration.

On

On solitary Confinement.

For 30 years after this prison was built all prisoners sent to it were kept in solitary confinement. There was no labour, and the only exercise the prisoners had, was what they chose to take when permitted to go out in the airing yards, which they did for about two hours a day. Among the prisoners sentenced to long periods of confinement, the gaol disease, or scurvy, was prevalent, and the cases were very severe, more so he observed in winter than in summer. Since however day rooms had been established, from three of which the prisoners had free ingress and egress to their respective yards. The tread wheel had been erected on which the prisoners had been constantly employed, crank labour introduced, fires allowed in the day rooms during the winter, and the surgeon had not been so restricted in making extra allowances of food, or rather that his power had been more clearly defined, cases of scurvy had become very rare and very mild, and the prison had been very healthy. That if solitary confinement should be again adopted he thought the health of all the prisoners would require to be watched over more vigilantly than even it was at present, and a greater number of prisoners would require an extra allowance of food. He begged to recommend also, on the score of health, that the duration of daily labour should not be shortened, in winter he thought it might be lengthened; that prisoners sentenced to hard labour, who could not be put either on the tread wheel or at the pump from bodily infirmity; that prisoners whom the law did not permit to be employed in hard labour; that prisoners before trial should be compelled to walk in the yards for two hours at least in each day, that this walking exercise ought to be carried to an extent bordering on fatigue. How these prisoners were to be exercised in wet weather he was at a loss to say.

On warming the Cells.

It seemed to him absolutely necessary that the cells should be warmed in winter, and he did not see how it could be better done than by pipes containing hot water. The objections to this plan of warming the cells were, that as the windows must be glazed the prisoners must of necessity breathe not only heated air which would render them more liable to diseases of the chest when exposed to the cold air during their respective employments, but that they must breathe the same air over and over again. In the present prison there was no difficulty in warming the prisoners, as the cells being only used as bed rooms did not require to be warmed, and the day rooms were heated by common fire places. The fires not only warmed the prisoners, but ensured a constant supply of fresh air for them to breathe; one window in each room being always open.

On converting the Day Rooms into Cells.

The lower part of the prison was very damp, and without alteration he should think could not be converted into cells that could be inhabited by the prisoners without injury to their health. This dampness he believed to be owing partly to its being the lower part of the prison, and consequently where there was a less free circulation of air, and partly to the great extent of cold surface of the walls, and particularly of the stone floors, on which surface moisture must unavoidably be deposited whenever the temperature of the air changed from cold to warm. The quantity of moisture deposited on the floors was greater than he had ever seen in any other situation.

On the Infirmarys.

If the two rooms then occupied by female prisoners, which rooms were originally intended for infirmaries, should be again used as such as well as the two then in use, and three patients should be allowed to be in each room, he thought there might be sufficient accommodation for the probable number of sick. The chimneys of all the infirmaries smoked, an evil which on many accounts ought to be remedied. A room was very much wanted for patients who had the itch, a disease which many vagrants laboured under when committed to prison. A dark cell was then used as an itchy ward, where on account of the other prisoners, the patients with itch were obliged to remain till all doubt about infection was removed, to the injury of their health in many cases.

On the Airing Yards.

If the prison was enlarged by extending it north and south, and the crank-house also enlarged, all the present yards must be lessened, and other yards would be required.

The Clerk of the Peace further reports, That having given notice three times in some public newspapers, circulating within the said county, pursuant to the said statute, (s. 45) that the said Report made to the said Epiphany Session under the provisions of the said Act, and signed by three of the Visiting Justices of the said House of Correction, whereby it appeared that the said House of Correction was inadequate to give effect to the rules and regulations prescribed by the said Act, had been laid before the said Court, and that it was the intention of the Justices of the Peace to take the same into consideration at the Easter Session, it was unanimously resolved by the said last mentioned Court, that the said Report was well founded, and that it was desirable to effect the object thereof by additions and alterations to the present House of Correction.

That it was ordered by the said Court, that an addition of sixty-seven cells should be built at the said House of Correction.

That it was further ordered by the said Court, that a building should be erected in the garden, on the south side of the keeper's house, with a wash-house and laundry for the employment of females sentenced to hard labour, such building to contain twelve cells.

That it was further ordered by the said Court, that the boundary wall of the said House of Correction should be extended to the dwarf garden walls on the north and south of the keeper's house, without encroaching on the field in the front of the said House of Correction.

That it was further ordered by the said Court, that the foregoing alterations, additions and improvements in and for the said House of Correction should be forthwith carried into effect; and the Court having taken into consideration the Report of the Committee appointed by the last Epiphany Session, and the several plans and estimates proposed by Mr. Thomas Poling Upton, of Petworth aforesaid, surveyor, and delivered to that (the Easter Court) for effecting the same, and having examined the same, did approve of the plans marked and numbered 1 and 2, and signed by Samuel Twyford, esquire, the chairman of the said Court, as to principle, but referred the detail and the manner of accomplishing the same to the judgment and discretion of a committee, consisting of the following Justices of the Peace; namely, the Right honourable the Earl of Egremont and Robert Aldridge, George Farhill, Frederick William Frankland, George John Gibson, Richard Haster the younger, John King, John James King, John Napper, Richard Bingham Newland, Richard Prime, George Bartelott Smyth, George Wyndham and William Henry Yaldwyn, esquires.

And did also approve of the estimate of the expense of carrying the said plans into execution, amounting to the sum of 8,929*l.*, also signed by the said chairman.

And did also order and direct, that the said additions, alterations and improvements should be made, executed and carried into effect, under the inspection of the said Thomas Poling Upton, the said surveyor, and the direction and superintendence of the said committee, any three of whom should be a quorum.

And did also further order and direct, that the Clerk of the Peace should from time to time, under the directions of the said committee, give public notice by advertisement, for tenders for the performance of the said works, or any of them, by contract, or for providing or supplying all or any articles or materials, or performing all or any part of the labour or work required to be done upon the same, according to the specifications thereof to be made by the said Thomas Poling Upton; and that the said committee should from time to time receive and revise such tenders, and adjust the terms of such contracts, and report the same to some General Quarter Session, or adjournment thereof, so that the same might be finally arranged and settled, under the authority of the said Court, agreeably to the provisions of the said Act of Parliament.

And it appearing to the said Court, by an estimate laid before the same by the said Thomas Poling Upton, that the expense of enlarging the said House of Correction in manner aforesaid, would exceed one half of the amount of the ordinary annual assessment for the rate of the said division, (such ordinary assessment being taken on an average of such rate for the seven years then preceding.)

The said Court did further order and direct, that a sum not exceeding 9,000*l.* should be borrowed and taken up at interest, at such times and in such manner as the said committee should from time to time require, and to be charged by way of mortgage, upon the rates and assessments to be levied within the Western Division of the said county, agreeably to the regulations contained in the said Act of Parliament; and that all monies to be advanced or lent upon such mortgages or securities, should be paid into the hands of the treasurer of the Western Division of the said county, and that the same and likewise such sum or sums of money as should be raised by way of rate or assessment, or otherwise, for the purpose of carrying on or completing the said works, or of paying the principal or interest of the money to be borrowed for that purpose, should be placed by him to a separate account, to be entitled, "The House of Correction Building Account;" and that the said treasurer should from time to time issue and pay such sum and sums of money for the carrying on the said works, or other the purposes aforesaid, as he should be directed by any order, signed by three or more of the committee hereinbefore appointed, and charge the same in the above account.

And the Clerk of the Peace further Reports, That the said additions, alterations and improvements are now in progress; the Court having directed him to enter into contracts with various parties for the performing the said works, according to the afore-mentioned orders, and pursuant to the said statute. That up to the present period, the sum of 3,500*l.* has been borrowed and taken up at interest, in securities of 500*l.* each.

And the Clerk of the Peace further Reports, That at an adjournment of the said Easter Session, held on the 19th day of May last, the Court ordered that he should, and he was thereby appointed to keep an exact and regular account of all receipts and payments appertaining to the said alterations, additions and improvements under the authority of the Act 4 Geo. IV. c. 64, in a book or books separate and apart from other accounts, and the same to adjust and settle, in such manner that it might easily be seen what interest was growing due, and what principal money had been discharged, and what remained due.

That

That at a further adjournment of the said session, held on the 14th day of June last, the Court ordered that the whole of the buildings should be warmed by hot water, and that the Clerk of the Peace should enter into a contract with Mr. William Summers, of New Bond-street, London, for performing the necessary work, according to the plan and estimate then produced and approved.

That the Court express the greatest satisfaction at the manner in which the said works had hitherto been effected.

That the books of receipts and payments, on account of the said alterations, additions and improvements, have been delivered into Court at the present Michaelmas Session, and the Justices then present have carefully inspected the same, which were signed by the chairman pursuant to the statute.

With reference to the last general Report, the Clerk of the Peace reports, that the Keeper of the said Petworth House of Correction, was at the Midsummer Session 1833, directed to ascertain the proportions of fatigue between the graduated pump for hard labour and the tread-wheel, in order that the degree of labour might be finally settled at the Epiphany Session: That the Keeper reported to the Court, that after the most minute attention to the crank labour imposed by the graduating pump, he was of opinion that 24 revolutions of the cranks per minute was equal labour to the work performed by the tread-wheel, but as there was no danger of rupturing the men or otherwise injuring their constitutions by crank labour, which might be the case by increasing the tread-wheel work, he recommended, in order to constitute hard labour, that one-fourth more labour should be imposed upon the prisoners, by increasing the revolutions of the cranks to 32 per minute during the winter season; and for the equality of labour during the different seasons of the year, he further recommended the adoption of a scale of crank labour after-mentioned, which scale the Visiting Justices, in their report to the said Epiphany Session, recommended to be adopted.

That the Court, at the said session, ordered that the following scale of crank labour should be observed as the general rule for the management of the graduating pump at the said House of Correction, and for the government of the prisoners employed thereat, and that if at any time there should not be nine prisoners employed to work the cranks, the superintending turnkey should diminish the labour by the water regulator in proportion to the number of men deficient; and that if there should be more than nine prisoners employed thereat, the said turnkey should impose additional labour in proportion to the number of prisoners exceeding nine, without altering the velocity of the cranks.

W. V. Langridge, Clerk of the Peace.

Chairman.

Sussex.—The GENERAL REPORT, prepared by William Vidler Langridge, Clerk of the Peace for the County of Sussex, founded on the Reports of the Visiting Justices, the Report of the Chaplain, and on the Certificates of the Keeper, &c. pursuant to the Statute 4 Geo. IV. c. 64, s. 24, and submitted to and approved by the Justices assembled at the Michaelmas Quarter Session, holden at Lewes, within and for the Eastern Division of the said County, on Thursday the 16th day of October 1834.

As respects the House of Correction at Lewes:

THE Clerk of the Peace, in pursuance of the directions of the above-mentioned statute, reports, That Visiting Justices have been appointed at every General Quarter Session of the Peace held within the last twelve months; and that it appears by the Keeper's certificates, the rules prescribed for the regulation and government thereof (of which copies have been transmitted to His Majesty's Secretary of State) have been strictly attended to and complied with, and that no deviation therefrom has taken place, except in the classification, it having been necessary during the Assizes, and since that time to place some of the felons for trial at the sessions with those for want of sureties, &c., the wards being crowded with convicted misdemeanants. They were at the Epiphany Session classified by placing those for want of sureties, &c. in the infirmary.

That the Visiting Justices and Chaplain reported the conduct of the officers had been good; that they had scrupulously discharged their several duties, and that every attention had been paid to the comfort and cleanliness of the prisoners.

The Clerk of the Peace also reports, that the Chaplain in his reports to each session, stated the conduct of the prisoners had been throughout the year peaceable, quiet and orderly, so as to afford him no just cause of complaint, except in a few instances noticed in his journal, when he seriously remonstrated with and admonished the offenders: That when assembled for the purpose of admonition and religious instruction, they had conducted themselves well and been attentive: That the regulations laid down by the Magistrates as to Sunday duties, with a daily attendance, had been strictly observed by him: That prayers selected from the Liturgy of the Church of England had been regularly read every morning and evening in the

the chapel of the prison to the whole of the prisoners, with the exception of those confined by illness, shut apart for misconduct, or undergoing solitary confinement in pursuance of the sentence passed at the time of their trial; and that every day he either read to some of the prisoners a devotional lecture, catechised or admonished, and heard them read portions of scripture: That agreeably to the requisitions of the Magistrates, four hours on an average had every day been devoted by him to the religious and moral instruction of the prisoners, exclusive of Sundays, when he was employed five hours: That the church service had been performed twice, with sermons on Sundays, Good Fridays and Christmas-days; and the prison had been well supplied with books adapted for the use of the prisoners, such as bibles, testaments, prayer-books and religious tracts, &c.: That all prisoners had been examined by him on their committal as to their proficiency in reading, writing, knowledge of the Lord's prayer and the Creed, and that the following analysis compiled from the reports of the Chaplain exhibits the result of such examination, and the progress of the prisoners under his instruction during the past year:—

	Males.	Females.

Number who have learned both - - - -	10	3
Number who could repeat the Lord's Prayer only -	119	11

Number who could do neither - - - -	309	68
Total Number committed - - - -	764	131

That the most beneficial result might be expected from the plan adopted of placing the prisoners as much as possible in separate cells on their return from work, instead of allowing them to mix as heretofore in the day-room; the unrestricted intercourse of the hardened with the less practised offenders having been in his opinion a subject of the most painful regret.

The Clerk of the Peace further reports, 'That it appears from the Surgeon's Report, the health of the prisoners during the quarter ending Epiphany had been remarkably good; no disease of an infectious or contagious nature had occurred, nor any thing calling for particular remark. One hundred and twenty-four prisoners had applied for relief during that period, but no case was of any importance except one, which had been placed in the infirmary but was then discharged.

That in his Report to the Easter Session the Surgeon stated the health of the prisoners had been generally good, particularly during the first part of the quarter, but since the prevalence of the cold north-east winds, coughs and attacks of the chest had been prevalent. That no infectious disorder had occurred. One hundred and forty-two prisoners had applied for relief during that period; the majority of the cases had been of a slight nature and calling for no particular remark, and that it had been found necessary to place six patients in the infirmary.

That in his Report to the Midsummer Session the Surgeon stated the health of the prisoners during that quarter had been unusually good. One hundred and eight prisoners had applied for medical relief during that period, none of whom had illness of a serious importance, excepting the following; John Fillery and William Piddlesden, who died; two prisoners mentioned in the preceding Report as remaining in the infirmary had been discharged therefrom, one cured and the other sufficiently relieved to work in the factory.

That the prisoners were then in a remarkably healthy state, no case calling for any remark, and none remaining in the infirmary.

That in his Report to the present Michaelmas Session, the Surgeon stated the health of the prisoners had been generally good during the year. That only one prisoner was then in the infirmary, namely, George Gates Cole, labouring under affection of the chest, the natural delicacy of whose constitution had given rise to the apprehension that he might ultimately become the victim of consumption. That the prisoners were at the time of making his Report, generally in a remarkably healthy state. That the prison afforded sufficient accommodation for the sick and the separation of those who might be attacked with any infectious or contagious disease.

That the following deaths have occurred in the prison during the year, namely, John Fillery, (convicted of smuggling) labouring under disease of the urinary organs, of which he died on the 23d day of April last; William Piddlesden, (convicted of felony) labouring

under pulmonic affection, who died on the 14th day of June last of that complaint, combined with enlargement of the heart. Inquests were regularly holden on the above prisoners, and verdicts returned "died by the visitation of God"; the bodies were taken away by the friends of the prisoners, for interment.

That two births had taken place during the year, namely, Sophia Jupp, was delivered prematurely of a male child, which survived its birth but a few hours, on which an inquest was also holden; and Ann Boots was also delivered of a male child.

The Clerk of the Peace further Reports, That a plan and estimate for apparatus for warming the new western building with hot water by two boilers had been approved, and that the committee appointed to carry into execution the alterations, additions and improvements in and to the said House of Correction referred to in the last General Report, directed the same to be done at the sum of 404*l.* 10*s.*, by Mr. William Summers, of 105 New Bond Street, London, the said William Summers and the Surveyor recommending two boilers as being more advantageous and economical than one boiler.

That the new south and west buildings have been completed, and the same are now used and occupied by prisoners.

That the new chapel has been completed, and is now used for Divine Service.

A plan of the alterations and additions in and to the said House of Correction, made agreeably to the said Act of Parliament, accompanies this Report, which alterations and additions (with the exception of some few internal fittings in the old part of the prison) are completed, and the works for warming the old buildings and new western buildings are also in progress.

That the books of receipts and payments on account of the said alterations, additions and improvements have been delivered into Court at each Quarter Session, and the Justices then present have carefully inspected the same, which were signed pursuant to the statute.

That all the old wooden privies in the cells of the said House of Correction have been replaced by new ones, substituting cast iron for wood, as referred to in the last General Report.

The Clerk of the Peace further Reports, That the following orders have been made by the respective Courts of Quarter Sessions, namely,—

At the Epiphany Session, three days were appointed for the Visiting Justices of the said House of Correction, to visit and inspect the same between each Quarter Session during the current year, and the Court directed the Clerk of the Peace to cause the same to be printed on a card, and a copy thereof transmitted to each Visiting Justice. These days are fixed for the general visits of the Justices, but some of them attend weekly at the said House of Correction.

That at the Easter Session, the Court (upon the recommendation of the Visiting Justices) ordered the ground belonging to the eastern division of the said county, on the west and partly on the north and south sides of the said House of Correction, to be forthwith enclosed under the inspection of Mr. John Cowper, the surveyor of the public works of the county, within the eastern division aforesaid, according to his estimate of the expense thereof, delivered to and approved by that Court, amounting to the sum of 135*l.* 10*s.*

That at the same Session the Court, on the recommendation of the Visiting Justices, Ordered the appointments of William Shephard, as taskmaster at the said House of Correction, (in the room of Henry Chapman, deceased,) and John Seaman, as turnkey at the said House of Correction, in the room of the said William Shephard, made by the Visiting Justices of the said prison, to be confirmed.

That at the Midsummer Session the Court directed, that the Visiting Justices of the said House of Correction should be requested to take proper steps for placing the prisoners in the new western building previous to the assizes, and also for placing the female prisoners in the south ward as soon as completed.

That at the same session the Court also appointed William Day, esquire, one of the committee for carrying into execution the alterations, additions and improvements in and to the said House of Correction, in the stead of Captain Henry Shiffner, who had left England on His Majesty's Service.

The Clerk of the Peace further Reports, that from the miscellaneous occurrences and remarks inserted in the Quarterly Reports and Journal of the Visiting Justices, and the Reports of the Keeper, it appears the prison had been in good order and repair, that the prisoners had been in general orderly, and had conducted themselves well, except in a few instances of breaches of the rules of the prison, which the Keeper had punished by solitary confinement and noticed in his journal; that two instances had occurred of prisoners refusing to work on the tread-wheel, one of whom the Visiting Justices punished by solitary confinement, and intimated to the other, that if he refused to work again under any

any frivolous pretence, they should consider it their duty to order corporal punishment to be inflicted.

That it appears from the Report of the Visiting Justices to the Epiphany Session, that prisoners sentenced to more than three months' imprisonment and hard labour, received an extra allowance of one pound of potatoes per diem, in addition to the pint of soup for dinner, pursuant to the order of session.

That it appears from the Report of the Visiting Justices to the Session, that they had directed the surveyor to purchase six more braziers for the new building and cells on the south side, and a pavement to be laid down adjoining thereto, and eight cells to be completed as early as possible.

That the Visiting Justices in their Report to the Easter Session, stated they had particularly inquired into the treatment, behaviour and condition of the prisoners, which appeared to be generally good, much of which was considered to be owing to their being constantly employed. That they had at each of their visits particularly inquired into the behaviour of the prisoners, and had been pleased with the attention of the Keeper in preserving silence amongst them, which was instanced in the punishment of two prisoners by the Keeper ordering them each into solitary confinement for three days, for not preserving silence.

That the Visiting Justices had desired the Surveyor to consider and report to them whether he could suggest any hard labour for prisoners more productive than was then in use within the prison, and that the Surveyor afterwards reported that he had not been able to do so, but would continue his inquiries on the subject.

That it appears from the Report of the Visiting Justices to the Midsummer Session, that at their first visit they had given directions for the drains to be more frequently inspected by the Keeper and his officers, and cleansed by daily letting off the water, which had been attended to, and the drains were then kept in a most cleanly state.

That the new manufactory for the employment of prisoners not sentenced to hard labour in making mats, mops and list shoes proceeded satisfactorily, and that there were then thirty-one prisoners employed therein under the superintendence of the taskmaster, and every prisoner not capable of maintaining himself, and not disabled by illness, was then employed either in the manufactory or at hard labour.

That they highly approved of the new shed erected over the pump in the yard near the tread-wheel, which separated the six prisoners employed thereat, and prevented their seeing or communicating with each other whilst so employed.

That they had given directions to the Surveyor to have the old part of the prison white-washed throughout.

That they had directed the matron to watch the conduct of Ann Evans and Mary Measor, two female prisoners confined for bastardy, and to report the same to them at their next meeting. That the matron having reported they had conducted themselves well, the Visiting Justices reported the same to the committing Magistrate, who thereupon ordered the said prisoners to be discharged from further confinement pursuant to the statute.

That Henry Harrison, the only prisoner in the said House of Correction, for want of sureties in a case of bastardy, having applied to them for his discharge, pursuant to the new Poor Law Act, they directed the Keeper to discharge him.

The Clerk of the Peace further reports, That David Oddy, a private late of the first battalion of Grenadier Guards, committed to hard-labour by sentence of a Court Martial at Brighton on the 15th day of November last for a period of nine calendar months, was reported by the Visiting Justices at the Easter Session to be in the infirmary, who stated that his conduct had been orderly and without fault during his imprisonment. That the Surgeon reported that Oddy was labouring under diseased lungs, from which there was no prospect of his recovering, and that the Visiting Justices had directed their clerk to state the circumstances to the Commander-in-Chief for his consideration, which letter had been duly sent and an answer returned, that the Commander-in-Chief would immediately inquire into the circumstances, and that Oddy was subsequently discharged out of custody.

That the Visiting Justices had, at the suggestion of the committing Magistrate at Hastings and the prosecutor, recommended George Owen, a prisoner convicted of obtaining goods by false pretences, to the Secretary of State for a remission of the remainder of his sentence in consequence of his good conduct in prison, and the prisoner had since received a pardon and his discharge.

That it appears from the Report of the Visiting Justices to the present Michaelmas Session they had at their several visits found all the male prisoners sentenced to hard labour employed at the tread-mill, manufactory, or pump, those employed at the pump being separated by partitions, without the means of seeing or communicating with each other; and all other male prisoners incapable of paying for their maintenance, employed in productive labour in the manufactory. That they had the satisfaction to state that, in conse-

quence of the increased number of cells and the improved discipline of the prison, they entertained a sanguine hope that none of the prisoners would in future be prejudiced in their morals during their confinement. That the following is a summary of the prisoners confined during the year, and the expence of the prison :—

Sussex.—The GENERAL REPORT, prepared by William Vidler Langridge, Clerk of the Peace for the County of Sussex, founded on the Reports of the Visiting Justices, the Report of the Chaplain and the Certificates of the Keeper, &c., pursuant to the Statute 4th Geo. IV. c. 64, s. 24, and submitted to and approved by the Justices assembled at the Michaelmas Quarter Sessions, holden at Lewes, within and for the Eastern Division of the said County, on Thursday the 16th day October 1834.

As respects the House of Correction at Battle :

THE Clerk of the Peace, in pursuance of the directions of the above-mentioned statute, reports, That this is a subsidiary prison, to which prisoners are committed for minor offences only and for short periods, not exceeding one month, and to superintend which Visiting Justices have been appointed at every General Quarter Sessions of the Peace.

That from the Reports of the Visiting Justices to each General Quarter Session of the Peace, it appears that the same is in a good state of repair, and no repairs, additions or alterations had been made therein during the year. That they had observed no abuses therein, nor had they received information of any in the management thereof; and that the rules appeared to have been complied with by the Keeper.

That it appears from the Reports of the Keeper, That the said House of Correction is fit for the confinement of prisoners throughout; that the rules laid down for the government of the same had been in all respects complied with, and that no deviation had taken place therefrom.

That the Chaplain in his Report states, That in the course of the year there have been 56 prisoners, being 12 more than in the preceding year; but the house had frequently been without a prisoner in it. Whenever as many as three had been there, he had given them one full service on the Sunday. When there had been fewer than three he had given such instruction or admonition as appeared to be most serviceable. In the course of the week he had been in the habit of looking in, and instructing the prisoners when it seemed desirable. He had also seen that the prisoners were provided with proper books, and sometimes with slates for their exercise in writing and arithmetic: that the Keeper aided him in all things: that the Keeper read prayers to them morning and evening, and he or his wife gave assistance in teaching reading and writing.

The Clerk of the Peace further reports from the Reports of the Keeper to the repective Quarter Sessions held within the last 12 months, that the description and number of prisoners has been as follows :

		Epiphany Sessions.	Easter Sessions.	Midsummer Sessions.	Michaelmas Sessions.

- 23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—THE Weekly Diet of every Prisoner is ten pounds and a half of the best Wheaten Bread, and three pounds and a half of the best Wheaten Flour, made into Gruel, and seasoned with Salt. The Weekly Cost varies according to the half-yearly contracts. The present Weekly Cost per

Schedule (B).—County of Sussex: House of Correction at Petworth—*continued.*

per head, is 1*s.* 11*d.* with such other allowance as the Surgeon thinks necessary for the support of health and the execution of labour. Prisoners for trial occasionally provide themselves with Food, and when they do so, they are not allowed the Prison diet; 1*l.* 13*s.* has been received from the Army for the support of Military Prisoners, and 2*l.* 5*s.* has been received from Parish Officers for the support of two infant Children, who were in the Prison with their Mothers, which sums have been deducted from the Quarterly Expenses of the Prison.

24.—Allowance of Clothing and Bedding, and Cost per Head?—THE Male Prisoners are clothed in a Jacket, Waistcoat and Trowsers, Shirt, Shoes and Stockings. The Females in a Shift, Petticoats and Gown, Shoes, Stockings, Handkerchief and Cap, and all Prisoners are allowed Towels, Combs and Soap. The Bedding for each Prisoner consists of a Wood Bedstead, Straw Bed, two Blankets and a Coverlet. The Infirmary Beds are also allowed two Sheets and a Pillow, all of which are made of cloth wove in the Prison, and worth, when new, about 2*l.* 17*s.* 6*d.*; but the average Cost per Head during the Year is 4*s.* 6*d.*

25.—Description of Employment and Hard Labour?—THE productive employments are Woollen and Linen Manufactories, Shoemaking, Tailoring, Carpentering, Painting, Bricklaying, and other useful employments in and about the Prison; Tread-wheels and Crank Labour. The quantity of Labour imposed upon the Prisoners at the Tread-wheels, is 11,340 feet ascent per day; and at Crank Labour, they revolve the Cranks 13,440 times per day throughout the Year, the Labour being proportioned according to the number employed.

26.—Hours of Labour and of Exercise?—PRISONERS under sentence to Hard Labour are employed ten Hours in Summer, eight Hours and three quarters in Spring and Autumn, and seven Hours in Winter; Prisoners sentenced to simple Imprisonment work for their subsistence (agreeably to the 38th section of this Act), which they can earn in six Hours. The remaining parts of the day is allowed for Divine Service, Moral Instruction, Meals and Exercise.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Tread-wheels and Crank Labour being non-productive, there are no Earnings from our principal Employments: 45*l.* 8*s.* 6½*d.* has been earned by productive manufacture. The proportions are, to the 1st Class, one-fourth, and their Prison allowance of food; to the 2d Class, one-fourth, out of which they pay for their Prison food; and the 3d Class are allowed the Prison food for their Earnings. Total to the Prisoners from Manufactory Earnings, 2*l.* 18*s.* 1¾*d.*; and the remaining sum of 42*l.* 10*s.* 4½*d.* together with the profits of the manufactures, after paying the sum of 38*l.* 11*s.* to the Master Manufacturer and Assistants for wages, is deducted from the Quarterly Bills of the Expenses of the Prison. The amount so deducted during the current year is 141*l.* 17*s.* In addition to the above sum given to the Prisoners, they have received 22*l.* 1*s.* 5*d.* for work done for the Prison, such as Carpentering, Painting, Stonemasonry, Bricklaying, &c. which has been a saving of expense to the County of 28*g.* 8*s.* 10*d.* The amount saved to the County by employing Prisoners in menial offices, such as cooking, washing, making and repairing the Prison Linen, Clothes, Bedding, &c. is not included in the above sums.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification of the Act has not been complied with, in consequence of the great increase of Prisoners, but the Justices of the Peace are remedying the defect by erecting new Buildings. See Observations.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain performs the Morning and Evening Service with one Sermon, every Sunday, Christmas-day and Good Friday, who also reads Prayers every morning in the week to the Prisoners assembled in the Chapel, except occasionally when they are read by his Nominee. The Chaplain also visits the sick Prisoners, those in solitary confinement, and such others as are desirous to see him. With respect to Instruction, see Observations. Bibles and other Books for moral and religious instruction, are supplied the Prisoners.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon or his Assistant examines every Prisoner received into the Prison, except such as pay their fines and are discharged instantly. He also visits every prisoner twice a week, and the Sick as often as their cases may require, and is particularly attentive in every case of sudden illness. No death has occurred during the last Eight Years. Two Rooms are provided for the Sick.

Schedule (B.)—County of Sussex: House of Correction at Petworth—*continued.*

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—
EXEMPTED by the Act of Parliament 5 Geo. IV. c. 85, or relieved by the Surgeon, in consequence of sickness or infirmity.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—
THE punishments by Solitary Confinements, were for irreverent conduct at Chapel, idleness or negligence in work, one Prisoner assaulting another, or wilfully damaging the Prison property; and two Prisoners were manacled in leg irons three days, for scaling the party walls, and ascending the Tread-wheel Houses, for the purpose of making their escape, one of whom did afterwards escape over the boundary wall.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been insane?—NONE.

34. General Observations?—SINCE my last Return, the Justices in Sessions have ordered the erection of sixty new Cells to be made out of our present Day Rooms, making 67 additional Cells for Male Prisoners, and a new Female Building, containing three Rooms, and nine Cells, with a Wash-house, Laundry, and Hot Closet to dry the Prison Linen, &c. all of which are to be properly ventilated, with air bricks and inspective holes. When the proposed improvements are completed, it may be truly said that solitary punishment, combined with instruction and criminal reformation, as far as Prison discipline is concerned, are accomplished in this Prison, without the evils attendant upon Solitary Confinement. No Prisoner will be allowed to write or converse with his fellow Prisoners from the time he enters until he leaves the Prison. Every Prisoner will sleep in a separate Cell, warmed by hot water; each Cell having Water Closet, with a double Stink Trap, a cast iron Washing Basin, constantly supplied with water by means of a pipe running into the basin, and from thence down the Water Closet. They will also be in separate Cells during their meals, and all Prisoners under sentence, who do not maintain themselves agreeable to the 38th section of the Act, will be employed in separate or combined labour, but principally in separate compartments, or in their respective Cells. They will take air and exercise in the Yard in company, attended by a Turnkey, who will march them round the Yard in rank and file, four paces distant from each other, under the inspection of the Keeper, from his parlour window. Prisoners wishing to be taught to read and write, upon supplying themselves with writing materials, are instructed by the Schoolmaster, under the superintendence of the Chaplain, after the hours of labour, three times a week, when in their respective Cells. The Wardmen and Watchmen will perambulate the passages in Cloth Shoes, night and day, from whence they can overlook the Prisoners in their Cells through inspective holes, and enforce strict silence throughout the Prison; thus moral contamination will be avoided, industrious habits promoted, and some reformation accomplished. But what hope can there be of their not speedily returning to Prison, when it is recollected that there is a superabundance of honest and industrious Labourers, who, for want of employment, live half the year upon the Parish Rate. And from this redundancy of the labouring population, employment will be given in preference to those who have not been imprisoned. These discharged Prisoners will then have no resource but plunder or a Workhouse, and having experienced the profits of the former, they will chance detection and a Prison, to confinement in a Workhouse. The want of employment has become the mother of crime in this country, and for a proof of this we need only look at the great number supported by the Poor-Rates, and the crowded state of our Prisons in the Winter Season. The far greater part of our Prisoners are anxious to be out of Prison at the time of Harvest, when employment can be partially obtained, which evidently shows they would rather work out of Prison for a livelihood than in confinement. Another important fact is, that in the Summer our Prisons are not more than half filled, but in the Winter, when no employment can be procured, they are crowded to excess; and this will ever be the case, whatever may be advanced to the contrary, until Emigration is more generally resorted to, or some other means provided for the employment of surplus Labourers, which, with our increasing population, I fear can never be provided with advantage in this Country. Nevertheless, it will be found very impolitic to send the honest Labourer out of the country and keep the criminals at home in our Prisons at the expense of the public, upon the chance of their reformation. The annexed Paper (A.) and (B.) is a Report of the number of Days each Prisoner has been in confinement, their Offences, &c. with an Abstract, with the Annual Expenses of the Prison, &c.

19.—Whether Common Gaol, House of Correction or Bridewell?—HOUSE of Correction.

20.—Under whose Jurisdiction and Superintendence?—UNDER the Jurisdiction of the Justices of the Peace for the said County, acting within the Eastern Division thereof, and under the Superintendence of the Visiting Justices, of whom there are at present 20.

21.—Number of Officers, and how appointed?—ONE Keeper, one Chaplain, one Surgeon, and one Matron, appointed by the Sessions for the said Division, and five Male and one Female Turnkeys, appointed by the Visiting Justices, One of the Male Turnkeys acts as Taskmaster.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—SIX Male and three Female Classes; seventeen Wards, viz. thirteen for Males and four for Females; four Work Rooms, and one Tread-wheel House; nine Day Rooms for Males; seven Airing Yards, viz. five for Males and two for Females. They have been very considerably extended and increased during the year, as the above numbers will show, compared with my last Return; but the Works are not yet complete.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—THE Weekly Dietary of Prisoners is as follows:—Ten and a half pounds of Bread, and seven pints of Soup, the Weekly Cost per Head of which amounts to about 2s. 2½d. In addition to which allowance, those Prisoners who work are allowed the following extra diet; seven pints of Gruel during the first month of such work, and fourteen pints of Gruel after that period; the extra Weekly Cost per Head of which amounts as follows: during the first month to 1¾d., and afterwards to 3½d. Those Prisoners to Hard Labour, whose periods of confinement exceed three months, are allowed seven pounds of Potatoes per week extra, the Cost of which is 1¾d. There are no Prisoners in confinement who receive an allowance from Government, neither are there any who maintain themselves.

24.—Allowance of Clothing and Bedding, and Cost per Head?—MALES sentenced to Hard Labour receive a Jacket, Waistcoat, Trowsers, and when necessary Shirts and Shoes; Cost about 18s. 6d. per Head when new. Females, as above, receive a Gown, Petticoats, Shifts, Shoes, Bonnet, Caps, Apron and Handkerchiefs; Cost about 14s. 10d. per Head when new. Prisoners not sentenced to Hard Labour wear their own clothes.

Bedding

Schedule (B).—County of Sussex: House of Correction at Lewes—*continued*.

Bedding for each consists of two Blankets, one Rug, and a Bed filled with Straw. Cost about 1*l.* 4*s.* when new.

25.—Description of Employment and Hard Labour?—MALES sentenced to Hard Labour are employed as follows; on the Tread-wheels, beating Hemp, carding Wool, and pumping Water; Males not sentenced to Hard Labour, and those committed for trial, are employed in manufacturing Mops and Mats. Females sentenced to Hard Labour are employed as follows; pumping Water, washing, ironing, scouring, and making and mending Prisoners' Clothes; Females not sentenced to Hard Labour are also employed in the same manner.

26.—Hours of Labour and of Exercise?—HOURS of Labour, ten in Summer, eight and three-quarters in Spring and Autumn, and seven in Winter. Exercise in the Yards not less than one Hour daily, but some of the Prisoners have two Hours for Exercise in the Yards, when the weather permits, viz. one Hour in the forenoon and one Hour in the afternoon. Those Prisoners not employed can exercise themselves (in addition to the above) in their Wards, from the time of unlocking their Cells in the morning to that of locking them up at night.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Prisoners who receive pecuniary Allowance or Earnings are those employed in the manufacturing of Mops and Mats, (who are those committed for simple imprisonment, or committed for trial, and consent to work.) The Scale of Allowance is as follows, viz. To Prisoners committed for simple Imprisonment; those employed in spinning Mop-yarn and making Mats, 1½*d.* per day; those employed in preparing the Materials for the above Work, 1*d.* per day. To Prisoners committed for Trial; those employed in picking Wool, 2*d.* per day; those employed in beating Hemp, 2½*d.* per day. The total Amount of Earnings during the past year is 122*l.* 1*s.* 2½*d.*, 38*l.* 12*s.* 9*d.* of which has been applied to those discharged, according to the above Scale, or retained in the hands of the Keeper, to be paid those at present in confinement when they shall be discharged. Three Shillings per week, part of the Earnings, is applied to a Male Turnkey for his services as Taskmaster, amounting to 7*l.* 16*s.*, and the remainder to the fund applicable to the maintenance of the said Prison.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act has been observed, except by occasionally placing some of the Female Vagrants with Females convicted of Felony and Misdemeanors, in consequence of the Prison being very much crowded with Vagrants; but this is not the case now, and is not likely to recur, in consequence of the great alterations and improvements that have been made.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS selected from the Liturgy of the Church of England are read Morning and Evening by the Chaplain; he also reads portions of the Scriptures daily when assembled for instruction; he also performs the appointed Morning and Evening Services of the Church of England, and preaches Sermons twice on Sundays, Christmas-day, and Good Friday. Provision is made for the instruction of Prisoners of both sexes in reading, which is under the superintendence of the Chaplain, who also catechises them. He attends daily on work-days about four hours, and on Sundays about five hours, to instruct and admonish the Prisoners. Bibles, Testaments, and various other religious Books, are distributed to the Prisoners under the directions of the Chaplain, who performs generally the duties required by the 30th section of the said Act. His Journal and Entries in the Attendance Book (sec. 34.) are made and kept with precision. The Chaplain has no Apartments in the Prison, but his residence is in the neighbourhood of the Prison.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends once daily, and oftener if necessary. His Journal and Entries in the Attendance Book (sec. 34.) are also made and kept with precision. The average length of time occupied in each visit is a little more than half an hour. There are four Infirmarys for the Sick, viz. two for Males and two for Females.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THOSE Sick or Infirm, and Children unable to work.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—SOLITARY Confinement inflicted for refractory conduct, and disobedience of the Rules of the Prison.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—THE Prison is well ventilated, and abundantly supplied with good Water. The Prisoners have been very healthy during the year.

48.—WARWICKSHIRE.

Warwickshire, Michaelmas Sessions 1834.

THE GENERAL REPORT of the Gaol and House of Correction of the County of Warwick, founded on the Report of the Visiting Justices, on the Report of the Chaplain, and on the Certificates of the Keepers of the several Prisons.

The Visiting Magistrates.

THE Visiting Magistrates of the Gaol and House of Correction in the county of Warwick, beg to report the same to be in good order, and that the cells directed to be made for refractory debtors have not been constructed, in consequence of the Governor stating to them, that at present he does not consider them necessary.

The Chaplain.

The Chaplain has to report to the Magistrates, that with a single exception, the condition of the prisoners has, during the last year been so precisely similar to what it was the year before, that he has no new remark to make. The exception to which he alludes, relates to the more effective separation of the worst description of male offenders from the others, in the House of Correction, a measure, which as far as the orderly conduct of the men in the prison is concerned, has certainly been attended with the best consequences, but he must confess that he is not very sanguine in his expectations of any great permanent good being effected so long as such numbers are congregated together, as it is still unfortunately necessary there should be.

The Keepers of the Prisons.

The Keepers of the prisons report that the rules and regulations for the government of the prisons have been complied with, as far as the limits of the prisons will allow.

N° 49.—COUNTY OF WESTMORLAND.

Westmorland, to Wit.—AT the General Quarter Sessions of the Peace of our Sovereign Lord the King, holden at Kirby, in Kendal, in and for the said County, on Friday the 17th day of October 1834, before Edward William Hasell, Christopher Wilson, esquires, and others their associates, Justices of our said Lord the King, assigned to keep the Peace, and also to hear and determine divers Felonies, Trespasses and other Misdemeanors in the said County committed, and of the Quorum, &c.

The following Reports were presented, in conformity with the Act of the 4th Geo. 4, c. 64.

Report of the Visiting Magistrates.

THAT the discipline of the Prison at Appleby is much improved by the introduction of the system of Silence and Non-intercourse, which is strictly enforced, both during the hours of Labour and Meals. The Prisoners sentenced or committed to hard labour, are at present employed at Hand-mills, which are used for crushing Malt and grinding Corn.

A Tread-mill has been contracted for, and the Contractor is now engaged in its erection.

The Chaplain reports, That the Prisoners have all attended Divine Service regularly, and conducted themselves with propriety. All the Prisoners (with the exception of one Female), can read, and are all provided with Bibles and Prayer-books.

The Chaplain reads Prayers every day, Morning and Evening alternately, and visits the Prisoners once a week, generally on Thursdays, for the purpose of catechising and instructing them.

On Sunday the Chaplain performs the appointed Morning and Evening Service of the Church of England, and occasionally distributes Tracts, Catechisms, and other Publications.

The Surgeon reports, That since Michaelmas last year, about sixteen cases of Sickness have occurred amongst the prisoners, none of which have been of a severe character. No Epidemic or Contagious Disease has appeared.

N^o 50.—COUNTY OF WILTS.

THE GENERAL REPORT of the Gaol, the House of Correction, and several Bridewells of the County of Wilts, prepared by the Clerk of the Peace of the said County, and submitted to His Majesty's Justices of the Peace of the said County, assembled at the General Quarter Sessions of the Peace, held at Marlborough, on Tuesday the 14th day of October 1834.

BY the several Quarterly Reports of the Visiting Justices of the respective Prisons, as well as those of the Surgeons and Chaplains,

It appears that the several prisons are in every respect clean and in good order.

That no infectious disorder has appeared in either of the prisons during the past year.

And that, with very few exceptions, the health of the prisoners has been good.

It further appears that the several keepers and officers in such prisons have conducted themselves to the satisfaction of the Visiting and other Justices.

And that no circumstance has occurred requiring any particular observation.

N° 51.—WORCESTERSHIRE.

The REPORT of James Best, of the City of Worcester, the Deputy Clerk of the Peace for the County of Worcester, from the Michaelmas Quarter Sessions 1833, to and including the Michaelmas Quarter Sessions 1834, in pursuance of the 24th Section of an Act of Parliament passed in the fourth year of the reign of his late Majesty King George the Fourth, intituled, “An Act for consolidating and amending the Laws relating to the building, repairing and regulating certain Gaols and Houses of Correction in England and Wales.”

BY the Report of the Visiting Magistrates of the Gaol and House of Correction of the County of Worcester, made at the last Epiphany Quarter Sessions, it appears,

That the criminal prisoners had been orderly and healthy during the past quarter.

That the Chaplain had been most unremitting in his attention, and had earnestly employed himself in giving efficacy to the system of separation sanctioned by the Court; and they were of opinion, that the improvement in the manners and conduct of those prisoners had been most decidedly influenced by his impressive admonitions. They regretted to be obliged to report very differently of the Master Debtors, whose conduct had been so refractory, as to compel them to authorize the Governor to place them under restraint during the hours of Divine Service, which they refused to attend; and having posted gross placards on the walls of the prison, abusing those in authority, they thought it necessary to request the attendance of the High Sheriff, who most patiently investigated the case, and did not hesitate to approve and confirm the orders which had been made by the Visiting Magistrates. That since the order of the then last sessions, which suspended the payment for conveying prisoners to gaol if they were brought in drunk, the prisoners had been generally brought in a proper state: but as, in several instances, the prisoners concealed their being in a diseased state, the Visiting Magistrates had ordered that no prisoner be taken from the receiving cells to their respective wards until they had been examined by the surgeon, who had been directed to attend the Visiting Magistrates every Saturday, to make a report of the state in which

he found the prisoners on inspection, and for that they requested the sanction of the Court. They likewise thought that a considerable saving of expense would be made, if the Court would recommend to the magistrates of populous towns to send as many prisoners at a time by the same constable as were in custody, instead of sending a constable with every prisoner.

By the Report of the Visiting Magistrates made at the last Easter Quarter Sessions, it appears,

That the system of separation of the convicted prisoners, aided by the effective admonitions of the chaplain continued so far as could be estimated to produce those serious reflections in the minds of the prisoners, which must be the ground-work of any real reformation in their lives and conduct.

That it was not an unusual occurrence, on the discharge of a prisoner, to see the tears of contrition accompany his expressions of regret for his past conduct, and his hopes of leading a better life in future.

That the health of the prisoners had been in general good; but two men, James Croft and Robert Parnell died, both on the morning of Sunday, the 30th then ult.; immediate notice was sent to Mr. Hughes, the coroner, and on Monday morning, a verbal message was delivered to the porter of the gaol by the constable of Claines, that an inquest would be held on Wednesday morning, which was the fourth day after the death of the parties; that on Wednesday, about eleven o'clock, the coroner came, asked for the surgeon, was told he was sent for; said immediately, he would not wait, and adjourned the inquest till six o'clock in the evening. On that morning, the father of Crofts came to take away the body of his son, but was obliged to wait till after the inquest; that on one of the Visiting Magistrates mentioning the circumstance to the coroner, he replied, he might have taken away the body if he asked. That the Visiting Magistrates, seriously impressed with the great impropriety of permitting the dead body of a prisoner to be for several days in the prison, but having no sort of control over a coroner, submitted these facts to the Court, to take such steps as might be deemed advisable, to prevent, if possible, a like occurrence.

By the Report of the Visiting Magistrates made at the last Midsummer Quarter Sessions, it appears,

That the prison, constructed for the accommodation of one hundred prisoners, contained within its walls, on Saturday then last, two hundred and four prisoners; that in consequence of the crowded state, it had been impossible to carry the system of separation, or even of classification, as required by the Statute, into proper effect. That the chaplain had, in consequence, complained, "that it was much to be deplored that they were engaged in communicating and imbibing sentiments and feelings highly injurious to their moral improvement, and especially that class of prisoners who were not subject to hard labour." That the honorary physician and surgeon had also complained, that "the part of the prison then used as an infirmary was altogether unfit for such purpose, the rooms being small, low and badly ventilated, and the air of them unwholesome; and when full, productive both of aggravated and extensive disease amongst the prisoners and their attendants." That the Visiting Magistrates had repeatedly reported these evils, and the insufficiency of the gaol had been presented by the Grand Jury for the County; and Plans for its enlargement had been prepared under the direction of the Visiting Magistrates, in which plan an hospital was specially provided.

That the expectation of the abolition of imprisonment for debt, which would afford two buildings for criminals, had to the then present time prevented the projected enlargement; but that the erection of a building for an hospital was altogether independent of the projected enlargement of the gaol for the reception of prisoners, and might at any time be effected without inconvenience, at an expense of from 1,200*l.* to 1,500*l.*; that the addition of the sixty-four new cells which would be required, in addition to the debtor's wards, had been estimated at 1,481*l.*, by Mr. Hughes, the contractor for the brick-work of the county Courts.

By the Report of the Visiting Magistrates at the present Michaelmas Quarter Sessions, it appears,

That the officers of the prison had conducted themselves with the most commendable diligence, and attention to their several duties; that the prisoners had been orderly and in general healthy, notwithstanding the crowded state of the prison.

That the hospital, directed by the Court to be built under the superintendence of the Visiting Magistrates, was raised to the roof, and would be completed considerably within the sum authorized to be expended.

That from the numerous and troublesome Returns required by the Legislature and Government, in the past year, the labours of the clerk of the gaol had been much increased, and they recommended an allowance of 10*l.* to be made him, in addition to his salary, as a remuneration for the time and trouble to which he had been subjected by them.

That the parish officers of Claines, in which the gaol is situated, complained, that the expense of inquests held in the gaol, was obliged to be paid by them, and they prayed the intervention of the Court for redress.

By the Report of the Rev. John Adlington, chaplain to the said gaol, made to the present Michaelmas Sessions, it appears,

That since his last Report, the attention of the prisoners, generally, to religious instructions had been satisfactory; that the school had been regularly attended by petty offenders and other prisoners, waiting their trial at the assizes and sessions, several of whom had not only learned to read, but had also expressed their thankfulness for the opportunity thus afforded them, of improving their minds, and of usefully passing some part of their time: that at each celebration of the Lord's Supper, a few prisoners male and female had attended, after due instruction and examination, and had, it was hoped, manifested a sense and feeling corresponding to the nature of the duty they were engaged in: that homilies and other religious works had been disseminated in the wards and cells, and had been gratefully received by the various classes of prisoners.

That the wards and cells had also been frequently visited, a practice which he believed had been accompanied by a more marked and serious attention to the religious services in the chapel.

By the certificates of John Nelson Lavender, governor of the gaol and house of correction of the county of Worcester, at the Epiphany, Easter, Midsummerand, Michaelmas Quarter Sessions, it appears,

That the whole of the rules and regulations of 4 Geo. 4., c. 64, for the better management of prisons, had been complied with in the said gaol, except that part of Clause 10, which relates to writing.

AT a Court of Gaol Sessions for the County of York, held at the Castle of York, on Tuesday the 21st day of October, in the year of our Lord 1834, being the first Court after the 1st day of October 1834.

The Eleventh GENERAL REPORT of His Majesty's Gaol, the Castle of York.

THE Buildings and Area composing the gaol, are in all respects as stated in the last Report.

The new buildings and works commenced on the ground purchased for the enlargement of the gaol, and carrying into effect the classification required by the late Gaol Acts, are in continued progress under contracts with builders.

The rules and regulations for the government of the gaol, prescribed by the Acts, are observed and carried into effect, so far as the present buildings and accommodations will admit.

The Visiting Magistrates have not reported any abuses or mismanagement in the gaol.

The Chaplain reports, That the gaol being still in an unfinished state, the duties of the Chaplain, as regulated by the authority of the Magistrates, have been duly performed last year.

The following are the names and places of abode of the present Visiting Justices:—

The Reverend Danson Richardson Currer, of Clifton.

William Hatfield, esquire, of Newton Kyme.

Thomas Barstow, esquire, of York.

Barnard Hague, esquire, of York.

Benjamin Agar, esquire, of Brockfield.

John Tweedy, esquire, of York.

A copy of the return directed to be made annually by the keeper of the gaol, in the form contained in the Schedule annexed to the Act of the 4th King George 4, c. 64, marked (B.) is transmitted herewith.

The number and description of the officers and servants employed in the gaol, and the amount of their salaries and emoluments, are the same as mentioned in the last General Report.

Pens, Ink and Paper are allowed to the Prisoners wishing to improve in Reading and Writing.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—SURGEON attends every day. Separate Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—THE Prisoners confined in this Gaol are chiefly Debtors and unconvicted Prisoners.

32.—Reasons for Punishments by Solitary Confinement, by Whipping, or Irons.—FOR violating the Rules of the Prison.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—THERE is an Insane Prisoner under confinement named George Sandys, 45 years of age; has been tried for Murder, and acquitted on the ground of Insanity, and has been confined since the 30th December 1832; I cannot ascertain how long he has been Insane; and also another Insane Prisoner confined here, named William Stringer Watson, 34 years of age; he has been tried for Cutting and Stabbing, with intent to Murder, and acquitted on the ground of Insanity; he has been under confinement since the 26th October 1830; I have not been able to ascertain how long he has been Insane.

NORTH RIDING OF YORKSHIRE.

Michaelmas Sessions 1834.

The REPORT of the Clerk of the Peace for the NORTH RIDING of the County of YORK, founded on the Quarterly Reports of the Visiting Justices, on the Annual Report of the Chaplain, and on the Certificates of the Keeper of the House of Correction at Northallerton, in pursuance of Statute 4 Geo. IV. c. 64, s. 24.

THE Visiting Justices report, That they have at different times in each quarter inspected the several departments in the gaol, and that they have paid the strictest attention to the arrangement and employment of the prisoners.

The rules and regulations laid down, as well by the Court of Quarter Sessions as by the enactments of the Gaol Act, have been duly observed.

The Visiting Justices have in their reports expressed themselves satisfied with the attention of the officers of the prison, and also that the prisoners have been decorous.

The classification, routine of labour and employment, and dietary, continue the same as in the last Report; and the average cost of the dietary per head per day is 5d.

Soon after the Christmas Sessions the Cholera made its appearance in the gaol, and of the five cases which occurred one proved fatal; since that period no new case has occurred, and the establishment has been as healthy as usual.

The tread-mill has been regularly at work; but the numbers in the gaol being at times so small, it was with difficulty that it could be kept at work. No accident has occurred during the year.

Morning prayers, and such other religious duties as are enjoined, have been duly performed by the Chaplain; that the behaviour of the prisoners, as far as it has come under his observation, has been orderly and proper. Such prisoners as have felt disposed to read have been supplied with Bibles and other books published by the Society for promoting Christian Knowledge.

From the certificates of the Gaoler, delivered in by him to the Court at each Quarter Sessions, it appears that the rules for the government of this house of correction have been complied with, except the tenth rule.

(signed) W^m Shepherd, Gaoler.

TO the Right honourable Lord Viscount Duncannon, His Majesty's Principal Secretary of State for the Home Department.

The General REPORT of Henry John Shepherd, Deputy Clerk of the Peace of the EAST RIDING of YORKSHIRE, made in pursuance of the Statute, 4 Geo. IV. c. 64, s. 24, founded on the Reports of the Visiting Justices of the House of Correction, and also on the Certificates of the Keeper thereof.

THE rules and regulations of the house of correction have been strictly enforced ; and the conduct of all the officers who have the direction and superintendence of the gaol, has been perfectly satisfactory. The conduct of the prisoners, from Michaelmas 1833 to Easter 1834, was not so orderly as it had been for some time previous, which was chiefly owing to the great number of vagrants then in confinement, who were of a very bad description. The Visiting Magistrates found it necessary to order one man into solitary confinement for fourteen days, which appeared to have a salutary effect. During the quarter, from Epiphany to Easter, there was a degree of insubordination in some of the prisoners, which caused the gaoler to bring the delinquents before the Visiting Justices, who thought it right to place one of the prisoners in irons for a month ; and since Easter, the best order has prevailed in the prison.

During the year, there were four deaths, two men and two children ; in all other respects, the health of the prisoners has been good.

The Chaplain reports, That the prisoners have conducted themselves well upon the whole, as far at least as has fallen under his inspection. In one instance, and it is the only one that has occurred in fourteen years, he had occasion to reprove a prisoner publicly, for indecent behaviour during divine service. The great body of prisoners behave remarkably well at chapel ; they use Prayer-books and Bibles, and observe outward decency of manners, but it is feared there is not much inward reformation.

The School is kept up, and there is great desire on the part of several to attend it. The Sacrament has been twice administered within the last six months, instead of once in twelve, in compliance with the wish of the Magistrates.

Godfrey Bosville, Ralph Creyke, William Beverley, Jonas Brown, Daniel Sykes, Robert Denison, the younger, Charles Grimston, Yarrowburgh Graeme, and George Schonswar, Esquires, and the Rev. John Bell, D.D., John Gilby, Christopher Sykes, Charles Constable, William Harry Edward Bentinck, Joseph Coltman, Daniel Ferguson, John Blanchard, Robert Croft, Danson Richardson Currer, William Robinson Gilby, George Sampson, and William Canning, Clerks, Justices, &c.

The following Order was made:—

Ordered,

THAT no portion of the earnings be allowed to prisoners sentenced to hard labour; but that the Visiting Justices be empowered to grant to them such an allowance upon their release, as their general conduct may appear to deserve; reference being also had to their distance from home.

That all prisoners, previous to trial, who may be able and willing to work, be allowed 3d. per day for every day on which work can be supplied to them by the governor, and on which they actually do work.

That all such prisoners, previous to trial, who can provide such work for themselves as can be carried on consistently with the established rules of the gaol, be allowed so to employ themselves, and to receive whatever they can earn. And,

That convicted prisoners, not sentenced to hard labour, be allowed one-half of the allowance made to unconvicted prisoners, on such days as they are employed by the governor under the direction of the Visiting Magistrates

34.—General Observations.—

(signed) Samuel Shepherd, Keeper.

A GENERAL REPORT of the State, Condition and Management of the House of Correction at Wakefield, in the WEST RIDING of the County of YORK, founded on the Report of the Visiting Justices, on the Report of the Chaplain, of the Surgeon, and on the Certificate of the Keeper of the said House of Correction, prepared by the Clerk of the Peace, and submitted to the Justices assembled at the Michaelmas General Quarter Sessions of the Peace, holden, by an Adjournment, at Leeds, in and for the said Riding, on the fifteenth day of October 1834, in pursuance of the 4th Geo. IV. c. 64.

THE Visiting Justices report as follows:—

In making a report of the house of correction at Wakefield so soon after the commencement of an entire new system of discipline in that prison, in compliance with the new rules approved of by the Judges of Assize at York the 27th of March 1834, they can only make a general statement of the practical working of the system within the prison, leaving it to the test of time to show more clearly than they can now presume to do, the beneficial results which they all anticipate, but of which the time is too short to produce any proofs on which it would be safe to rely.

The Visiting Justices lost no time in carrying into effect the new rules. They were certified by the Judges of Assize on the 27th of March, and on the morning of the 16th of April an entire new system of discipline was introduced, without difficulty, opposition or hindrance, through the enforcement of the rule requiring silence throughout the prison.

The evil of two prisoners being obliged to sleep in one bed was removed by fitting up some of the day-rooms, and latterly a long work-room, as dormitories. These, by proper inspection, have answered the desired purpose; few instances (and those of a trivial nature) have occurred of any infraction of the rule of silence within these rooms, whilst the single cells have (with a few exceptions) only received a single occupant. The effect on the prisoners is very striking; the most hardened and depraved are subdued and orderly, and if not amended, at least cannot be corrupted by evil communication; and those not entirely lost to all sense of propriety, although they feel the irksomeness of obedience to the rule, hail it as their best security against the immoral contagion of their fellow-prisoners.

They are happy to state, that, accompanied with strict silence, perfect decorum, and general civility, the prisoners manifest evident cheerfulness in their countenances and manner.

Each prisoner is now furnished with a Bible or Testament, and prayer book, and a large proportion of the prisoners make that pious use of them, which before ridicule and false shame in a great measure prevented.

Although doubtless experience may point out some beneficial alterations in the practical working of the system, they have now no doubt of the good effects that must result from it; nor do they feel the least difficulty in the execution, requiring nothing more than a continuation of the activity, zeal and firmness of the keeper, with active superintendents, combined with a kindness of demeanour towards the prisoners.

The enlargement of the prison for females is going on, but no new regulations have been yet attempted; and the contrast between the noise and disorder amongst them, and the silence and obedience of the men, is very great and painful.

The Chaplain reports as follows:—

In commendation of the great improvement that has taken place in the Wakefield house of correction since the introduction of the new system of silence, the Chaplain feels unable to express himself in terms sufficiently strong.

The prisoners unable now, as once they were, to communicate with each other in the crowded yards, and to spend their unemployed hours in swearing, gaming, and devising plots for the future, are now to be seen cheerfully and quietly engaged in reading the various religious books and bibles supplied them by the Chaplain.

The eager desire to read evinced by all who are able, together with attendance at daily prayer, it may confidently be hoped, will be, under the blessing of Heaven, the means of much benefiting the prisoners here confined, and making them hereafter better members of society.

Indeed, it cannot be possible that men, necessarily driven to much reading and reflection from the strictness with which silence is enforced, can pass any length of time without being influenced for the better in their feelings and after conduct.

Within the last six months the Chaplain has supplied each sleeping cell with a Testament. About twenty Bibles have been distributed among those who have particularly requested them; and the prisoners have also been supplied with such small tracts of a moral and religious nature, as the Chaplain considered the most suitable.

The Chaplain has lately begun a Sunday School, in which the boys capable of learning them have had short prayers given to get by heart; others have been taught their Catechism, and to read; and a few men, who could not read, have been taught to spell.

By

By the opportunities thus given, under the new system, of reading, reflecting and learning, the Chaplain feels pleasure in the confidence he can express that there are not wanting proofs that some have found spiritual benefit, and are showing, by the tender blade of improvement springing up, that the good seed of the word has not been sown in vain.

To the proposed early appointment of a schoolmaster under his superintendence, the Chaplain looks forward with much pleasure, as he trusts that, by a well-ordered instruction, much moral improvement will be effected among the ignorant, but particularly amongst those boys who from earliest infancy have been driven by their parents to gain a livelihood by petty theft, and allowed to pass their days uninstructed and in idleness.

The Surgeon reports as follows:—

In presenting the following report, the Surgeon has pleasure in communicating that since the improved state of discipline has been introduced into the house of correction, the general health of the prisoners has continued to be very good, and the prison has been particularly free from those alarming disorders of the bowels, although complaints of that nature have been very prevalent throughout the country at large.

There has been only one death since April, occasioned by great debility after a severe inflammatory attack; and the number of cases admitted into the infirmary has been less than usual. The state of discipline, by promoting greater order and cleanliness, ventilation, regularity in the diet, and checking the frequent attempts of imposition by feigned diseases, has been very satisfactory, although the favourable state of the summer may have had considerable influence in diminishing the causes of disease. With the exception of a few cases of fever, dysentery, diarrhoea, and inflammatory affections, every other ailment has been of a slight character, and the prisoners (with a few exceptions) have generally become more healthy than when admitted.

The Gaoler reports:—

That all rules laid down in the 4th Geo. IV. c. 64, for the management of gaols and houses of correction, are complied with, except Rule 10th.

Schedule (B.)—County of York, West Riding: Wakefield House of Correction—*continued.*

†

19.—Whether Common Gaol, House of Correction or Bridewell?—HOUSE of Correction.

20.—Under whose Jurisdiction and Superintendence?—THE Magistrates of the West Riding of the County of York.

21.—Number of Officers, and how appointed?—A GOVERNOR and Matron appointed by the Magistrates; a Taskmaster, two Superintendents; eleven Male and one Female Assistant appointed by the Governor.

22.—Number of Classes, Wards or Divisions, Work Rooms, Day Rooms and Airing Yards, and whether the same can be extended or increased?—MALE Prison; five Classes; Thirty Work Rooms, Three Day Rooms, and Three Airing Yards. Female Prison, five Classes; Thirteen Work Rooms and Five Airing Yards.

23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—BREAKFAST every Morning, half a pound of Bread and a quart of Oatmeal Porridge, with Salt. Dinner: Sundays, Tuesdays and Fridays, five ounces of boiled Beef, half a pound of Bread, and half a pound of mashed Potatoes; Mondays and Thursdays, Rice Pudding and half a pound of Bread; Wednesdays, one quart of Water Gruel and half a pound of bread; Saturdays, one quart of Water Gruel thickened with ground Rice, and half a pound of Bread. Supper: Sundays, Tuesdays and Fridays, one pint of Broth, thickened with half an ounce of Oatmeal and half a pound of Bread; Mondays, Wednesdays, Thursdays and Saturdays, one pint of Oatmeal Porridge and half a pound of Bread. Weekly Cost per Head, 2s. 1½d.

24.—Allowance of Clothing and Bedding, and Cost per Head?—CLOTHING: a Jacket, a Shirt, a pair of Trowsers, and a pair of Clogs. Bedding: a Straw Mattress, two Blankets and two Coverlets. Cost per Head, 3s. 7½d.

25.—Description of Employment and Hard Labour?—TREAD-MILL, Weaving, batting and picking Wool, making and mending Clothes, Joining, Bricklaying, Masoning, Labouring, Washing and Sewing.

26.—Hours of Labour and of Exercise?—NINE Hours and a half Labour in Summer; seven Hours and a half in Winter; one Hour and a half allowed for Messing, and half an Hour Exercise.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the maintenance of the said Prison?—CONVICTED Prisoners receive one-fourth of their Earnings; the Riding half, and the Governor one-fourth: Unconvicted Prisoners receive one-half, the Riding one-fourth, and the Governor one-fourth.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—CLASSIFICATION is observed.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS every Morning; Sundays, Prayers and a Sermon, Morning and Afternoon. A Testament is placed in every Cell in the Prison; Bibles, Prayer Books, and other religious Books are plentifully supplied to each Prisoner.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon attends every day. Separate Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—SICK and Infirm.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping or Irons.—NEGLECT of Work, quarrelling, talking, communicating in any manner, destroying Bedclothes, swearing, and for all other disorderly conduct.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—YES. John Kent; 38 years of age. Assault, with intent to commit a Rape. Has been imprisoned since the 6th of May 1834. Cannot say how long he has been Insane.

34.—General Observations.—AS but five Classes or Divisions of Prisoners are recognized in the Male Department, and but three Airing Yards, and three Mess Rooms used, those numbers only have been named; yet the Male Prison contains thirteen Day Rooms, and thirteen Airing Yards; ten of which, by the introduction of strict and uninterrupted silence, and by the Regulations now introduced here, are rendered superfluous. I can, with security assert, that Classification is strictly adhered to, and though walls do not separate, yet every man is much more strictly isolated from his fellow man.

N^o 53.—CITY OF BRISTOL.

To the Right honourable Lord Viscount Duncannon, one of His Majesty's Principal Secretaries of State.

The REPORT of the Justices assembled at the General Quarter Sessions of the Peace of our Sovereign Lord the King, held in and for the City of Bristol and County of the same City, on Monday the 13th day of October 1834; before the Right Worshipful Charles Payne, esquire, Mayor, and Thomas Daniel and John Haythorne, esquires, Aldermen of the said City, and others their Associates, Justices assigned, and so forth.

IN pursuance of an Act of Parliament passed in the 4th year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales;" the Court examined the several Reports made by the Visiting Justices, and presented to the Court at the several Quarter Sessions of the Peace held in and for the said city of Bristol and county of the same city since the last Michaelmas Sessions; and also, the several certificates and annual returns made to the said Court by the governor of the common gaol and keeper of the house of correction during the same period; and having taken the same into their consideration, this Court reports, That the rules, orders and regulations made for the government of the said gaol appear, as far as possible to have been complied with. And this Court further reports, That in the month of October 1831, a riotous and tumultuous mob assembled and burnt and destroyed the house of correction called Bridewell, with the exception of a few of the cells, and also burned down and destroyed the house of the keeper; that the said house of correction is in progress of being rebuilt, and that the cells which were not wholly destroyed have been repaired, and are now used as a place of confinement for persons apprehended upon charges of felony and misdemeanor during the night, or until they can be taken before a magistrate, and for persons remanded for further examination; and that the prisoners confined in such cells are kept in as good order as possible. And further, that for the present a portion of the common gaol has been appropriated to the purposes of a house of correction.

And this Court further reports, That Gabriel Goldney and Nicholas Roch, esquires, two of His Majesty's Justices of the Peace for the said city of Bristol and county of the same city, were appointed by the said Court Visiting Justices of the said gaol and house of correction; and that the Rev. Thomas Fryer Jennings, clerk, was appointed chaplain to the said common gaol and house of correction, and Mr. Morgan Yeatman was appointed surgeon to the same.

And this Court doth order, That copies of the annual returns from the governor of the common gaol and keeper of the house of correction in the said city, according to the form of the Schedule (B.) annexed to the said Act, be transmitted with this Report.

No. 54.—CITY OF CHESTER.

AT the General Quarter Sessions of the Peace, held by adjournment on Thursday the 24th day of October 1834, for the City of Chester, the following Reports of Thomas Francis, Robert Morris and George Harrison, esquires, the Visiting Magistrates for the Gaol and House of Correction within the said City, the Reverend William Clarke, Chaplain of the said Gaol and House of Correction, and of the Certificate of George Jepson, Keeper of the said Gaols, were submitted to the Justices of the Peace assembled at the said Sessions, which said several Reports and Certificates were approved by the said Justices.

WE, the Visiting Magistrates appointed for the Gaol and House of Correction of this city, having frequently made inquiries respecting the regulations of the Gaol, and the observance

observance of the rules thereof, report, That in general we have been satisfied with the order and regularity which has been observed; and on the whole, it is our opinion, that the different officers in the prison have been faithful to their trust.

George Harrison.

TO the Worshipful George Harrison, Esq., Mayor, and the Magistrates of the County
of the City of Chester.

Gentlemen,

MY Report, as chaplain to the city gaol and house of correction, will almost necessarily embody in it the same items as before, that is, as to religious services performed, and the attention paid to them in the demoralized state of those who come within our prisons, and the main sources to which, as external excitements, their crimes are to be traced. With regard to Divine Services performed, I have to repeat, that the two on each Lord's-day have been duly observed, as also the week-day prayers, reading of religious books, tracts, &c.; and I have nothing to complain of with regard to the attention and behaviour of prisoners, several of them in the course of the year have seemed to be impressed with a sense of their depraved and lost condition, and promised amendment of life. But whether, or not, such appearances and promises have after all amounted to anything further, I have seldom an opportunity of judging. Indeed, while the snares and temptations to vice are so numerous and strong, the beer-shops and gin-shops, together with houses of ill-fame, little is to be hoped for but from the zealous and uncompromising efforts to put them down, or watch them narrowly, which we have happily witnessed in the magistracy of our city. I cannot however forbear to repeat what I suggested on a former occasion, that it would be well to petition the Legislature to put an end to beer-shops, as the bane and very curse of our land. I have opportunities of tracing distinctly a very large proportion of the crimes which I witness daily, to these sources of idleness, vice and misery.

I have the honour to be, Gentlemen, your most obedient servant,

No. 56.—CITY OF EXETER.

Michaelmas Sessions, 1834.

City and County of the } A GENERAL REPORT, founded on the Report of the Visiting
City of Exeter, to wit. } Justices, on the Report of the Chaplain, and on the Certificates of
the Keeper of the Gaol and House of Correction for the said City and County, as
directed by the Acts of 4 Geo. 4, c. 64, s. 24, and 5 Geo. 4, c. 85.

THAT it appears from the Report of the Visiting Justices appointed at the Michaelmas sessions 1833, namely, Edward Woolmer, Esquire, Mayor, Robert Rogers Sanders, and Paul Measor, Esquire.

That on the 12th day of November 1833, the said Mayor and Robert Rogers Sanders, Esq., visited the prison, and found it in good order.

That on the 2d day of January 1834, the said Mayor visited the prison, and found every thing in good order.

That on the 12th day of January 1834, the said Mayor again visited the prison, and found every thing in good order.

That on the 10th day of February 1834, the said Mayor and William Lee, Esq., one of the magistrates of the said city and county, visited the prison, and found every thing in good order.

That on the 1st day of April 1834, the said Mayor visited the prison, and found every thing in good order.

That on the 29th day of April 1834, the said Mayor visited the prison, and found every thing in good order.

That on the 17th day of June 1834, the said Mayor and Robert Rogers Sanders, Esq., visited the prison, and found every thing in good order.

That on the 9th day of July 1834, the said Mayor visited the prison, and found every thing in good order.

That on the 6th day of September 1834, the said Mayor and Robert Rogers Sanders, Esq., visited the prison, and found every thing in good order.

That the said Visiting Justices had no other report to make respecting the state and condition of the said gaol and house of correction, nor of any repairs, additions or alterations, or of any abuse or abuses either from observation or information, in the management of the prison; and they report satisfactorily as to the morals, discipline, employment, hard labour and observance of rules, by all the prisoners.

That it appears from the Chaplain's diary, that from Michaelmas sessions 1833 to 12th October 1834, that prayers were regularly read and sermons preached on Sundays, and the Sacrament occasionally administered; and also, that prayers were read on Wednesday and Friday in every week, in addition to the Sunday duty: and at the present Michaelmas sessions, the chaplain having visited the prison, certified that he had found all in good order.

That it appears by the gaoler's quarterly certificates, duly returned at the respective general quarter sessions, from Michaelmas 1833 to Michaelmas 1834, that all the established rules for the government of the said gaol and house of correction (as far as the present building would admit) had been fully complied with in every respect, and that there had been no deviation therefrom.

That by the certificate of the said gaoler, produced to this present Michaelmas sessions 1834, he reports, with respect to all persons in his custody who were sentenced to hard labour at the gaol delivery held at the Guildhall in and for this city and county on the 30th day of June 1834, that the average number of working hours was six hours per day; and that at the time of the said report there was one male prisoner employed upon the tread-wheel, and that one female prisoner, committed to be kept to hard labour, was employed in making, mending and washing for the male prisoners.

And the said gaoler also certified, that the present number of day rooms was inadequate for classification as the Act requires; that there was not a sufficient number of cells on the male side of the gaol and house of correction; that the walls of the female airing grounds were not of a sufficient height; that the hospital wards were not secure, and the boundary wall not high enough by three feet at least; and the keeper begged to call the attention of the magistrates to a great want of a proper place to keep wood, straw and potatoes in; and he reported that, with the above exceptions, the gaol and house of correction was in good repair.

And the said Justices, assembled at this present general quarter sessions, have no further report to make as to the classification of all prisoners, by providing additional rooms and cells, than what is contained in their report at the Michaelmas sessions 1823; and in the above report of the gaoler, and for the reasons above stated in their said report, the mayor and magistrates are still unable to carry into full effect the provisions of the 4 Geo. 4, c. 64, further than was stated in that report.

That the Schedule (B.), duly delivered by the gaoler, is annexed to this Report.

That the said Justices have at this present Michaelmas sessions nominated and appointed Philip Chilwell De la Garde, Esquire, Mayor; William Lee, William Kennaway, and Robert Rogers Sanders, Esquires, four of the justices of and for the city and county of the city of Exeter, to be visitors of the said gaol and house of correction; and the said Philip Chilwell De la Garde, William Lee, Robert Rogers Sanders, and William Kennaway, did then and there consent to accept such appointment.

That the following is a true and correct statement of the establishment of officers and servants employed in the gaol and house of correction of the city and county.

- 20.—Under whose Jurisdiction and Superintendence?—THE Mayor, Magistrates and Sheriff.
- 21.—Number of Officers, and how appointed?—KEEPER, by the Mayor and Chamber of Exeter; Taskmaster and Matron, by the Justices in Sessions.
- 22.—Number of Classes, Wards, or Divisions, Work Rooms, Day Rooms, and Airing Yards, and whether the same can be extended or increased?—FOUR Divisions, no Work Shops, four Male Day Rooms, and one Airing Yard to each; four Female Day Rooms, two Airing Yards; can be extended or increased.
- 23.—Dietary or other Weekly Allowance, and Weekly Cost per Head?—TWENTY-two ounces of white Bread per Day, and ten pounds of Potatoes per Week; one pound of Mutton to those who work at the Tread-wheel per Week. Coals, Wood, Salt, Soap, Towels, Combs, &c. Cost per Head, 3s. 6d. per Week.
24. Allowance of Clothing and Bedding, and Cost per Head?—WEAR their own Clothing. If any want of Clothing, it is provided by the Mayor and Chamber; Gaol Dresses lent only to Prisoners who ask for them. Iron Bedsteads, Straw Mattresses, three Blankets and one Coverlet to each. Cost, 3l. 19s. 7d.
- 25.—Description of Employment and Hard Labour?—TREAD-WHEEL; others at their Trades, Pump, Garden, cleaning Rooms, &c. Female Prisoners Washing and Mending for Male Prisoners, Knitting, &c.

Schedule (B.)—City of Exeter: Common Gaol and House of Correction—*continued.*

26.—Hours of Labour and of Exercise?—TREAD-WHEEL; seven Hours in Summer, six in Winter; the rest to Exercise.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Earnings are very small, from the Tread-wheel not having a supply of Hemp to beat; One-third to the Taskmaster, the remainder towards paying for Grease, Oil, &c. for the Wheel. Straw is used to keep the Mill from injuring. The Prisoners are maintained by the Mayor and Chamber. The Earnings of the Female Prisoners, who knit, Two-thirds equally divided among them; One-third to the Matron.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—CLASSED as much as the present Building will admit. No remedy has been taken to class the Prisoners as the Act requires; the Male Divisions are not large enough.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—PRAYERS and Sermon preached on Sundays, Wednesdays and Fridays; Prayers read also on Good Friday, Christmas-day, &c. Schoolmaster. Bibles, Prayer-books and Tracts in each Day Room, from the Society for Promoting Christian Knowledge.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon enters his visits in a Journal kept in the Prison. Two Hospital Wards at the back of the Chapel.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—PRISONERS under Fines for Assaults, Deserters, and those whom the Surgeon takes off the Wheel.

No. 57.—CITY OF GLOUCESTER.

THE REPORT of *Henry Hooper Wilton*, Town Clerk of the City of Gloucester, submitted pursuant to the directions of the 4 Geo. 4, c. 64, to His Majesty's Justices of the Peace assembled at the General Quarter Sessions of the Peace of and for the said City, holden by adjournment on Monday the 22d day of December 1834.

Sheweth,

THAT although there appears to have been a very considerable increase in the aggregate number of prisoners committed to the gaol of this city during the year ending at Michaelmas last, as compared with the preceding twelve months, yet that it will be found that the increase does not apply to charges of felony, but to offences of a minor grade, such as assaults, disorderly conduct, &c., which may readily be accounted for by the additional population and traffic of the city, especially as connected with the port.

The number of debtors is likewise double that of the preceding year.

In the female department of the prison, much good has arisen from the advice given and attention paid by an Association of Ladies, which there is reason to believe have been the means of reforming and making several females on their return from prison useful members of society.

Beyond

Beyond these remarks, there is nothing which calls for particular observation. The management of the gaol has been continued as formerly, and the system of the classification of the prisoners is pursued as far as the limited accommodation of the building will allow.

(signed) *Henry H. Wilton.*

I certify that the above Report was approved by His Majesty's Justices of the Peace, assembled at the General Michaelmas Quarter Sessions of the Peace, holden by adjournment on the 22d day of December 1834.

No. 58.—CITY OF LONDON.

WINCHESTER, Mayor.—The first Court held on Tuesday the 25th day of November 1834, and in the fifth year of the reign of William the Fourth, of the United Kingdom of Great Britain and Ireland, King, &c.

A General REPORT of the Court of Aldermen, for the year ending Michaelmas 1834, respecting the Gaol of Newgate, the Giltspur-street Compter and House of Correction, and the Debtors' Prison, in the City of London; and also respecting the Borough Compter, Southwark; in pursuance of the directions of the Act of Parliament of the 4th Geo. 4, c. 64, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."

The Court Report,

In respect of the Gaol of Newgate,

THAT the said gaol has been kept in good order and condition, and has been properly cleansed and lime-whited, and great benefit has arisen, and additional air and light afforded to three of the yards by the removal of old walls. Considerable repairs have also been effected there during the year.

That

That the inconvenience frequently complained of respecting prisoners acquitted on the ground of insanity remaining in the said gaol, still exists, there being now eight such prisoners.

That prayers are read in the chapel by the Ordinary every morning, and in addition thereto, on Sundays he preaches a sermon in the morning and a sermon in the afternoon.

That the boys and some of the females are taught reading, and Bibles, Prayer-books and Homilies are supplied in the different wards.

That good order has prevailed amongst the prisoners during the last year.

Giltspur-street Compter and House of Correction :

The male prisoners have been employed in grinding corn with a hand-mill, and making bread for their own consumption, and that of the prisoners in the gaol of Newgate; in breaking flax; and in white-washing and painting the prison, and as carpenters, shoemakers, &c. The females in spinning flax, washing, making and mending for the prisoners. The prisoners receive proportions of their earnings, part in weekly allowances and part on leaving the prison; the remainder is applied to the maintenance of the prison, but no part thereof is received by the officers.

The prison has been cleansed and lime-whited; its condition is cleanly and in good order; the prisoners are generally healthy, and their behaviour, with few exceptions, orderly.

Morning prayers and a portion of the Scriptures are read daily, and morning and evening services are performed on Sundays, Christmas-day and Good Friday, and a sermon preached on those days immediately after the morning service.

Bibles, Prayer-books and Homilies are provided for the use of the prisoners.

The whole of the prisoners on the House of Correction side are clothed, and some of those on the Compter side are occasionally clothed, as their necessities require.

Debtors' Prison :

This prison during the year has been properly cleansed and lime-whited.

The prisoners have conducted themselves in an orderly manner during the year, and their health has been generally good.

Prayers are read daily, in addition to which the chaplain preaches two sermons every Sunday.

Bibles, Prayer-books and Homilies are supplied to the prisoners.

Measures are taken to prevent the admission of spirituous liquors.

Borough Compter :

This compter has also been duly cleansed and lime-whited. The prisoners have conducted themselves satisfactorily. Their health has been generally good; and in all cases where they work they have received the whole of their earnings.

Morning prayers are read daily, and morning and evening services performed on Sundays, Christmas-day and Good Friday, and a sermon preached on those days; in addition to which the prisoners are provided with Bibles, Prayer-books and Homilies.

The relative proportions of commitments, of cases of sickness and of deaths, in the respective prisons, will appear by the following summary :

	Commitments.	Cases of Sickness.	Deaths.
Newgate - - - - -	1,821	140	6
Giltspur-street Compter and House of Correction	5,706	85	6
Debtors' Prison - - - - -	3,098	184	5
Borough Compter - - - - -	1,844	46	-
TOTALS - - - - -	12,469	455	17

Plans of the prisons, and copies of the annual Returns of the Keepers, are herewith transmitted, in compliance with the provisions of the Act.

The Prison has been scraped and whitewashed in the year last past; and the conduct of the Prisoners generally, with a few exceptions, has been orderly.

(signed) John Law, Keeper.

No. 59.—CITY OF NORWICH.

TO the Right Honourable *Henry Goulburn*, one of His Majesty's Principal Secretaries of State.

THE Justices of the Peace for the City and County of Norwich, assembled at the Michaelmas Quarter Sessions 1834, do, in pursuance of the directions of the Act passed in the Fourth year of the Reign of his late Majesty King George the Fourth, report to his Majesty's Secretary of State for the Home Department, that the Rules of the Prison for the said City and County, as well those directed by Act of Parliament as those prepared by the Justices, and approved of by the Judges, have been during the last year properly obeyed. The health of the Prisoners has been generally good; the Surgeon has been regular in the discharge of his duties; and the Prison has been properly whitewashed, and well ventilated. The Chaplain has been extremely attentive to the Prisoners; the religious duties have been regularly performed, and the general conduct of the Prisoners has been orderly and becoming; but the Justices regret to state, that during the preceding year, notwithstanding the vigilance of the police, and the improved state of prison discipline, a considerable increase in the number of minor offences has taken place, a large proportion of which has been committed by persons under the age of 21 years; and it was painful to the Magistrates to observe, in several cases, on the trials of youths between 10 and 15 years of age, that though young in years they were old in crime.

Guildhall, 23 Dec. 1834.

34.—General Observations.—

No. 60.—CITY OF WESTMINSTER.

The GENERAL REPORT of His Majesty's Justices of the Peace for the City and Liberty of Westminster, in their Michaelmas Quarter Session for the Year 1834 assembled, to His Majesty's Secretary of State for the Home Department; made in obedience to the directions of the Act of Parliament passed in the 4th year of the reign of King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the Building, Repairing and Regulating of certain Gaols and Houses of Correction in England and Wales."

AT each of the Quarter Sessions held in the months of October, December and April last, seven Justices were appointed by the Court, pursuant to the 16th sect. of the said Act, to be Visitors of the Bridewell or House of Correction for the said City and Liberty, situate in Tothill-fields; and those Visitors duly reported their proceedings to the Court, as directed by the 23d sect. of the Act; and by their Report it appears, that not less than three Meetings during each quarter were held at the Bridewell, and that the Visitors on each occasion personally inspected the Prison, and found it clean and in good order.

At the Quarter Session held in the month of June last, in consequence of the Commissioners appointed under the Act passed in the 7th year of the reign of King George the Fourth for building a new Bridewell or House of Correction for Westminster, having given notice

notice that the New Bridewell was ready for the reception of Prisoners, 12 Justices were appointed Visitors of that Prison, and the Male and Female Prisoners were on the 30th day of June last removed from the Old Prison in Tothill-fields to the New Bridewell. From the Report of the visiting Justices, it appears that the Prisoners, with two or three exceptions, have been quiet and orderly; and that the several Male Prisoners, sentenced to hard labour, have been duly put on the Tread-Wheels, except when the Surgeon has advised they should be taken off, in consequence of the extreme heat of the weather, and then they have been employed, as the Female Prisoners have been, in picking oakum, or in other necessary labour in the Wards and Court-yards of the Prison.

The New Bridewell affording the means of classifying the Prisoners in the manner prescribed by the above-mentioned Act, the Justices have adopted that Classification as far as they have had the opportunity.

They have, however, to observe, that when Rules and Regulations, in addition to those prescribed by the Statute, shall have been settled by the Court, and approved by the two Chief Justices, it is probable that further Classification may be required. The Justices have caused a Plan of the Prison to be drawn upon a scale of 1-16th of an inch to a foot, with a Reference showing the present application of the various parts of the Prison, which Plan they transmit herewith.

The Surgeon of the Prison has from time to time reported the Prisoners to be in general healthy.

From the Reports of the late Chaplain, the Rev. John M'Evoy, who resigned his office at the last June Quarter Sessions, in consequence of his having been appointed Chaplain to the Forces at Madras, it appears that the demeanour and conduct of the Prisoners had been such as to give him satisfaction.

At the said June Quarter Sessions, the Rev. George Henry Hine was nominated by the Court as Chaplain of the New Bridewell, and he has since been licensed in that office by the Bishop of London.

By Mr. Hine's Report, delivered to the Court at the present Session in obedience to the directions of the 34th sect. of the Act, he states, that the Prisoners assemble every morning for Prayers and religious Instruction, when a chapter of Scripture is read and explained; a mode of instruction best adapted to such a class of persons, and that it is his endeavour to make his remarks as concise and striking as possible: that on Sunday there are two full services, and he has much pleasure in reporting, that the Prisoners are very attentive and orderly during the time of Divine Worship, and make the responses with much regularity and apparent devotion; and that at all times during his short acquaintance with them, he has received the greatest attention, and has every reason to hope that his labours among them are not in vain: this good feeling towards him (the Chaplain states) it will be his anxious desire to maintain, and he hopes nothing will be wanting on his part in discretion or tenderness to insure its continuance. Under the sanction of the Visiting Magistrates, and with the assistance of the Officers of the Prison, he has established a School for the Convicts under 18 years of age, which he trusts will be an instrument of much good, but at present there are no other Teachers than some of the elder Prisoners. Finding a great want of Bibles and Prayer Books, the Chaplain made application to the Magistrates, and had been supplied therewith; they are (he states) in considerable request by the Prisoners, and many appear to read them with pleasure.

The Keeper of the Bridewell or House of Correction has duly complied with the 14th sect. of this Act, and has made a Report in writing of the actual state and condition of the Prison, and of the number and description of Prisoners confined therein, to the Justices at their several General and Quarter Sessions; and he has also, in compliance with the directions contained in the 21st sect. of the Act, delivered to the Court the Quarterly Certificates thereby required, from which it appears that the Old Bridewell was inapplicable to afford the means of Classification; but that the present Bridewell affording a facility to classify the several Prisoners, they had been separated and classed as prescribed by the Act.

The Court have annexed hereto a copy of the Schedule (B.), or Return delivered by the Keeper of the Prison, previously to the present Session, to the Deputy Clerk of the Peace, for the use of the Court, as directed by the 22d sect. of the Act.

No. 61.—CITY OF WORCESTER.

City of Worcester and } The REPORT of Charles Sidebottom, Esquire, Clerk of the County of the same City. } Peace for the City of Worcester and county of the same City, in pursuance of the 24th section of an Act of Parliament passed in the Fourth year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales."

BY the Report of the Visiting Magistrates of the gaol and house of correction for the said city and county of the same city, from Michaelmas Sessions 1833 to Michaelmas Sessions 1834, it appears that they found it clean and well regulated, and the rules ordered by Act of Parliament had been generally obeyed, and that they were perfectly satisfied with the good conduct of the different officers, and with the discipline of the said gaol.

By the Report of William Griffiths, governor and keeper of the said gaol, it appears that the whole of the rules and regulations of the said statute for the better government of prisons had been complied with in the said gaol, except that part which relates to the teaching of prisoners to write.

From the Report of the Rev. Edwin Faulkner, chaplain to the said gaol, made to the Magistrates at the Michaelmas Sessions 1834, of which the following is an extract:

"In commencing my report of the state of this prison, I beg leave to observe that the number of persons committed to it within the last year, appears to exceed by 16 or 17 that of the previous year ending Michaelmas 1833. But out of this excess, 13 were placed here *pro tempore*, until they could be removed to their proper destination, viz. 11 to our county and two to Warwick gaol, thus very nearly equalizing the number of commitments within the last two years. But notwithstanding this near equality of numbers, the prison has been throughout the latter years somewhat thinner than in the former, in consequence of the term of confinement of a rather considerable portion of the prisoners having been of short duration.

"Of juvenile offenders, the number has evidently decreased. The crimes of this class of delinquents, with few exceptions, have been those of apprentices running away from their masters' service. With such, solitary confinement joined to frequent serious admonition, have been found to produce a beneficial effect, inasmuch as previous to their liberation, they have in general expressed deep contrition for their offence, and a fixed determination to observe a better line of conduct in future, and which determination, to a certain degree, appears to have been kept, as no instance within the year occurs to me of one of this class having been recommitted.

"It may not be improper to remark here, that the more serious crimes appear to have been perpetrated by persons possessed of some education; as a greater proportion of felons than of those committed for misdemeanors could read and write.

"I will now proceed to state the clerical duties performed by me, viz. the morning and evening services, with a sermon in the morning on Sundays, Christmas-day and Good Friday; and the morning service or prayers selected from the Liturgy every Wednesday and Friday in the week. After prayers the prisoners are visited in their respective wards, at which time they are privately instructed and catechized; their progress in their various tasks is examined, and any necessary admonition, reproof, advice or encouragement is then given.

"Every requisite provision is made for affording instruction in reading, and here considerable success has attended our exertions, as is constantly being proved by persons who on entering, scarcely knew the alphabet, being able at the expiration of their confinement to read correctly a chapter in the Bible.

"The books at present in use are Bibles, Testaments, Prayer-books, Hymn-books, Wake's Catechism, Tracts and Spelling-books.

"I usually attend four days in the week at the prison; on the Sunday I am engaged about three, in the week about five hours. On this point it is impossible to speak with much exactness, circumstances occasionally occurring, which require almost daily attendance.

"All prisoners not claiming exemption as holding a different faith, regularly attend Divine Service, unless prevented by illness, or have leave of absence granted for some sufficient cause.

"Prisoners in solitary confinement are frequently visited, and each inhabited cell weekly inspected. The same strict attention continues to be paid to the health, classification and moral deportment of prisoners during the hours of labour. Every offence of this kind being suitably punished.

"Only

"Only one or two serious cases have come under my notice since my last Report. The others may be classed under the head of minor offences.

"The conduct of the prisoners has been generally good; during service it has been highly commendable, and with few exceptions, nearly the same while visiting the wards.

"In some instances, disorderly conduct, though rare in this prison, has been manifested; but such having been promptly punished by solitary confinement, the aggressors have since conducted themselves well; thus proving that solitude, if not productive of real reformation, is at least often the cause of future orderly behaviour. Exceptions of this kind will occur in the best regulated establishments, but making a reasonable allowance for these, I think I may with truth assert, that the conduct of the prisoners has been orderly, correct and praiseworthy. I am not sanguine enough to conclude this arises from an entire alteration of character, but wish it may be the first step to amendment of life."

Clerk of the Peace.

25.—Description of Employment and Hard Labour?—WHITEWASHING and Cleaning the Prison, Washing for the Prisoners, Tread-mill and Sand pounding.

26.—Hours of Labour and of Exercise?—LABOUR nine hours in the Summer; in Winter from Sunrise till Sunset, allowing three Hours for Meals, Chapel, and Exercise.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Earnings very seldom amount to 5*l.* in the year. The Prisoners receive one-sixth, the Keeper one-third; the other half is kept as a Fund to release discharged Prisoners.

28.—Whether the Classification required by this Act has been observed? If not, For what Reasons; and what Measures have been taken to remedy this Defect?—NOT in every point. Convicted Felons and Convicted Misdemeanors have been kept together, except when the Transport Ward is empty, then they have been divided into two Classes, for want of more Wards. No measures have been taken to remedy this Defect, for generally there are but a very few of each Class.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—MORNING and Evening Service with a Sermon on Sundays, Christmas-day and Good Friday. Prayers on Wednesday and Friday Mornings. The Chaplain visits the Prisoners in their Wards on Wednesdays, Fridays and Saturdays, and superintends the Prisoners' Reading and other Religious Instructions. Weekly attendance upwards of six Hours. Books are supplied by the Chaplain. His Journal is kept with care.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—SURGEON attends almost Daily. There are Separate Apartments for the Sick, viz. the top Cells in the Vagrants' Ward is used for that purpose.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—PRISONERS before Trial, Prisoners sentenced to Solitary Confinement, and some of the Prisoners under Conviction, and not sentenced to Hard Labour.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—IN Irons for Escape, &c., Solitary Confinement for refractory Conduct, disobedience of Orders, Swearing, &c.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NONE.

34.—General Observations.—THE Keeper reads Prayers on Monday, Tuesday, Thursday and Saturday mornings. Crime is on the Decrease in this City. Many of the Prisoners committed here for Felony during the last year, have been removed to the County Gaol, the Robbery having been committed in the County.

No. 62.—CITY OF YORK.

City of York :

Michaelmas Quarter Sessions, October 17, 1834, and by Adjournment, November 11, 1834.

THE General Annual Gaol REPORT required by statute 4 Geo. 4, c. 64, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales;" of the state and condition of the two Prisons, called the Gaol and House of Correction in and for the City of York and County of the same City, prepared by the Clerk of the Peace, founded on the Reports of the Visiting Justices and the Chaplain, and on the Certificates of the Keepers of the said several Prisons, and submitted to and approved by the Court of Quarter Sessions of the Peace now held in and for the said City and County of the same City.

AS regards the prison called the Gaol, the rules for classification and government prescribed by the Act, have, during the past year, been generally complied with and carried into effect, and the conduct of the several officers of the prison has been satisfactory. The buildings are in most excellent condition. The only male prisoner confined to hard labour, has been daily employed in pumping water for the whole of the prison, in performing various menial offices in the same, and in keeping neat and clean the areas and grounds of the Prison.

With respect to the prison called the House of Correction, the report of the Visiting Justices testifies the particularly neat and cleanly state of the prison, and the very excellent order, good management and discipline, constantly maintained in it. The alterations which have been made in and adjoining to the prison during the past summer, for the purpose of allowing full employment for the prisoners committed to hard labour, in breaking stones for the roads, are likely to prove highly beneficial, not only in promoting the general health of the prisoners, but also in defraying a very considerable proportion of the expense of supporting and maintaining such prisoners. By the very judicious and active exertions of Mr. Gawthorp, the keeper of the prison, the useful occupation above mentioned has been carried into full operation at a very moderate expense, and thereby the intention of the Legislature as to prison discipline and laborious employment has been fulfilled, whilst the constant expense of keeping in repair a tread-wheel, affording no pecuniary advantages, is avoided, and a salutary and active substitute, promising very substantial results, has been obtained. The classification, government and regulation of the prison, have, during the past year, been strictly conformable with the provisions of the Act, and the conduct of all the officers of the prison has been strictly satisfactory.

It appears from the report of the Chaplain, that he has read portions of the Scriptures and appropriate forms of Prayer at the prisons, every week-day morning, viz. every Monday, Wednesday and Friday at the Gaol, and every Tuesday, Thursday and Saturday, at the House of Correction. Prayers selected by the Chaplain have, in accordance with a regulation made by the Visiting Justices, been read by the keepers of the respective prisons on the three alternate days.

The Chaplain has also read morning and evening prayers, and preached a Sermon every Sunday, and on Christmas-day and Good Friday at each prison; and to the best of his ability has performed such other duties as are required by the Act 4 Geo. 4, c. 64, s. 10, rule 9, and also by sections 54 and 34 of the said Act. The prisoners have been supplied with Bibles, Testaments, Common Prayer-books, and other suitable Books and Tracts. Most of them have been able to read, and those who could read well have instructed the rest, and proper books have been provided for that purpose. The attention and good conduct of the prisoners during the year has been in general satisfactory, and in some instances a salutary change has been manifested in their religious and moral condition.

N° 63.—TOWN OF KINGSTON-UPON-HULL.

Town of Kingston-upon-Hull, } GENERAL REPORT of the State and Condition of
and County of the same Town. } the united Gaol and House of Correction in and for the
Town of Kingston-upon-Hull, and County of the same Town, founded on the Report
of the Visiting Justices, the Chaplain, and Certificate of the Governor or Keeper of
the said Gaol, and submitted to and approved by the Justices of our Lord the King,
assembled at their General Quarter Sessions of the Peace, held at the Guildhall in
and for the said Town and County, the 16th day of October, in the year of our Lord
1834, as follows; that is to say,

THE total number of prisoners committed to the said united gaol and house of correction from the 10th day of October 1833 to the 9th day of October 1834 inclusive, has been 797, the greatest number therein at one time 126, and the total number confined therein, on the said 9th day of October 1834, was 101, of which 23 were for debt, 34 for misdemeanors, and 44 for felony.

The poor debtors who require relief and apply to the Magistrates have the prison diet the same as all other prisoners not sentenced to hard labour, and all the other prisoners are also provided for out of the county rate, by a gaol diet or allowance, which costs 2s. 1d. each prisoner per week: and the cost for clothing and bedding has been 6s. 4d. each prisoner.

The labour of the prisoners who have been committed to hard labour has been working upon the tread-mill, which consists of six wheels, namely, four wheels for males, and two wheels for females, by which whiting is manufactured.

In the summer season the hours of labour are from six in the morning until six o'clock in the evening, allowing one hour for breakfast and prayers, and one hour for dinner; from the 30th of September to the 30th of November the prisoners work nine hours; from the 30th of November to the 1st of February seven hours and a half, and from the 1st of February to the 1st of April ten hours, allowing one hour for breakfast and one hour for dinner.

The amount of profits arising from the manufactory of whiting by the prisoners at the tread-mill, from the 1st of June 1833 to the 31st day of May 1834, was 80*l.* 5*s.* 6½*d.*; which is applied as follows: two-eighths thereof to the governor, one-eighth to the taskmaster, three-eighths to the prisoners who are committed to hard labour by order of the Court of Quarter Sessions (which amount is paid to them on their discharge from prison), and the remaining two-eighths to the fund applicable to the maintenance of the said prison.

The classification of prisoners required by Act of Parliament has been strictly observed.

The prison contains fourteen classes, namely;—

In the Gaol part:

- No. 1.—Male debtors ward, consisting of two day-rooms, two airing yards, twenty-two cells or sleeping rooms, and two small work rooms.
- No. 2.—Female debtors ward, consisting of two day-rooms, where they also sleep, and one airing yard.
- No. 3.—Male convicted felons ward, consisting of two day-rooms, two airing yards, twelve cells, and two solitary cells.
- No. 4.—Female convicted felons ward, consisting of one day-room, one airing yard, seven cells, and one solitary cell.
- No. 5.—Male convicted misdemeanors ward, consisting of two day-rooms, one airing yard, three cells, and one solitary cell.
- No. 6.—Female convicted misdemeanors ward, consisting of one day-room, one airing yard, (to which yard untried female felons and misdemeanors have access, but sleep separate, and are kept separate in their day-rooms,) and two cells.
- No. 7.—Male untried felons ward, consisting of one day-room, one airing yard, six cells, and one dark room.
- No. 8.—Female untried felons ward, consisting of two day-rooms, one airing yard, three cells, and one solitary cell.
- No. 9.—Male untried misdemeanors ward, consisting of two day-rooms, one airing yard, three cells, and one solitary cell.
- No. 10.—Female untried misdemeanors: there is no ward for this class, but they occupy and are kept separate in No. 8.

In the House of Correction part:

- Nos. 11 and 12, being male misdemeanors and vagrants ward, consisting of three day-rooms, two airing yards, nine cells, and one solitary cell.
- Nos. 13 and 14, being female misdemeanors and vagrants ward (accommodated separately, except as to the airing yard in one female ward,) consisting of three day-rooms and one airing yard, six cells, and one solitary cell.

The prison is expressly built with a capability of extension at a moderate expense, whenever necessary.

The prisoners are provided with bibles, prayer-books and various religious tracts; and the service of the Church of England is regularly performed by the chaplain twice every Sunday, namely, prayers and a sermon in the morning, and in the afternoon prayers, and the younger members of the congregation catechized. The chaplain has also attended the prisoners three times in the week, and visited those who were sick, and also those in solitary confinement.

The surgeon visits the prison twice a week, and at all times when requested so to do; there are two rooms set apart for the sick.

There have been 211 cases of sickness in the year, and 18 the greatest number at one time, and one death.

It appears from the Visiting Magistrates' report, that Mr. Coates, the governor, has the internal government of the prison under very good regulations, and the prisoners under excellent discipline, and that there have been no complaints of immoral conduct, and upon the whole the demeanor of the prisoners has been quiet and orderly, and one prisoner has been removed to a licensed house for the reception of lunatics by order of the Secretary of State, and since discharged as cured.

That since the last Quarter Sessions the new rules and regulations for the government of the said united gaol and house of correction made at the same Sessions have been confirmed by the Judges of Assize at York, and have accordingly come into operation, and that the said united gaol and house of correction is insufficient, inconvenient, and otherwise quite inadequate to give effect to the said rules and regulations, and that it is absolutely necessary, for the security and proper classification of the prisoners, the said united gaol and house of correction should be altered and enlarged.

The united gaol and house of correction is under the jurisdiction and superintendence of the sheriff of the said town and county and two Visiting Magistrates. There is one gaoler or governor appointed by the Magistrates in Quarter Sessions and the Sheriff; there is also one under-keeper, one assistant keeper, one taskmaster and one matron, who are appointed by the gaoler, subject to the approval of the Magistrates. Given under our hands this 16th day of October 1834.

No. 64.—BOROUGH OF LEICESTER.

Borough of } A GENERAL REPORT of the State of the Gaol and House of Correction
Leicester. } of the Borough of Leicester, submitted to the Justices assembled at the Quarter Sessions of the Peace, holden in and for the said Borough and the Liberties thereof, in the month of October 1834, and by them directed to be presented to His Majesty's Secretary of State, pursuant to the Statute of the 4th Geo. 4, c. 64.

THE Justices assembled at this Session feel much satisfaction in being able to make a favourable Report as to the state and condition of the Gaol and House of Correction for this Borough throughout the past year.

The above-mentioned premises having been recently reconstructed so as to comply as near as may be with the enactments of the Gaol Act as to classification, labour, &c., no repairs, additions or alterations have been made or been required during the last year.

No abuse or abuses whatever in the management of either Prison have been observed by the Visiting Justices, nor have they received information of any during the above-mentioned period; but, on the contrary, the conduct of the Gaoler, Matron, Keeper of the House of Correction and Turnkeys, has been entirely approved of by them, and the attendance of the Chaplain and Surgeon of the Prisons to their several duties has been regular and quite satisfactory.

Though the number of Prisoners committed during the year to each Prison has been very large, namely, 742 to the Gaol and 74 to the House of Correction, there have been but few complaints of breaches of the rules and discipline of the Prisons, and those of by no means a serious character.

No death has occurred in either Prison during the year, and but few cases of illness.

(signed) *Edward Goulburn*, Recorder and Chairman.

34.—General Observations.—THERE have been 1,462 Prisoners in the course of the current Year. The Gaol has been Painted and Whitewashed, and the necessary Repairs done and paid for by the Corporation.

(signed) W^m Neighbour, Keeper.

66.—TOWN OF NEWCASTLE-UPON-TYNE.

The GENERAL REPORT prepared by John Clayton, Clerk of the Peace for the Town and County of the Town of Newcastle-upon-Tyne, as directed by an Act of Parliament made and passed in the fourth year of the reign of his late Majesty King George the Fourth, intituled, "An Act for consolidating and amending the Laws relating to the building, repairing and regulating of certain Gaols and Houses of Correction in England and Wales," (4 Geo. 4, c. 64, s. 24,) of the state and condition of the several Prisons within the said Town and County, founded on the Report of the Visiting Justices, on the Report of the Chaplain, and on the Certificates of the Keeper of such Prisons, and by such Clerk of the Peace submitted to His Majesty's Justices of the Peace in and for the said Town and County, assembled at the Michaelmas General Quarter Sessions of the Peace holden in and for the said Town and County, at the Guildhall in the said Town, on Wednesday the 15th day of October 1834, for the approval of the said Justices.

THE common gaol and house of correction of the town and county of Newcastle-upon-Tyne (which are the only prisons within the same) are inclosed in the same boundary wall, and are under the superintendence of the same keeper. They are new prisons, and were occupied for the first time on the 25th day of February 1823.

It appears from the reports of the Visiting Justices and of the Chaplain, and from the certificates of the keeper of these prisons, that they are conducted in a very creditable manner; and that as far as they are applicable, the rules and regulations contained in the 24th section of the 4th Geo. 4, c. 64, and in the 10th section of the 5th Geo. 4, c. 85, have been complied with, and that the classification required by these rules has been attended to, as far as the size of the prisons will admit.

By the report of the Visiting Justices, it appears that the morals of the prisoners have been watched over by the chaplain, who has performed all the duties required of him by law, to the entire satisfaction of those visitors. He provides all the prisoners who can read, with Bibles and books of a religious and moral character.

The health of the prisoners has been strictly attended to by the keeper and the surgeons, the latter having made their visits fully in accordance with the provisions of the Act of Parliament; and though a considerable number of prisoners have been sick in the course of the past year, it is satisfactory to state that a great majority of the cases were slight, and that only one prisoner had died in the course of that period.

Discipline has been properly attended to by the keeper and other officers. All prisoners who were sentenced to hard labour have been regularly employed at hard labour (except when sick); and such as were sentenced to imprisonment without hard labour, and maintained at the expense of the county, have been regularly employed at work not severe.

By the employment of prisoners in breaking stones for the highways, a considerable saving has been effected in the expense of maintenance. It has been found that by paying each prisoner sentenced to hard labour one-sixth part of his earnings on his discharge, a much greater quantity of work has been performed than when a prisoner had nothing to expect from his labour.

It appears from a return made up by the keeper for the year ending the week preceding this sessions (a copy of which will accompany this report) that the gaol of this town and county is capable of containing 40 prisoners in separate sleeping cells, viz. 18 in debtors in bed rooms, and 22 criminals, and that the number of prisoners which it is capable of containing, where more than one prisoner sleeps in one cell, is 50, viz. 22 debtors and 28 criminals. That there were 54 prisoners in it when the return was made up, viz. 20 male debtors and 2 female debtors, 18 male and 3 female misdemeanants, and 2 male and 9 female felons. That 477 prisoners have been committed in the course of the year, viz. 208 debtors, and 269 criminals; and that the greatest number of prisoners at one time in the course of the last year has been 69. That there are 6 classes, wards or divisions, but no work rooms, and 7 day rooms, and six airing yards; and that these classes cannot be extended or increased but by an additional radiating building, for which there is a site.

It also appears from another return made up by the keeper for the year ending as above, (a copy of which will accompany this report), that the house of correction is capable of containing 26 prisoners in separate sleeping cells, and 54 prisoners in cells where more than 1 prisoner sleeps in 1 cell. That there were 72 prisoners in the latter prison when the return was made up, viz. 40 male and 23 female misdemeanants, and 8 male felons, and 1 female felon. That the number of prisoners committed in the course of the year was 422, viz. 241 males and 181 females, and that the greatest number at any one time in the course of the last year was 88. That there are 6 classes, wards or divisions, (no prisoner being committed there before trial) no work rooms, 6 day rooms and 4 airing yards, none of which can be extended or increased.

At the said Michaelmas General Quarter Sessions of the Peace, the foregoing Report was submitted to the Justices then and there assembled, and approved of by them.

Chairman of the said Sessions.

is allowed a Bed and three coarse Rugs. Necessary Clothing for Criminals provided for the House of Correction when needful. Cost per Head, for Debtors, 2*l.* 2*s.*, and for Criminals, 1*l.* 1*s.*

25.—Description of Employment and Hard Labour?—MALE Prisoners are employed in breaking Stones for the Corporation of the Town, and Females in knitting, sewing, washing and cleaning the Wards, and other menial offices about the Prison.

26.—Hours of Labour and of Exercise?—FROM Lady-day to Michaelmas-day the hours of Labour are from half-past Six in the Morning to Six in the Evening; and from Michaelmas-day to Lady-day from Sun-rise to Sun-set; one hour and a half being allowed for Breakfast and attendance at Chapel, and one hour for Dinner. All classes of unemployed Prisoners have access to the Airing Yards from the time of unlocking in the Morning to the time of locking them in the Day Rooms in the Evening. Prisoners that are employed may take exercise about an hour every day. On Sundays all Classes of Prisoners have access to the Airing Yards during the day, except when attending Divine Service.

27.—Amount of Earnings, how applied, and in what Proportion to each Class of Prisoners, to the Officers of the Prison, and to the Fund applicable to the Maintenance of the said Prison?—THE Earnings for breaking Stones amount this year to 6*l.* 14*s.*; one half of which has been paid to Prisoners so employed, and not put to Hard Labour. The other proportion has been applied to the Fund applicable to the maintenance of the Prison, viz. the County Rate. No proportion whatever to the Officers of the Prison.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act has been observed, as far as the size of the Prison will allow.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain on every Sunday Morning throughout the Year, and on the Mornings of every Christmas-day and Good Friday performs the appointed Morning Service of the Church of England and preaches a Sermon; such Service commencing at Nine o'clock. And on every Sunday Afternoon throughout the Year, and in the Afternoon of every Christmas-day and Good Friday he performs the appointed Evening Service of the Church of England, such Service commencing at Two o'clock; and on every Morning throughout the Year, at Nine o'clock (except Sundays, Christmas-day and Good Friday). Prayers selected from the Liturgy of the Church of England by the Chaplain are read by the Keeper of the Prison. The Chaplain distributes Bibles and other Books of a Religious and Moral Character to all who can read; he exhorts and admonishes the hardened and refractory, and attends to the spiritual wants of all who require his assistance. A Schoolmaster and Schoolmistress are employed under the direction of the Chaplain in a commodious apartment in the Prison, instructing the Male and Female Prisoners on alternate days in reading and writing.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon visits the Prison daily, and sees regularly twice a Week every Prisoner confined therein. He examines every Prisoner on being brought into the Prison, and before being passed to their proper Wards. The name of every Sick Prisoner is entered in his Journal, the nature of the Disease and Medical Treatment. Of cases this year requiring Medicine or Surgical Treatment, a large proportion were of a Chronic nature, not requiring confinement. Separate Apartments are provided for the Sick in every Ward, except the Debtor's Ward. Debtors when Sick are attended in their Bed-rooms.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—BECAUSE 208 are Debtors, and 153 are Prisoners committed for Trial, and Prisoners who maintain themselves, and therefore cannot be employed without their own consent, and none having so consented.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—DISOBEDIENCE of any of the Rules of the Prison, but principally for attempting to escape, striking, threatening or forcibly resisting the Officers in the execution of their duty, profane cursing and swearing, quarrelling, assaulting, gaming with or defrauding a fellow Prisoner, indecent behaviour, disrespectful behaviour to the Chaplain, irreverent behaviour at Chapel.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NO Insane Prisoners in Confinement.

34.—General Observations.—SINCE the last Return was made, a School for the instruction of Prisoners in reading and writing has been established in a convenient Apartment in the Prison, and the duties of Schoolmaster and Schoolmistress are performed on alternate Days of the Week by the principal Taskmaster of the House of Correction, and by the Wife of the Turnkey of the Gaol, who, for the performance of such duty, are severally paid a Salary of 10*l.* per annum.

No proportion whatever to the Officers of the Prison.

28.—Whether the Classification required by this Act has been observed? If not, for what Reasons; and what Measures have been taken to remedy this Defect?—THE Classification required by this Act has been observed as far as the size of the Prison will admit.

29.—What Duties are performed by the Chaplain, what Provision made for Instruction, and whether Prisoners are supplied with Bibles and other Books?—THE Chaplain on every Sunday Morning throughout the Year, and on the Morning of every Christmas-day and Good Friday, performs the appointed Morning Service of the Church of England, and preaches a Sermon, such Service commencing at Nine o'Clock; and every Sunday Afternoon throughout the Year, and in the Afternoon of every Christmas-day and Good Friday he performs the appointed Evening Service of the Church of England, such Service commencing at Two o'Clock; and on every Morning throughout the Year at Nine o'Clock (Sundays, Christmas-day and Good Friday excepted), Prayers, selected from the Liturgy of the Church of England by the Chaplain, are read by the Keeper of the Prison. The Chaplain distributes Bibles and other Books of a Religious and Moral Character to all who can read. He exhorts and admonishes the hardened and refractory, and attends to the spiritual Wants of all who require his assistance. A Schoolmaster and Schoolmistress are employed in a commodious apartment in the Prison in instructing the Male and Female Prisoners in Reading and Writing.

30.—Attendance of the Surgeon, and whether separate Buildings or Apartments are provided for the Sick?—THE Surgeon visits the Prison daily, and sees regularly twice a Week every Prisoner confined therein. He examines every Prisoner on being brought into Prison, before being passed to their respective Wards. The name of every sick Prisoner is entered in his Journal, the nature of the Disease and Medical Treatment. Of 326 cases this year requiring Medicine and Surgical Treatment, a large proportion were of a chronic nature, not requiring confinement. Separate Apartments are provided for the Sick.

31.—Reasons for Non-employment of Prisoners, with reference to Column 15.—EVERY Prisoner has been employed.

32.—Reasons for Punishments, by Solitary Confinement, by Whipping, or Irons.—DISOBEDIENCE of any of the Rules of the Prison, but principally for attempting to escape, refusing to work, striking, threatening, or forcibly resisting the Officers in the execution of their duty, profane cursing and swearing, quarrelling, assaulting, gaming with or defrauding a fellow prisoner, indecent behaviour, disrespectful behaviour to the Chaplain, and irreverent behaviour at Chapel.

33.—Is there any Insane Prisoner in Confinement? State his or her Name, Age, and for what Offence committed? How long has he or she been in Confinement? How long has he or she been Insane?—NO Insane Prisoner in Confinement.

34.—General Observations.—SINCE the last Return was made, a School for the instruction of the Prisoners in Reading and Writing has been established in a convenient part of the Prison, and the duties of Schoolmaster and Schoolmistress are performed on alternate Days by the principal Taskmaster in the House of Correction, and the Wife of the Turnkey of the Gaol, who for the performance of such Duty are severally paid a salary of 10*l.* per annum.
